B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Adlyxin may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of type 2 diabetes **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to metformin, Victoza **AND** either Ozempic or Rybelsus

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 0.2 mL per day

If an exception is made, Adlyxin will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

metformin, Ozempic*, Victoza*, Rybelsus*, Trulicity*

*prior authorization required

**SUBJECT: Xultophy**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Xultophy for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Xultophy may be made for members who meet the following criteria:

- Electronic step therapy of on-line prescription drug claims history showing 15 days use of a formulary GLP-1 agonist **OR** a formulary long-acting basal insulin product, within the previous 180 days. If this electronic step is met, the claim will automatically adjudicate **OR**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to one formulary GLP-1 agonist **OR** one formulary long-acting basal insulin product

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 15 mL per 30 days

If an exception is made, Xultophy will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Rydapt may be made for members who meet the following criteria:

**AML**

- Medical record documentation that Rydapt is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of newly diagnosed acute myeloid leukemia (AML) that is FLT3 mutation positive as detected by a Food and Drug Administration (FDA)-approved test **AND**
- Medical record documentation that Rydapt will be administered in combination with standard cytarabine and daunorubicin induction and cytarabine consolidation

**NOTE:** Rydapt is not indicated as a single-agent induction therapy for the treatment of patients with AML.

**ASM / SM-AHN / MCL**

- Medical record documentation that Rydapt is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**

- Medical record documentation of a diagnosis of aggressive systemic mastocytosis (ASM), systemic mastocytosis associated with hematological neoplasm (SM-AHN), or mast cell leukemia (MCL)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:**

- AML
  - In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, and 56 capsules per 21 days (max quantity 56, min/max day supply 21. *QL must be entered within the authorization.*
  - QL FOR LETTER: 56 capsules per 21 days
- ASM / SM-AHN / MCL:
  - *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*
  - QL FOR LETTER: 224 capsules per 28 days

**RE-AUTHORIZATION CRITERIA:** Rydapt is configured as a prior authorization for new starts only. Rydapt will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved Rydapt will be paid for under the member's prescription drug benefit.

| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Zejula for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Zejula may be made for members who meet the following criteria:

**First-line Maintenance Treatment of Advanced Ovarian Cancer**

- Medical record documentation that Zejula is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of advanced epithelial ovarian, primary peritoneal, or fallopian tube cancer **AND**
- Medical record documentation that Zejula is being used as maintenance treatment **AND**
- Medical record documentation that member is in complete or partial response to first-line platinum-based chemotherapy **AND**
- Medical record documentation that Zejula is being given at a dosage consistence with Food and Drug Administration (FDA)-approved labeling*

**Maintenance Treatment of Recurrent Germline BRCA-Mutated Ovarian Cancer**

- Medical record documentation that Zejula is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of deleterious or suspected deleterious germline BRCA-mutated recurrent epithelial ovarian, primary peritoneal, or fallopian tube cancer **AND**
- Medical record documentation that Zejula is being used as maintenance treatment **AND**
- Medical record documentation of receiving at least 2 prior platinum-containing regimens **AND**
- Medical record documentation of a complete or partial response to the most recent platinum based chemotherapy **AND**
- Medical record documentation that Zejula is being given at a dosage consistent with Food and Drug Administration (FDA)-approved labeling (300mg once daily)

***NOTE:** For the first-line treatment of advanced ovarian cancer:

- For patient weight less than 77 kg (170 lbs) **OR** with a platelet count of less than 150,000/µL, the recommended dose is 200 mg (two 100-mg capsules taken orally once daily).
- For patient weight greater than or equal to 77 kg (170 lbs) **AND** who have a platelet count greater than or equal to 150,000/µL the recommended dose is 300 mg (three 100-mg capsules) taken orally once daily.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 3 tablets per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Zejula is configured as a prior authorization for new starts only. Zejula will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved Zejula will be paid for under the member's prescription drug benefit.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Eucrisa may be made for members who meet the following criteria:

- Medical record documentation that Eucrisa is prescribed by or in consultation with a dermatologist **AND**
- Medical record documentation of a diagnosis of mild to moderate atopic dermatitis **AND**
- **For members 2 years of age and older:** Medical record documentation of contraindication to, intolerance to, or therapeutic failure on tacrolimus ointment **AND**
- Medical record documentation of contraindication to, intolerance to, or therapeutic failure on at least two (2) formulary topical corticosteroids unless deemed inadvisable due to potential risks such as (a) use on sensitive skin areas (face, axillae, or groin) or (b) member is less than 15 years of age

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

If a formulary exception is approved Eucrisa will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

tacrolimus ointment

**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)

**Medium-potency topical corticosteroids:** betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)

**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)

**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam, spray (Temovate/Clobex/Olux) diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E), fluocinonide 0.1% cream (Vanos), halobetasol 0.05% cream and ointment (Ultravate)

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Dupixent for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Dupixent may be made for members who meet the following criteria:

**Atopic Dermatitis**

- Medical record documentation that Dupixent is prescribed by or in consultation with an allergist, dermatologist, or immunologist **AND**
- Medical record documentation of age greater than or equal to 6 months **AND**
- Medical record documentation of a diagnosis of moderate to severe atopic dermatitis **AND**
- Medical record documentation of one of the following:
    - Therapeutic failure* on an adequate trial of at least one medium (or higher) potency topical corticosteroid **OR**
    - For members with an intolerance or contraindication to topical corticosteroids or for members in whom topical corticosteroids are inadvisable (use on sensitive areas, age between 2 and 15 years): Therapeutic failure on, intolerance to, or contraindication to a topical calcineurin inhibitor **AND**
- Medical record documentation of contraindication to, intolerance to, or therapeutic failure on an adequate trial of phototherapy (UVA/UVB treatment) **AND**
- Medical record documentation that the member is receiving an appropriate dose# based on patient's age and weight

***NOTES:** Therapeutic failure is defined as an inability to achieve and maintain remission of low to mild disease activity.

Atopic Dermatitis
Dosage in Adults (2.3):
Recommended dosage is an initial dose of 600 mg (two 300 mg injections), followed by 300 mg given every other week (Q2W).

Dosage in Pediatric Patients 6 Months to 5 Years of Age (2.3):

| Body Weight | Initial and Subsequent Dosage |
|---|---|
| 5 to less than 15 kg | 200 mg (one 200 mg injection) every 4 weeks (Q4W) |
| 15 to less than 30 kg | 300 mg (one 300 mg injection) every 4 weeks (Q4W) |

Dosage in Pediatric Patients 6 Years to 17 Years of Age (2.3):

| Body Weight | Initial Loading Dose | Subsequent Dosage[a] |
|---|---|---|
| 15 to less than 30 kg | 600 mg (two 300 mg injections) | 300 mg Q4W |
| 30 to less than 60 kg | 400 mg (two 200 mg injections) | 200 mg Q2W |
| 60 kg or more | 600 mg (two 300 mg injections) | 300 mg Q2W |

[a] Q2W – every other week; Q4W – every 4 weeks

**AUTHORIZATION DURATION**: Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate. The medication will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

- Medical record documentation of continued disease improvement or lack of disease progression **AND**
- Medical record documentation that the member is receiving an appropriate dose[#] based on patient's age and weight

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT**

- **Initial Approval**
  - 600 mg once, followed by 300 mg every other week
    1. In NCRx: Add Treat as "Include" Process Modifier, Ignore Misc Handler, DS, enter 1 in max number of claims authorized, max quantity dispensed 8, minimum day supply 42, and maximum day supply 42 with a duration of two-weeks.
    2. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, and max quantity dispensed 4 with a start date 1 day after the loading dose ends for the remainder of the authorization.
       - QL FOR LETTER: Loading dose: 8 mL per 42 days, Maintenance dose: 4 mL per 28 days
  - 600 mg once, followed by 300 mg every four weeks

1. In NCRx: Add Treat as “Include” Process Modifier, Ignore Misc Handler, DS, enter 1 in max number of claims authorized, max quantity dispensed 8, minimum day supply 42, and maximum day supply 42 with a duration of two-weeks.
2. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, and max quantity dispensed 2 with a start date 1 day after the loading dose ends for the remainder of the authorization.
    - QL FOR LETTER: Loading dose: 8 mL per 42 days, Maintenance dose: 2 mL per 28 days

- 400 mg once, followed by 200 mg every other week
    1. In NCRx: Add Treat as “Include” Process Modifier, Ignore Misc Handler, DS, enter 1 in max number of claims authorized, max quantity dispensed 4.56, minimum day supply 42, and maximum day supply 42 with a duration of two-weeks.
    2. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, and max quantity dispensed 2.28 with a start date 1 day after the loading dose ends for the remainder of the authorization.
        - QL FOR LETTER: Loading dose: 4.56 mL per 42 days, Maintenance dose: 2.28 mL per 28 days
- 200 mg every four weeks
    1. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, DS, max quantity dispensed 2.28, minimum day supply 56, and maximum day supply 56.
        - QL FOR LETTER: 2.28 mL per 56 days
- 300 mg every four weeks
    1. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, DS, max quantity dispensed 4, minimum day supply 56, and maximum day supply 56.
        - QL FOR LETTER: 4 mL per 28 days

- **Renewal –**
    - 300 mg every other week
        1. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, and max quantity dispensed 4.
            - QL FOR LETTER: 4 mL per 28 days
    - 300 mg every four weeks
        1. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, DS, max quantity dispensed 4, minimum day supply 56, and maximum day supply 56.
            - QL FOR LETTER: 4 mL per 28 days
    - 200 mg every other week

1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, and max quantity dispensed 2.28.
    - QL FOR LETTER: 2.28 mL per 28 days

- 200 mg every four weeks
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, DS, max quantity dispensed 2.28, minimum day supply 56, and maximum day supply 56.
        - QL FOR LETTER: 2.28 mL per 56 days

****Topical Corticosteroid Potency Chart:**

| Potency Group | Corticosteroid | Vehicle/Form | Strength |
|---|---|---|---|
| **Super-high Potency** | Betamethasone dipropionate, augmented | Ointment, Lotion, Gel | 0.05% |
| | Clobetasol propionate | Ointment, Cream, Gel, Lotion Foam, Shampoo, Solution, Spray | 0.05% |
| | Fluocinonide | Cream | 0.1% |
| | Halobetasol propionate | Ointment, Cream, Lotion | 0.05% |
| **High Potency** | Amcinonide | Ointment | 0.1% |
| | Betamethasone dipropionate | Ointment, Cream | 0.05% |
| | Desoximetasone | Cream | 0.05% |
| | Diflorasone diacetate | Cream | 0.05% |
| | Fluocinonide | Cream | 0.05% |
| | Fluticasone propionate | Ointment | 0.005% |
| | Mometasone furoate | Ointment | 0.1% |
| | Triamcinolone acetonide | Ointment, Cream | 0.5% |
| **Medium Potency** | Betamethasone dipropionate | Spray | 0.05% |
| | Clocortolone pivalate | Cream | 0.1% |
| | Fluocinolone acetonide | Ointment | 0.025% |
| | Flurandrenolide | Ointment | 0.05% |
| | Hydrocortisone valerate | Ointment | 0.2% |
| | Mometasone furoate | Cream, Lotion, Solution | 0.1% |
| | Triamcinolone acetonide | Cream, Ointment | 0.1% |
| | | Aerosol Spray | 0.2% |
| **Lower-mid Potency** | Betamethasone dipropionate | Lotion | 0.05% |
| | Betamethasone valerate | Cream | 0.1% |
| | Desonide | Ointment, Gel | 0.05% |
| | Fluocinolone acetonide | Cream | 0.025% |
| | Flurandrenolide | Cream, Lotion | 0.05% |
| | Fluticasone propionate | Cream, Lotion | 0.05% |
| | Hydrocortisone butyrate | Ointment, Cream, Lotion, Solution | 0.1% |
| | Hydrocortisone probutate | Cream | 0.1% |
| | Hydrocortisone valerate | Cream | 0.2% |
| | Prednicarbate | Cream, Ointment | 0.1% |
| | Triamcinolone acetonide | Lotion | 0.1% |
| | | Ointment | 0.025% |
| **Low Potency** | Alclometasone dipropionate | Ointment, Cream | 0.05% |
| | Betamethasone valerate | Lotion | 0.1% |
| | Desonide | Cream, Lotion, Foam | 0.5% |

| | | | |
|---|---|---|---|
| | Fluocinolone acetonide | Cream, Solution, Shampoo, Oil | 0.01% |
| | Triamcinolone acetonide | Cream, Lotion | 0.025% |
| **Least Potent** | Hydrocortisone (base) | Ointment, Cream, Lotion, Solution, Spray, Foam | 0.5%, 1%, 2%, 2.5% |

**FORMULARY ALTERNATIVES:**

Systemic Therapies:
azathioprine, cyclosporine, methotrexate, mycophenolate

Topical Therapies:
Calcineurin Inhibitors: tacrolimus ointment, pimecrolimus cream*
Eucrisa*
**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)
**Medium-potency topical corticosteroids:** betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)
**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)
**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam, spray (Temovate/Clobex/Olux) diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E), fluocinonide 0.1% cream (Vanos), halobetasol 0.05% cream and ointment (Ultravate)

*prior authorization required

**Asthma**

- Medical record documentation that Dupixent is prescribed by or in consultation with an allergist, immunologist, or pulmonologist **AND**
- Medical record documentation of age greater than or equal to 6 years **AND**
- Medical record documentation of one of the following:
  - A diagnosis of moderate to severe eosinophilic asthma **AND** a blood eosinophilic count greater than or equal to 150 cells/microL **OR**
  - A diagnosis of oral corticosteroid dependent asthma **AND**
- Medical record documentation that Dupixent will be used as an add-on maintenance treatment **AND**
- Medical record documentation of one of the following:
  - Contraindication, intolerance to, or poorly (not well) controlled symptoms despite at least a 3-month trial of: maximally tolerated inhaled corticosteroids and/or oral systemic corticosteroids plus a long-acting beta agonist **OR**
  - One exacerbation in the previous 12 months requiring additional medical treatment (oral corticosteroids, emergency department or urgent care visits, or hospitalization) despite current therapy or intolerance to inhaled corticosteroids plus a long-acting beta agonist **AND**
- Medical record documentation that Dupixent will not be used in combination with another biologic medication indicated for asthma treatment (e.g., Xolair, Fasenra, Nucala, Cinqair, or Tezspire) **AND**
- Medical record documentation that the member is receiving an appropriate dose[#] based on patient's age and weight

**Measures of Disease Severity**

| Measure | **Not Well Controlled** | **Very Poorly Controlled** |
|---|---|---|
| Symptoms | > 2 days per week | Throughout the day |
| Nighttime awakenings | 1-3x/week | > 4x/week |
| Interference with normal activity | Some limitation | Extremely limited |
| SABA use for symptom control (not to prevent exercise-induced bronchospasm) | > 2 days/week | Several times per day |
| FEV1 (% predicted) or peak flow (% personal best) | 60-80% | < 60% |
| Asthma Control Test (ACT) Score | 16-19 | < 15 |

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**#NOTE:**

Asthma

Dosage in Adult and Pediatric Patients 12 Years and Older

| Initial Loading Dose | Subsequent Dose |
|---|---|
| 400 mg (two 200 mg injections) | 200 mg every 2 weeks (Q2W) |
| or | |
| 600 mg (two 300 mg injections) | 300 mg every 2 weeks (Q2W) |
| **Dosage for patients with oral corticosteroid-dependent asthma or with co-morbid moderate-to-severe atopic dermatitis or adults with co-morbid chronic rhinosinusitis with nasal polyposis** | |
| 600 mg (two 300 mg injections) | 300 mg every 2 weeks (Q2W) |

Dosage in Pediatric Patients 6 to 11 Years of Age

|---|---|
| 15 to less than 30 kg | 100 mg every other week (Q2W)<br>or<br>300 mg every four weeks (Q4W) |
| ≥30 kg | 200 mg every other week (Q2W) |

**QUANTITY LIMIT**

- **Initial Approval**
  - 600 mg once, followed by 300 mg every other week
    1. In NCRx: Add Treat as “Include” Process Modifier, Ignore Misc Handler, DS, enter 1 in max number of claims authorized, max quantity dispensed 8, minimum day supply 42, and maximum day supply 42 with a duration of two-weeks.
    2. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, and max quantity dispensed 4 with a start date 1 day after the loading dose ends for the remainder of the authorization.
       - QL FOR LETTER: Loading dose: 8 mL per 42 days, Maintenance dose: 4 mL per 28 days
  - 400 mg once, followed by 200 mg every other week
    1. In NCRx: Add Treat as “Include” Process Modifier, Ignore Misc Handler, DS, enter 1 in max number of claims authorized, max quantity dispensed 4.56, minimum day supply 42, and maximum day supply 42 with a duration of two-weeks.
    2. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, and max quantity dispensed 2.28 with a start date 1 day after the loading dose ends for the remainder of the authorization.
       - QL FOR LETTER: Loading dose: 4.56 mL per 42 days, Maintenance dose: 2.28 mL per 28 days

- 300 mg every four weeks (no loading dose required)
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, DS, max quantity dispensed 4, minimum day supply 56, and maximum day supply 56.
        - QL FOR LETTER: 4 mL per 28 days
- 100 mg every other week (no loading dose required)
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, and max quantity dispensed 1.34
        - QL FOR LETTER: 1.34 mL per 28 days
- 200 mg every other week (no loading dose required)
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, and max quantity dispensed 2.28
        - QL FOR LETTER: 2.28 mL per 28 days

- **Renewal –**
    - 300 mg every other week
        1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, and max quantity dispensed 4
            - QL FOR LETTER: 4 mL per 28 days
    - 300 mg every four weeks
        1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, OUP, DS, max quantity dispensed 4, minimum day supply 56, and maximum day supply 56.
            - QL FOR LETTER: 4 mL per 28 days
    - 200 mg every other week
        1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, and max quantity dispensed 2.28
            - QL FOR LETTER: 2.28 mL per 28 days
    - 100 mg every other week
        1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, and max quantity dispensed 1.34
            - QL FOR LETTER: 1.34 mL per 28 days

**AUTHORIZATION DURATION**: Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate. The medication will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

- Medical record documentation of continued disease improvement or lack of disease progression **AND**

- Medical record documentation that the member is receiving an appropriate dose[#] based on patient's age and weight

**FORMULARY ALTERNATIVES:**
Inhaled Therapies: Arnuity Ellipta, Asmanex, Flovent, Pulmicort Flexhaler, QVAR RediHaler, fluticasone/salmeterol, Breo Ellipta, Dulera

Systemic Therapies: prednisone, dexamethasone, methylprednisolone, prednisolone

**Chronic Rhinosinusitis with Nasal Polyposis (CRSwNP)**

- Medical record documentation that Dupixent is prescribed by or in consultation with an allergist, pulmonologist, immunologist, or otolaryngologist (ENT provider) **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of chronic rhinosinusitis with nasal polyposis (CRwNP) **AND**
- Medical record documentation that Dupixent will be used as add-on maintenance treatment **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) intranasal corticosteroids **AND**
- Medical record documentation that the member is receiving an appropriate dose[#] based on patient's age and weight

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

[#]**NOTE:** Recommended dosage for adult patients is 300 mg given every other week. No loading dose is required.

**QUANTITY LIMIT:**

- 300 mg every other week
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, and max quantity dispensed 4.

fluticasone propionate, triamcinolone acetonide, mometasone furoate

**Eosinophilic Esophagitis**

- Medical record documentation that Dupixent is prescribed by or in consultation with an allergist, immunologist, or gastroenterologist **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of weight greater than or equal to 40 kilograms **AND**
- Medical record documentation of a diagnosis of eosinophilic esophagitis **AND**
- Medical record documentation of greater than or equal to 15 intraepithelial eosinophils per high-power field (eos/hpf) **AND**
- Medical record documentation of contraindication to, intolerance to, or therapeutic failure on a proton pump inhibitor **AND**
- Medical record documentation that the member is experiencing chronic symptoms of esophageal dysfunction (for example, dysphagia, food impaction, food refusal, abdominal pain, heartburn, regurgitation, chest pain, odynophagia) **AND**
- Medical record documentation of contraindication to, intolerance to, or therapeutic failure on a swallowed inhaled respiratory glucocorticoid **AND**
- Medical record documentation that the member is receiving an appropriate dose[#] based on patient's age and weight

[#]**NOTE:** Recommended dosage for patients aged 12 years and older is 300 mg given once weekly. No loading dose is required.

**QUANTITY LIMIT**

- 300 mg once weekly
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, and max quantity dispensed 8.
        - QL FOR LETTER: 8 mL per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate. The medication will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

- Medical record documentation of continued disease improvement or lack of disease progression **AND**
- Medical record documentation that the member is receiving an appropriate dose# based on patient's age and weight

**FORMULARY ALTERNATIVES:**
Proton pump inhibitors: omeprazole, pantoprazole, lansoprazole, rabeprazole, esomeprazole
Inhaled respiratory glucocorticoids: budesonide inhalation suspension, Flovent HFA

**Prurigo Nodularis**

- Medical record documentation that Dupixent is prescribed by or in consultation with an allergist, immunologist, or dermatologist A**ND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of prurigo nodularis **AND**
- Medical record documentation that the member is receiving an appropriate dose[#] based on patient's age and weight **AND**
- Medical record documentation of one of the following:
  - Medical record documentation of a failure on a very-high potency topical corticosteroid (for example, clobetasol dipropionate 0.05% ointment) **OR** calcineurin inhibitor (i.e. tacrolimus) if topical corticosteroids are not advisable **OR**
  - Medical record documentation of widespread or recalcitrant disease **AND** contraindication to, intolerance to, or therapeutic failure on an adequate trial of phototherapy (UVA/UVB treatment) **AND** systemic therapy (including methotrexate and/or cyclosporine)

[#]**NOTE:** Recommended dosage for adults is 600 mg once, followed by 300 mg given every other week.

**QUANTITY LIMIT**

- **Initial Approval**
  - 600 mg once, followed by 300 mg every other week
    1. In NCRx: Add Treat as "Include" Process Modifier, Ignore Misc Handler, DS, enter 1 in max number of claims authorized, max quantity dispensed 8, minimum day supply 42, and maximum day supply 42 with a duration of two-weeks.
    2. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, and max quantity dispensed 4 with a start date 1 day after the loading dose ends for the remainder of the authorization.
       - QL FOR LETTER: Loading dose: 8 mL per 42 days, Maintenance dose: 4 mL per 28 days
- **Renewal**
  - 300 mg every other week
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, and max quantity dispensed 4.
       - QL FOR LETTER: 4 mL per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate. The medication will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

- Medical record documentation of continued disease improvement or lack of disease progression **AND**
- Medical record documentation that the member is receiving an appropriate dose# based on patient's age and weight

**FORMULARY ALTERNATIVES:**
Systemic Therapies: cyclosporine, methotrexate

Topical Therapies: Calcineurin Inhibitors: tacrolimus ointment, pimecrolimus cream*, Eucrisa*

**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam, spray (Temovate/Clobex/Olux) diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E), fluocinonide 0.1% cream (Vanos), halobetasol 0.05% cream and ointment (Ultravate)

*prior authorization required

If a formulary exception is approved Dupixent will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Trulance**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Trulance for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Trulance may be made for members who meet the following criteria:

**Chronic Idiopathic Constipation**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of chronic idiopathic constipation **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Linzess **AND** lubiprostone

**Irritable Bowel Syndrome with Constipation (IBS-C)**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of irritable bowel syndrome with constipation (IBS-C) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Linzess

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If a formulary exception is approved Trulance will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

6. ***HBV*** – Hepatitis B Virus
7. ***HCV*** – Hepatitis C Virus
8. ***HIV*** – Human Immunodeficiency Virus

**PROCEDURE:**

A formulary exception for coverage of Vosevi may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of hepatitis C infection **AND**
- Medical record documentation of the member's hepatitis C genotype **AND**
- Medical record documentation of a diagnosis of hepatitis C virus (HCV) genotype 1, 2, 3, 4, 5, or 6 infection without cirrhosis or with compensated cirrhosis **AND**
- Medical record documentation of METAVIR liver scoring or cirrhosis assessment by a non-invasive test **AND**
- Medical record documentation of a hepatocellular carcinoma screening in those with cirrhosis (METAVIR score F4) **AND**
- Medical record documentation that Vosevi is prescribed by a board-certified gastroenterologist, hepatologist, infectious disease specialist, or transplant specialist **AND**
- Medical record documentation of the member receiving a Food and Drug Administration (FDA) approved medication regimen that is inside the parameters of use approved by the FDA or supported in the widely used compendia available **AND**
- Medical record documentation of appropriate duration of treatment **AND**
- Medical record documentation of previous treatment and treatment response **AND**
- Medical record documentation of any potential drug interactions addressed by the prescriber (such as discontinuation of the interacting drug, dose reduction of the interacting drug, or counseling of the recipient of the risks associated with the use of both medications when they interact) **AND**
- Medical record documentation of receiving the following within the past 6 months:

  - Hepatic function panel
  - Complete blood count including differential
  - Basic metabolic panel **AND**
- Medical record documentation of receiving the following within a reasonable timeframe:
  - Baseline hepatitis C virus (HCV) RNA viral load **AND**
- Medical record documentation of concurrent therapy with appropriate dose and duration of weight-based ribavirin, if indicated **AND**
- Medical record documentation of a negative pregnancy test if member is female of childbearing potential and receiving ribavirin **AND**
- When concurrent ribavirin therapy is indicated and prescribed, medical record documentation for male members that their female partner is not pregnant **AND**
- If the member or their partner are of childbearing potential, medical record documentation that the member was instructed to practice effective contraception during therapy with ribavirin and for 6 months following discontinuation of ribavirin therapy **AND**
- If actively abusing alcohol or intravenous (IV) drugs, or has a history of abuse, has documentation of prescriber counseling regarding the risks of alcohol or IV drug abuse, and an offer of a referral for substance use disorder treatment **AND**
- Medical record documentation that member received pre-treatment readiness education about hepatitis C treatment expectations by a health care provider **AND**
- Medical record documentation that the member commits to the documented planned course of treatment including anticipated blood tests and visits, during and after treatment **AND**
- Medical record documentation that member does not have a limited life expectancy of less than 12 months due to non-liver related co-morbid conditions **AND**
- Medical record documentation of completed:
  - Hepatitis B immunization series **OR**
  - Hepatitis B screening (sAb/sAg and cAb/cAg) **AND** Quantitative hepatitis B virus (HBV) DNA if positive for hepatitis B sAg or cAb or cAg **AND**
    - If there is detectable hepatitis B virus (HBV) DNA, will be treated for Hepatitis B **OR**
    - If negative for hepatitis B sAb, is being vaccinated against Hepatitis B **AND**
- Medical record documentation of human immunodeficiency virus (HIV) screening (HIV Ag/Ab) and if confirmed positive by HIV-1/HIV-2 differentiation immunoassay:
  - Is being treated for human immunodeficiency virus (HIV) **OR**
  - If not being treated for human immunodeficiency virus (HIV), the medical record documents the rationale for the beneficiary not being treated **AND**
- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to Mavyret, if clinically appropriate **AND**

- Medical record documentation that member has been evaluated and treated by a contracted Center of Excellence in hepatitis C management

**OR**

- Medical record documentation of a hepatitis C negative recipient receiving a transplant from a hepatitis C positive donor **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Mavyret, if clinically appropriate

**NOTES:**

1. Center of Excellence (COE) requirements do not apply to strategic partner TPA plans (i.e., Northern Light Health).
2. Vosevi is usually reserved for treatment-experienced patients. It is an IIa recommendation according to the AASLD/IDSA Guidelines which is equivalent to Mavyret + sofosbuvir + ribavirin in most scenarios. Ribavirin is sometimes avoided due to frequent lab work.
3. Guidelines can be referenced at www.hcvguidelines.org.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: one (1) tablet per day, 28 day supply per fill

**AUTHORIZATION DURATION:** 12 weeks **OR** as per Consistent with AASLD/ IDSA Guidelines (12 weeks, 24 weeks) for Treatment Experienced patients

**APPROVAL LANGUAGE:** Meets criteria, auth x (?) weeks, RX count= (?), (28 day supply/fill), generic only [when applicable]. QL: 1 tab/day (QL for LETTER only)

If a formulary exception is approved Vosevi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

6. ***HBV*** – Hepatitis B Virus
7. ***HCV*** – Hepatitis C Virus
8. ***HIV*** – Human Immunodeficiency Virus

**PROCEDURE:**

A formulary exception for coverage of Mavyret may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 3 years **AND**
- If member is under the age or 12 years or weighs less than 45 kilograms, medical record documentation that proper weight-based dosing is prescribed **AND**
- Medical record documentation of a diagnosis of hepatitis C infection **AND**
- Medical record documentation of a diagnosis of hepatitis C virus (HCV) genotype 1, 2, 3, 4, 5, or 6 infection without cirrhosis or with compensated cirrhosis (Child-Pugh A) **AND**
- Medical record documentation of METAVIR liver scoring or cirrhosis assessment by a non-invasive test **AND**
- Medical record documentation of a hepatocellular carcinoma screening in those with cirrhosis (METAVIR score F4) **AND**
- Medical record documentation of the member receiving a Food and Drug Administration (FDA) approved medication regimen that is inside the parameters of use approved by the FDA or supported in the widely used compendia available **AND**
- Medical record documentation of appropriate duration of treatment **AND**
- Medical record documentation of previous treatment and treatment response **AND**
- Medical record documentation of any potential drug interactions addressed by the prescriber (such as discontinuation of the interacting drug, dose reduction of the interacting drug, or counseling of the recipient of the risks associated with the use of both medications when they interact) **AND**
- Medical record documentation of receiving the following within the past 6 months:
    - Hepatic function panel

    - Complete blood count including differential
    - Basic metabolic panel **AND**
- Medical record documentation of receiving the following within a reasonable timeframe:
    - Baseline hepatitis C virus (HCV) RNA viral load **AND**
- If actively abusing alcohol or intravenous (IV) drugs, or has a history of abuse, has documentation of prescriber counseling regarding the risks of alcohol or IV drug abuse, and an offer of a referral for substance use disorder treatment **AND**
- Medical record documentation that member received pre-treatment readiness education about hepatitis C treatment expectations by a health care provider **AND**
- Medical record documentation that the member commits to the documented planned course of treatment including anticipated blood tests and visits, during and after treatment **AND**
- Medical record documentation that member does not have a limited life expectancy of less than 12 months due to non-liver related co-morbid conditions **AND**
- Medical record documentation of completed:
    - Hepatitis B immunization series **OR**
    - Hepatitis B screening (sAb/sAg and cAb/cAg) **AND** Quantitative hepatitis N virus (HBV) DNA if positive for hepatitis B sAg or cAb or cAg **AND**
        - If there is detectable hepatitis B virus (HBV) DNA, will be treated for Hepatitis B **OR**
        - If negative for hepatitis B sAb, is being vaccinated against Hepatitis B **AND**
- Medical record documentation of human immunodeficiency virus (HIV) screening (HIV Ag/Ab) and if confirmed positive by HIV-1/HIV-2 differentiation immunoassay:
    - Is being treated for human immunodeficiency virus (HIV) **OR**
    - If not being treated for human immunodeficiency virus (HIV), the medical record documents the rationale for the beneficiary not being treated **AND**
- Medical record documentation that member has been evaluated and treated by a contracted Center of Excellence in hepatitis C management **AND**
- If member is greater than or equal to 12 years of age or weighs greater than or equal to 45 kilograms and the request is for packets, medical record documentation of why tablets cannot be used

**OR**

- Medical record documentation of a hepatitis C negative recipient receiving a transplant from a hepatitis C positive donor

**NOTES:**

1. Center of Excellence (COE) requirements do not apply to strategic partner TPA plans (i.e., Northern Light Health).
2. Mavyret is pangenotypic, although advised to get Genotype, it is not always necessary and do not have to list this in denial rationale.
3. Per the prescribing information, treatment duration for liver or kidney transplant recipients is 12 weeks. Geisinger has been treating kidney transplant recipients for 8 weeks with success. Please refer to guidelines at www.hcvguidelines.org.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - Tablets: three (3) tablets per day, 28 day supply per fill
  - Packets: six (6) packets per day, 28 day supply per fill

**AUTHORIZATION DURATION:** 8, 12, or 16 weeks consistent with current AASLD/IDSA guidelines or Food and Drug Administration (FDA) recommendations

**APPROVAL LANGUAGE:** Meets criteria, auth x (?) weeks, RX count= (?), (28 day supply/fill), QL: 3 tabs/day (QL for LETTER only)

If a formulary exception is approved Mavyret will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

Geisinger

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 462.0**

**SECTION: Commercial Drug**
**SUBJECT: Idhifa**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Idhifa for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Idhifa may be made for members who meet the following criteria:

- Medical record documentation that Idhifa is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of relapsed or refractory acute myeloid leukemia **AND**
- Medical record documentation of an isocitrate dehydrogenase-2 (IDH2) mutation as detected by a Food and Drug Administration (FDA) approved test

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**NOTE:** The Food and Drug Administration (FDA) approved test is Abbott RealT*ime*™ IDH2 assay.

**RE-AUTHORIZATION CRITERIA:** Idhifa is configured as a prior authorization for new starts only. Idhifa will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved Idhifa will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Nerlynx for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Nerlynx may be made for members who meet the following criteria:

- Medical record documentation that Nerlynx is prescribed by an oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- One of the following:
  - Medical record documentation of a diagnosis of early stage (stages I-IIIA) breast cancer **AND**
  - Medical record documentation of HER-2 overexpression/amplification **AND**
  - Medical record documentation of prior treatment with trastuzumab-based therapy

**OR**

  - Medical record documentation of a diagnosis of advanced or metastatic HER2-positive breast cancer **AND**
  - Medical record documentation of two or more prior anti-HER2 based regimens given in the metastatic setting **AND**
  - Medical record documentation that Nerlynx will be used in combination with capecitabine

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 6 tablets per day, up to a 30 day supply per fill

**AUTHORIZATION DURATION**:

- Early Stage Breast Cancer: One time, 12 month authorization
- Advanced or Metastatic Breast Cancer: Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of continued disease improvement or lack of disease progression. The medication will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

**NOTE:** The Food and Drug Administration (FDA) approved dosing schedule only approves the use of Nerlynx for 1 year following adjuvant trastuzumab therapy.

If a formulary exception is approved Nerlynx will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Austedo may be made for members who meet the following criteria:

**Huntington's Disease**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Austedo is prescribed by, or in consultation with, a neurologist or movement disorder specialist **AND**
- Medical record documentation of a diagnosis of Huntington's Disease **AND**
- Medical record documentation of symptoms of chorea **AND**
- Medical record documentation of that patient's baseline Total Maximal Chorea Score prior to initiating therapy **AND**
- One of the following:
  - If patient has a history of prior suicide attempt, bipolar disorder, or major depressive disorder: Medical record documentation that patient was evaluated and treated by a psychiatrist **OR**
  - For all others: Medical record documentation of a mental health evaluation performed by the prescriber **AND**
  - Medical record documentation of therapeutic failure on, intolerance to, or contraindication to tetrabenazine

**Tardive Dyskinesia**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Austedo is prescribed by, or in consultation with, a psychiatrist or neurologist **AND**
- Medical record documentation of a diagnosis of tardive dyskinesia (TD) as evidenced by one of the following:
  - Moderate to severe abnormal body movement (AIMS score 3 or 4) in greater than or equal to 1 body area **OR**

    - Mild abnormal body movements (AIMS score 1 or 2) in greater than or equal to 2 body areas **AND**
- Medical record documentation that the member was assessed for and determined to have no other causes of involuntary movements **AND**
- Medical record documentation of the member's baseline AIMS score prior to initiating therapy **AND**
- One of the following:
    - If patient has a history of prior suicide attempt, bipolar disorder, or major depressive disorder: Medical record documentation that patient was evaluated and treated by a psychiatrist **OR**
    - For all others: Medical record documentation of a mental health evaluation performed by the prescriber **AND**
- If member's symptoms are related to use of a first-generation antipsychotic, medical record documentation that a switch to a second-generation antipsychotic has been attempted and did not resolve tardive dyskinesia symptoms **OR** provider rationale as to why a switch to a second-generation antipsychotic would not be appropriate for the member **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to amantadine

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
    - 6 mg tablet: 2 tablets per day, 30 day supply per fill
    - 9 mg tablet: 4 tablets per day, 30 day supply per fill
    - 12 mg tablet: 4 tablets per day, 30 day supply per fill

**AUTHORIZATION DURATION**: Initial approval will be for a period of one (1) year. Reevaluation of coverage will be every one (1) year and will require documentation of:

- For patients with Huntington's disease: Medical record documentation of an improvement in chorea associated with Huntington's Disease as evidenced by a reduction in the Total Maximal Chorea Score from baseline.
- For patients with Tardive Dyskinesia: Medical record documentation of an improvement in tardive dyskinesia (TD) as evidenced by a reduction from baseline in the patient's AIMS score

If a formulary exception is approved Austedo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Huntington's Disease: tetrabenazine*
Tardive Dyskinesia: amantadine

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Ingrezza may be made for members who meet the following criteria:

**Tardive Dyskinesia**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Ingrezza is prescribed by, or in consultation with, a psychiatrist or neurologist **AND**
- Medical record documentation of a diagnosis of tardive dyskinesia (TD) as evidenced by one of the following:
    - Moderate to severe abnormal body movement (AIMS score 3 or 4) in greater than or equal to 1 body area **OR**
    - Mild abnormal body movements (AIMS score 1 or 2) in greater than or equal to 2 body areas **AND**
- Medical record documentation that the member was assessed for and determined to have no other causes of involuntary movements **AND**
- Medical record documentation of the member's baseline AIMS score prior to initiating therapy **AND**
- If member's symptoms are related to use of a first-generation antipsychotic, medical record documentation that a switch to a second-generation antipsychotic has been attempted and did not resolve tardive dyskinesia symptoms **OR** provider rationale as to why a switch to a second-generation antipsychotic would not be appropriate for the member **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to amantadine

**Huntington's Disease**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Ingrezza is prescribed by, or in consultation with, a neurologist or psychiatrist **AND**
- Medical record documentation of a diagnosis of Huntington's Disease **AND**
- Medical record documentation of symptoms of chorea b
- Medical record documentation of patient's baseline Total Maximal Chorea Score prior to initiating therapy **AND**
- Medical record documentation of one of the following:
    - If patient has a history of prior suicide attempt, bipolar disorder, or major depressive disorder: Medical record documentation that patient was evaluated and treated by a psychiatrist **OR**
    - For all others: Medical record documentation of a mental health evaluation performed by the prescriber **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to tetrabenazine

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 capsule per day, 30 day supply per fill

**AUTHORIZATION DURATION**: Initial approval will be for a period of one (1) year. Reevaluation of coverage will be every one (1) year and will require documentation of:

For Tardive Dyskinesia

- Medical record documentation of an improvement in tardive dyskinesia (TD) as evidenced by a reduction from baseline in the patient's AIMS score

For Huntington's Disease

- Medical record documentation of an improvement in chorea associated with Huntington's Disease as evidenced by a reduction in the Total Maximal Chorea Score from baseline

If a formulary exception is approved Ingrezza will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for tetrabenazine for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of tetrabenazine may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of chorea associated with Huntington's Disease

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, generic only

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 12.5 mg tablet: 3 tablets per day
  - 25 mg tablet: 4 tablets per day

If a formulary exception is approved tetrabenazine will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Tymlos for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Tymlos may be made for members who meet the following criteria:

- Medical record documentation there is no increased baseline risk of osteosarcoma [Paget's disease, open epiphyses (pediatric or young adult patients), prior radiation therapy involving the skeleton, unexplained elevations of alkaline phosphatase] **AND**
- Medical record documentation of a diagnosis of postmenopausal osteoporosis or osteoporosis in a male member **AND**
- Medical record documentation that member has not previously been on a parathyroid hormone analog for greater than 2 years* **AND**
- Medical record documentation of an attempt of therapy with or contraindication to bisphosphonates **OR**
- Medical record documentation of a previous osteoporotic fracture or high risk of fracture (T-score –2.5 or below with documented risk factors)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1.56 mL per 30 days

**AUTHORIZATION DURATION**: Approval will be for 2 years, or less if there is medical record documentation of a previous incomplete course of therapy with a parathyroid hormone analog. Cumulative use of parathyroid hormone analogs for more than 2 years during a patient's lifetime is not recommended.

***NOTE:** Cumulative use of parathyroid hormone analogs for more than 2 years during a patient's lifetime is not recommended.

**Risk Factors Included in the WHO Fracture Risk Assessment Model**

- Current age
- Gender
- A prior osteoporotic fracture (including morphometric vertebral fracture)
- Femoral neck BMD
- Low body mass index (kg/m2)
- Rheumatoid arthritis
- Secondary osteoporosis
- Parental history of hip fracture
- Current smoking
- Alcohol intake (3 or more drinks/d)
- Oral glucocorticoids ≥5 mg/d of prednisone for ≥3 mo (ever)

From: WHO Technical Report.8

If a formulary exception is approved Tymlos will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**SUBJECT: Siliq**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Siliq for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Siliq may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Siliq is prescribed by a dermatologist **AND**
- Medical record documentation of a diagnosis of moderate-to-severe plaque psoriasis with greater than or equal to 5% body surface area involved **OR** disease involving crucial areas of the body such as hands, feet, face, and/or genitals **AND**
- Medical record documentation that member does not have a history of suicidal thoughts or ideations **AND**
- Medical record documentation that member does not have a history of depression **OR** medical record documentation of a concomitant diagnosis of depression and documentation that a psychiatric evaluation has been completed and member has been deemed an appropriate candidate for therapy **AND**
- Medical record documentation of an inadequate response to, contraindication to, or failure on at least 3 months of two (2) preferred formulary biologics for the treatment of psoriasis **AND**
- Medical record documentation that Siliq is <u>not</u> being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:**

- In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, DS, max number of claims authorized 1, max quantity dispensed 6, min day supply 28, max day supply 28 with a duration of one month.
    - QL FOR LETTER: Loading dose: 6 mL per 28 days; Maintenance dose: 3 mL per 28 days

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of plaque psoriasis on Siliq therapy is required.

If a formulary exception is approved Siliq will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Statin Quantity Limit Exception**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for statin quantity limit exceptions for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of statin quantity limit exceptions may be made for members who meet the following criteria:

- Medical record documentation that requested dose cannot be achieved by using a formulary alternative (i.e.- use of one 10mg tablet in place of two 5mg tablets) **AND**
- Medical record documentation that prescribed dosage does not exceed those approved by the Food and Drug Administration (FDA) or accepted standards of care **AND**
- If request is for dose that exceeds Food and Drug Administration (FDA) approved labeling, medical record documentation of peer-reviewed literature citing well-designed clinical trials to indicate that the member's healthcare outcome will be improved by dosing that exceeds FDA approved labeling **AND**
- Medical record documentation that current formulary quantity limit has been ineffective in management of member's condition

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14, consider generic only depending on drug requested.

**NOTE:** Approved quantity limit exceptions should indicate the approved maximum daily dosage.

If a formulary exception is approved, the statin quantity limit exception will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Xadago may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of Parkinson's disease experiencing off episodes **AND**
- Medical record documentation that Xadago is prescribed by or in consultation with a neurologist **AND**
- Medical record documentation that member is concomitantly receiving carbidopa/levodopa **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that the member does not have severe hepatic impairment **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three formulary alternatives, one of which must be rasagiline or selegiline

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If a formulary exception is approved Xadago will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Kevzara for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Kevzara may be made for members who meet the following criteria:

**Rheumatoid Arthritis**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Kevzara is prescribed by a rheumatologist **AND**
- Medical record documentation of a diagnosis of moderate to severe rheumatoid arthritis (RA) made in accordance with the American College of Rheumatology Criteria for the Classification and Diagnosis of RA **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to a minimum 3 month trial of two (2) preferred formulary biologics for the treatment of rheumatoid arthritis **AND**
- Medical record documentation that Kevzara is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**Polymyalgia Rheumatica**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Kevzara is prescribed by a rheumatologist **AND**
- Medical record documentation of a diagnosis of polymyalgia rheumatica (PMR) according to American College of Rheumatology/European Union League against Rheumatism (ACR/EULAR) classification criteria **AND**

- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to systemic corticosteroids **OR**
- Medical record documentation that the member is unable to tolerate a corticosteroid taper **AND**
- Medical record documentation that Kevzara is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2.28 mL per 28 days

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of rheumatoid arthritis on Kevzara therapy is required.

If a formulary exception is approved Kevzara will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**
New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Verzenio may be made for members who meet the following criteria:

**Advanced of Metastatic Breast Cancer**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Verzenio is prescribed by an oncologist **AND**
- Medical record documentation of a diagnosis of advanced or metastatic breast cancer that is hormone receptor positive, human epidermal growth factor receptor 2 negative (HR+/HER2-) **AND**
- One of the following:
    - Medical record documentation that Verzenio is being prescribed as initial endocrine-based therapy **AND**
    - Medical record documentation of postmenopausal status **OR** if the member is pre/perimenopausal or male, that they have received a gonadotropin-releasing hormone agonist (e.g., LHRH agonist; goserelin) for at least 4 weeks prior to and will continue for the duration of Verzenio therapy **AND**
    - Medical record documentation that Verzenio will be prescribed in combination with an aromatase inhibitor (i.e., letrozole, anastrozole, etc.)

      **OR**

    - Medical record documentation that the patient experienced disease progression following prior endocrine therapy* **AND** prior chemotherapy^ in the metastatic setting **AND**

- Medical record documentation that Verzenio is being used as monotherapy

**OR**

- Medical record documentation that the patient experienced disease progression following prior endocrine therapy* **AND**
- Medical record documentation that fulvestrant (Faslodex) will be administered along with Verzenio **AND**
- Medical record documentation of postmenopausal status **OR** if the patient is pre/perimenopausal, that they have received a gonadotropin-releasing hormone agonist (e.g., LHRH agonist; goserelin) for at least 4 weeks prior to and will continue for the duration of Verzenio therapy

**NOTES:**
*Examples of endocrine therapy include: exemestane, letrozole, anastrozole, tamoxifen, and toremifene

^Examples of preferred chemotherapy include: Anthracyclines (doxorubicin/pegylated liposomal doxorubicin), taxanes (paclitaxel), anti-metabolites (capecitabine/gemcitabine), other microtubule inhibitors (vinorelbine/eribulin). Other chemotherapy agents that can be used include: cyclophosphamide, carboplatin, docetaxel, albumin-bound paclitaxel, cisplatin, epirubicin, and ixabepilone.

**Early Breast Cancer**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Verzenio is prescribed by an oncologist **AND**
- Medical record documentation of a diagnosis of hormone receptor (HR)-positive, human epidermal growth factor receptor 2 (HER2)-negative, node-positive, early breast cancer **AND**
- Medical record documentation that member has a high risk of recurrence[&] **AND**
- Medical record documentation of a Ki-67 score greater than or equal to 20% determined by a Food and Drug Administration (FDA) approved test[#] **AND**
- Medical record documentation that Verzenio will be used as adjuvant treatment in combination with endocrine therapy (i.e., tamoxifen or an aromatase inhibitor) **AND**
- If patient is treated with an aromatase inhibitor (i.e., letrozole, anastrozole, etc.):
  - Medical record documentation of postmenopausal status **OR** if the patient is pre/perimenopausal or male, that they have received a gonadotropin-releasing hormone agonist (e.g., LHRH agonist; goserelin) for at least 4 weeks prior to and will continue for the duration of Verzenio therapy

**NOTES:**
*Examples of endocrine therapy include: exemestane, letrozole, anastrozole, tamoxifen, and toremifene

&In clinical trials, high risk of recurrence was defined as either tumor involvement in one to three axillary lymph nodes with either tumor grade 3 disease or tumor size ≥ 50 mm **OR** tumor involvement of ≥ 4 axillary lymph nodes

#The FDA approved test for the measurement of Ki-67 score is the Ki-67 IHC MIB-1 pharmDx.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 tablets per day, 28 day supply per fill

**AUTHORIZATION DURATION:**
****For adjuvant treatment of hormone receptor (HR)-positive, human epidermal growth factor receptor 2 (HER2)-negative, node positive, early breast cancer:**
One approval will be given for 24 months or less if the reviewing provider feels it is medically appropriate. The medication will no longer be covered if patient experiences toxicity or worsening of disease.

Authorization of Verzenio for adjuvant treatment of hormone receptor (HR)-positive, human epidermal growth factor receptor 2 (HER2)-negative, node positive, early breast cancer should not exceed the FDA-approved treatment duration of 2 year (24 months) in patients. For requests exceeding the above limit, medical record documentation of the following is required:

- Peer-reviewed literature citing well-designed clinical trials to indicate that the member's healthcare outcome will be improved by dosing beyond the FDA-approved treatment duration

**For all other indications:**
Initial approval will be for 24 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 24 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of continued disease improvement or lack of disease progression. The medication will no longer be covered if patient experiences toxicity or worsening of disease.

If a formulary exception is approved Verzenio will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
Ibrance*, Kisqali*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Basaglar, Semglee, or Rezvoglar may be made for members who meet the following criteria:

- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Lantus **OR** Toujeo

**MEDISPAN AUTHORIZATION LEVEL:** NDC-9

If a formulary exception is approved Basaglar, Semglee, or Rezvoglar will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Lantus, Toujeo, Tresiba, Levemir

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

Geisinger

**POLICY NUMBER: 475.0**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Benlysta for Self-Administration**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Benlysta for self-administration for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Benlysta for self-administration may be made for members who meet the following criteria:

**Systemic Lupus Erythematosus (SLE)**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation a diagnosis of systemic lupus erythematosus **AND**
- Medical record documentation that member has active disease **OR** recurrent flares **OR** inability to wean steroids in systemic lupus erythematosus **AND**
- Medical record documentation that Benlytsa for self-administration is prescribed by a rheumatologist **AND**
- Medical record documentation of a positive ANA/anti-dsDNA antibody **AND**
- Medical record documentation that Benlysta is being used in combination with, or patient has a contraindication or intolerance to, standard therapy (e.g., corticosteroid, NSAID, anti-malarial or immunosuppressant) **AND**
- Medical record documentation of no central nervous system (CNS) involvement

**SLE AUTHORIZATION DURATION**: Each authorization will be for a period of 12 months. Re-review is required with medical record documentation showing a clinical benefit of one of the following:

- Improvement in functional impairment **OR**
- Decrease in the number of exacerbations since the start of Benlysta **OR**

- Decrease in the daily required dose of oral corticosteroids such as prednisone

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14 (must enter 9942201500E520 & 9942201500D520)

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 4 mL per 28 days

**Lupus Nephritis (LN)**

- Medical record documentation of a diagnosis of active lupus nephritis, Class III, IV, V alone or in combination, confirmed by a kidney biopsy **AND**
- Medical record documentation of age greater than or equal to 5 years **AND**
- Medical record documentation that Benlytsa for self-administration is prescribed by or in consultation with a rheumatologist or nephrologist **AND**
- Medical record documentation that Benlysta will be prescribed in combination with standard therapy (e.g., mycophenolate mofetil (MMF), corticosteroids, cyclophosphamide, azathioprine)

**LN AUTHORIZATION DURATION**: Initial approval will be for 12 months. Subsequent approvals will be for 12 months. Re-authorization will require the following:

- Medical record documentation of a positive clinical response to Benlysta (e.g., improvement/stabilization in UPCR, eGFR, renal-related events) **AND**
- Medical record documentation that Benlysta will be prescribed in combination with standard therapy (e.g., mycophenolate mofetil (MMF), corticosteroids, cyclophosphamide, azathioprine)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14 (must enter 9942201500E520 & 9942201500D520)

**QUANTITY LIMIT:**

- **Initial Approval –** *Two authorizations must be entered.*
  - 400 mg once weekly for 4 weeks, then 200 mg once weekly thereafter
    1. In PA Hub: Add PA only with the approved authorization duration.
    2. In NCRx: Add Ignore Misc Handler, DS, max number of claims authorized 1, max quantity dispensed 8, min day supply 28, max day supply 28, with a duration of two weeks.
       - QL FOR LETTER: Loading dose: 8 mL per 28 days; Maintenance dose: 4 mL per 28 days

- **Renewal –** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*
  - QL FOR LETTER ONLY: 4 mL per 28 days

If a formulary exception is approved Benlysta for self-administration will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Calquence for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Calquence may be made for members who meet the following criteria:

- Medical record documentation that Calquence is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation one of the following:
    - Medical record documentation of a diagnosis of mantle cell lymphoma (MCL) **AND** therapeutic failure on, intolerance to, or contraindication to one prior therapy **OR**
    - Medical record documentation of diagnosis of chronic lymphocytic leukemia (CLL) or small lymphocytic lymphoma (SLL)
- If the requested dose is 400 mg daily: Medical record documentation that the patient is using Calquence in combination with a strong CYP3A inducer, including but not limited to carbamazepine, enzalutamide, fosphenytoin, lumacaftor, mitotane, phenytoin, rifampin, St. John's Wort

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 capsules per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Calquence is configured as a prior authorization for new starts only. Calquence will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**NOTE:** Acalabrutinib has not been shown to be effective for ibrutinib refractory CLL/SLL in patients with BTK C481S mutations

If a formulary exception is approved Calquence will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Mantle Cell Lymphoma: Imbruvica*, Brukinsa*, Revlimid*
Chronic Lymphocytic Leukemia/Small Lymphocytic Lymphoma: Imbruvica*, Venclexta*

*prior authorization required

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Nityr for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Nityr may be made for members who meet the following criteria:

- Medical record documentation that Nityr is prescribed by a specialist in medical genetics or metabolic diseases **AND**
- Medical record documentation of a diagnosis of hereditary tyrosinemia type 1 (HT-1) established and supported by documentation of elevated plasma or urine succinylacetone (SA) levels **AND**
- Medical record documentation that Nityr will be used in combination with dietary restriction of tyrosine and phenylalanine

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**AUTHORIZATION DURATION**: Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of continued disease improvement or lack of disease progression. Nityr will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

If a formulary exception is approved Nityr will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Nitisinone Capsules and Orfadin Suspension**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Nitisinone capsules and Orfadin suspension for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of nitisinone capsules and Orfadin suspension may be made for members who meet the following criteria:

- Medical record documentation that Orfadin is prescribed by a specialist in medical genetics or metabolic diseases **AND**
- Medical record documentation of a diagnosis of hereditary tyrosinemia type 1 (HT-1) established and supported by documentation of elevated plasma or urine succinylacetone (SA) levels **AND**
- Medical record documentation that Orfadin will be used in combination with dietary restriction of tyrosine and phenylalanine **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Nityr tablets

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, if request is for nitisinone capsules include generic only.

**AUTHORIZATION DURATION**: Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of continued disease improvement or lack of disease progression. Nitisinone capsules or Orfadin suspension will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

If a formulary exception is approved nitisinone capsules or Orfadin suspension will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Tremfya**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Tremfya for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Tremfya may be made for members who meet the following criteria:

**Psoriasis**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Tremfya is prescribed by a dermatologist **AND**
- Medical record documentation of a diagnosis of moderate to severe plaque psoriasis with greater than or equal to 5% body surface area involved **OR** disease involving crucial areas of the body such as hands, feet, face, and/or genitals **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to topical corticosteroids **AND** at least two to three months of systemic therapy (including but not limited to methotrexate and/or cyclosporine) or phototherapy **OR** medical record documentation of a therapeutic failure on or intolerance to prior biologic therapy **AND**
- Medical record documentation that Tremfya is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *Quantity limit must be entered in authorization.*

- 100 mg at weeks 0, 4, and then every 8 weeks thereafter
    1. In PA Hub: Add Treat as "Include" Process Modifier, Ignore Misc Handler, DS, max number of claims authorized 1, max quantity dispensed 1, min day supply 28, max day supply 28, with a duration of two-weeks.
        - QL FOR LETTER: Loading dose: 1 mL per 28 days; Maintenance dose: 1 mL per 56 days

**RE-AUTHORIZATION CRITERIA:** Tremfya is configured as a prior authorization for new starts only. Tremfya will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**

cyclosporine, methotrexate

**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)

**Medium-potency topical corticosteroids:** betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)

**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)

**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream,

ointment, scalp lotion, shampoo, foam, spray (Temovate/Clobex/Olux) diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E), fluocinonide 0.1% cream (Vanos), halobetasol 0.05% cream and ointment (Ultravate)

**Psoriatic Arthritis**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Tremfya is prescribed by a rheumatologist or dermatologist **AND**
- Medical record documentation of active psoriatic arthritis which must include documentation of either active psoriatic lesions or a documented history of psoriasis **AND**
- Medical record documentation that Tremfya is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent **AND**
- For peripheral disease: Medical record documentation of an intolerance to, contraindication to, or therapeutic failure on methotrexate **AND** an adequate trial of at least two (2) formulary nonsteroidal anti-inflammatory drugs (NSAIDs) **OR** medical record documentation of a therapeutic failure on or intolerance to prior biologic therapy **OR**
- For axial disease: Medical record documentation of an intolerance to, contraindication to, or therapeutic failure to an adequate trial of at least two (2) formulary nonsteroidal anti-inflammatory drugs (NSAIDs) **OR** medical record documentation of a therapeutic failure on or intolerance to prior biologic therapy

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *Quantity limit must be entered in authorization.*

- 100 mg at weeks 0, 4, and then every 8 weeks thereafter
    1. In PA Hub: Add Treat as “Include” Process Modifier, Ignore Misc Handler, DS, max number of claims authorized 1, max quantity dispensed 1, min day supply 28, max day supply 28, with a duration of two-weeks.
        - QL FOR LETTER: Loading dose: 1 mL per 28 days; Maintenance dose: 1 mL per 56 days

**RE-AUTHORIZATION CRITERIA:** Tremfya is configured as a prior authorization for new starts only. Tremfya will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**

methotrexate, celecoxib, choline magnesium salicylate, diclofenac, diclofenac extended release, diflunisal, etodolac, etodolac extended release, fenoprofen, flurbiprofen, ibuprofen, indomethacin, indomethacin sustained release, ketoprofen, ketorolac,

meclofenamate, meloxicam, nabumetone, naproxen, naproxen sodium, naproxen EC, oxaprozin, piroxicam, salsalate, sulindac, tolmetin

If a formulary exception is approved Tremfya will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**SECTION: Commercial Drug**
**SUBJECT: Quantity Limit Exceptions**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for quantity limit exceptions for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A quantity limit exception may be made for members who meet the following criteria:

- Medical record documentation that requested dose cannot be achieved by using a formulary alternative (i.e.- use of one 10 mg tablet in place of two 5 mg tablets) **AND**
- Medical record documentation that prescribed dosage does not exceed those approved by the Food and Drug Administration (FDA) or accepted standards of care **AND**
- If request is for dose that exceeds Food and Drug Administration (FDA) approved labeling, medical record documentation of peer-reviewed literature citing well-designed clinical trials to indicate that the member's healthcare outcome will be improved by dosing that exceeds FDA approved labeling **AND**
- Medical record documentation that current formulary quantity limit has been ineffective in management of member's condition

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

If a quantity limit exception is approved, the drug will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**SECTION: Commercial Drug**
**SUBJECT: Opioid Use**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for opioid use for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

6. ***POS*** – point of sale
7. ***MED*** – morphine equivalent dose
8. ***OCDP*** – opioid cumulative dosing program

**POS CUMULATIVE MED EDIT PROGRAM OVERVIEW**

The program encompasses five primary components:

1. A POS-level cumulative dosing edit, which calculates cumulative opioid morphine equivalent dosing (MED) and triggers soft or hard-stop edits at time of adjudication based on MED threshold values and program inclusion and exclusion parameters
    a. Soft-stop POS Edit may be overridden by Professional Pharmacy Service (PPS) response codes or coverage determination from the Health Plan
    b. Hard-stop POS Edit may be overridden by coverage determination from the Health Plan
2. Exceptions processing to optimize edit targeting and minimize false positives, using both automated and clinical review processes as described below
3. All clinical thresholds and triggers are reviewed by the P&T committee as needed.
4. If at any point during the member review process fraudulent activity is suspected by a pharmacy, prescriber, or member they will be referred to the fraud, waste, and abuse team in accordance with Geisinger Health Plan's Universal Policy 49.

**METHODOLOGY FOR ENROLLMENT**

1. Inclusion criteria:
    a. All active, approved prescription claims meeting the following criteria will be counted for total cumulative MED for a plan beneficiary:
        i. Opioid drug has a defined dose-normalization factor in the POS system, and
        ii. Opioid is configured as program-eligible in the edit.
    b. The hard-stop MED threshold, at or above which claims will hard-stop reject, will be: 90 (50 effective 7/1/19)
    c. The minimum prescriber number threshold will be: 1

2. Exclusion criteria:
    a. Claims identified by the OCDP as overlapping refills of existing therapy will not be included in the cumulative MED calculation.
    b. History of a prior authorization override will prevent OCDP rejections as described in the Procedure section below
    c. Member is defined as a hospice member
    d. Member has active claims history of cancer medication in the last 180 days
    e. Member has a diagnosis of Sickle cell disease
3. Reject code/POS Denial Language:
    a. POS Notification: “Cumulative morphine equivalent dose of (patient’s current MED) =/exceeds threshold of (MED threshold value) per day”

**DURATION OF OPIOID USE PROGRAM OVERVIEW**
Any claim for a newly initiated (defined as no opioid claims history in the past 120 days) short-acting opioid greater than a 5 day supply for a child under the age of 18 years old or greater than a 10 day supply for an adult, or any claim for a long-acting opioid will block at point of sale and require prior authorization.

**PROCEDURE:**
Prior authorization of opioids will be made for members who meet the following criteria:

- Diagnosis of active cancer or palliative care **OR**
- Diagnosis of sickle cell disease **OR**
- Member is receiving hospice care

**NOTE:** Authorizations will be entered for an opioid class override for members who meet these criteria

**AND** For members who do not meet the above criteria:

For short-acting opioid requests to exceed an initial 5 day supply for a member under the age of 18 years or for greater than a 10 day supply for a member greater than or equal to 18 years:

- Medical record documentation of prescriber attestation that greater than a 5 day supply for members under the age or 18 or greater than a 10 day supply for members 18 years of age and older is medically necessary to treat the member’s pain **OR**
- Medical record documentation that member is already established on opioid therapy

**NOTE:** Authorizations will be entered as a one-time override, RX count 1 for the remainder of the calendar year.

**AND**

For requests exceeding the MED threshold and/or for long-acting opioids, the following documentation will be required:

- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to first line drug and non-drug treatments for pain **AND**
- Prescriber has assessed the member's pain, cause of pain, and documented the anticipated duration of therapy **AND**
- Medical record documentation that the member is:
    - being treated for non-cancer pain **AND**
        - the prescription is written by a Pain Management Specialist OR the member has been referred to a Pain Management Specialist for the same condition within the previous 24 months **OR**
        - the member has a signed pain contract in place

**AND**

- The prescriber will conduct urine drug screening (UDS), which includes testing for the prescribed opioid per the Centers for Disease Control (CDC) Guideline for Prescribing Opioids for Chronic Pain – United States 2016 **AND**
- Provider has evaluated member for risk of opioid use disorder using CAGE-AID, Opioid Risk Tool, or a similar screening tool upon initiation of opioids and every 3 months or as needed **AND**
- There is a plan for the tapering of benzodiazepines or rationale for continued use (if applicable) **AND**
- The prescriber has queried the State's Prescription Drug Monitoring System with every controlled substance written to ensure controlled substance history is consistent with prescribing record **AND**
- The prescriber has discussed the risks of addiction and overdose with the minor and parent, guardian or authorized adult if under the age of 18 **AND**
- If under the age of 18, the prescriber has obtained written consent for the prescription from the minor's parent/guardian/authorized adult on a standardized consent form **AND**
- There is medical record documentation that the member or parent/guardian has been educated on the potential adverse effects of opioid analgesics, including the risk for misuse, abuse and addiction **AND** the member will receive a prescription for naloxone if dose of opioid is 120 morphine equivalents (MEDs) (50 MEDs for minors) or greater and member is not being treated for end of life **OR** if the prescriber determines the member is at risk for an overdose at any MED.

**AND**

**For a long-acting opioid**:

- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to a short-acting opioid.

**OR if the above criteria is not met:**

- The Plan will work with the prescriber and provide authorization for the requested medication during a period of tapering in accordance with accepted standards of care. During this tapering process, referral will be made to case management to offer assistance to the member during the transition process.

**AND for non-preferred opioids:**

**For non-preferred short-acting opioids:**

- Medical record documentation of a therapeutic failure on, intolerance to or contraindication to three preferred short-acting formulary alternatives, one of which must be oxycodone **OR**
- If the request is for an abuse-deterrent formulation (RoxyBond), medical record documentation that the patient is at high risk of abusing opioids (e.g., past history of abuse, untreated psychiatric disorders, social or family environments that encourage misuse, or positive CAGE-AID screen).

**For fentanyl citrate oral lozenge (generic Actiq)**

- Medical record documentation of age greater than or equal to 16 years **AND**
- Medical record documentation that the member has a diagnosis of cancer and is receiving scheduled opioid therapy **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to immediate-release morphine sulfate **OR** immediate-release oxycodone

**For Abstral, Lazanda, Fentora, Subsys**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that the member has a diagnosis of cancer and is receiving scheduled opioid therapy **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to fentanyl lozenges* (generic Actiq) **AND** immediate-release morphine sulfate **OR** immediate-release oxycodone

**For non-preferred long acting opioids:**

- Medical record documentation of a therapeutic failure on, intolerance to or contraindication to three preferred long-acting opioid formulary alternatives, one of which must be morphine sulfate ER **OR**
- If the request is for an abuse-deterrent formulation (see table below), medical record documentation that the patient is at high risk of abusing opioids (e.g., past history of abuse, untreated psychiatric disorders, social or family environments that encourage misuse, or positive CAGE-AID screen).

**For Nucynta ER for neuropathic pain:**

- Medical record documentation of a therapeutic failure on, intolerance to or contraindication to three preferred long-acting opioid formulary alternatives, one of which must be morphine sulfate ER **AND** Lyrica **AND** duloxetine

**For oxycodone ER or OxyContin:**

- Medical record documentation of a therapeutic failure on, intolerance to or contraindication to three preferred long-acting opioid formulary alternatives, one of which must be morphine ER **OR**
- Medical record documentation that the patient is 11 to < 18 years of age **OR**
- For Oxycontin (brand) – Medical record documentation that the patient is at high risk of abusing opioids (e.g., past history of abuse, untreated psychiatric disorders, social or family environments that encourage misuse, or positive CAGE-AID screen)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**AUTHORIZATION DURATION:**

- For chronic non-cancer pain, active cancer or palliative care, and hospice care: 1 year
- For sickle cell disease: lifetime
- For stabilization of an acute medical condition: stated duration of treatment
- For initial day supply exceeding 3 (member <18 years of age) or 5 days (members 18 years of age and older): one-time override, RX count 1 for remainder of calendar year
- For tapering the member off opioids: 1 year or the time requested by the prescriber for tapering, whichever is less

**Reference Table: Abuse-Deterrent Opioids and Routes of Abuse Each is Intended to Deter**

| | Drug Deters Abuse Via These Routes | | |
|---|---|---|---|
| **Drug** | IV/injection | Intranasal | Oral |
| Arymo ER | X | | |
| Embeda | | X | X |
| Hysingla ER | X | X | X |
| MorphaBond ER | X | X | |
| OxyContin (oxycodone ER) | X | X | |
| Troxyca ER | | X | X |
| Xtampza ER | X | X | X |
| RoxyBond | X | X | |

If an exception is made, the opioid will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

**NSAIDs:** celecoxib, choline magnesium salicylate, diclofenac, diclofenac extended release, diflunisal, etodolac, etodolac extended release, fenoprofen, flurbiprofen, ibuprofen, indomethacin, indomethacin sustained-release, ketoprofen, ketorolac^, meclofenamate, meloxicam, nabumetone, naproxen, naproxen sodium, naproxen ec, oxaprozin, piroxicam, salsalate, sulindac, tolmetin

**Short-acting opioids:** acetaminophen/codeine, butorphanol nasal spray*, codeine solution, codeine tablets, hydrocodone/acetaminophen, hydrocodone/ibuprofen, hydromorphone liquid, hydromorphone tablet, levorphanol*, meperidine, morphine solution, morphine tablet, oxycodone acetaminophen solution, oxycodone/acetaminophen tablet, oxycodone/aspirin, oxycodone/ibuprofen, oxycodone capsule, oxycodone tablet, oxycodone solution, oxymorphone, pentazocine/naloxone*, Roxicodone, tramadol, tramadol/acetaminophen

**Long-acting opioids**: buprenorphine transdermal patch*^, fentanyl transdermal patch*, methadone tablets*, morphine ER tablet*, morphine ER capsules*, oxycodone ER*, tramadol ER capsule*, tramadol ER tablet

**Additional Alternatives for Nucynta ER:** Lyrica, duloxetine

**Additional Alternatives for Abstral, Lazanda, Fentora, Subsys:** fentanyl lozenges*

* prior authorization required
^ quantity limits apply

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Auryxia**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Auryxia for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Auryxia may be made for members who meet the following criteria:

**Hyperphosphatemia**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Auryxia is prescribed by a nephrologist **AND**
- Medical record documentation of a diagnosis of chronic kidney disease (CKD) on dialysis **AND**
- Medical record documentation that Auryxia is being used to control serum phosphorus levels **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to calcium acetate **AND** sevelamer carbonate **AND** lanthanum carbonate

**Iron Deficiency Anemia**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Auryxia is prescribed by a nephrologist **AND**
- Medical record documentation of a diagnosis of iron deficiency anemia and chronic kidney disease **AND**
- Medical record documentation that the member is not receiving dialysis

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 12 tablets per day

If a formulary exception is approved Auryxia will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

calcium acetate, sevelamer carbonate (generic Renvela), lanthanum carbonate, Fosrenol powder packet

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Cotempla XR-ODT for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Cotempla XR-ODT may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 6 years **AND**
- Medical record documentation of a diagnosis of attention deficit hyperactivity disorder (ADHD) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to methylphenidate CD (generic Metadate CD) **AND** amphetamine/dextroamphetamine SR combination

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 8.6 mg and 17.3 mg tablets: 1 tablet per day
  - 25.9 mg tablets: 2 tablets per day

**NOTES:**

Per the Metadate CD prescribing information: “Metadate CD may be swallowed whole with the aid of liquids, or alternately, the capsule may be opened and the capsule contents sprinkled onto a small amount (tablespoon) of applesauce and given immediately, and not stored for future use. Drinking some fluids e.g., water, should follow

the intake of the sprinkles with applesauce. The capsules and the capsule contents must not be crushed or chewed."

Per the Adderall XR prescribing information: "The capsules may be taken whole or the contents of the capsule may be sprinkled on applesauce. If using the sprinkle method, the applesauce should be consumed immediately and swallowed without chewing. The dose of a single capsule should not be divided and the contents of the entire capsule should be taken."

If a formulary exception is approved Cotempla XR-ODT will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

dextroamphetamine, dextroamphetamine/amphetamine combination, dextroamphetamine/amphetamine SR combination, methylphenidate, methylphenidate sustained-release, methylphenidate extended-release, methylphenidate CD

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Benznidazole for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Benznidazole may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 2 years and less than or equal to 12 years **AND**
- Medical record documentation that Benznidazole is prescribed by or in consultation with an infectious disease specialist **AND**
- Medical record documentation of a diagnosis of Chagas disease confirmed by one of the following diagnostic tests:
    - Detection of circulating *Trypanosoma cruzi* trypomastigotes on microscopy **OR**
    - Detection of *T. cruzi* DNA by polymerase chain reaction assay **OR**
    - Two positive diagnostic serologic tests using different techniques (ex. enzyme-linked immunoassay (ELISA), indirect fluorescent antibody (IFA)) and antigens (ex. whole-parasite lysate, recombinant antigens) showing IgG antibodies to *T. cruzi*

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
    - 100 mg tablets: 4 tablets per day, 30 day supply per fill
    - 12.5 mg tablets: 2 tablets per day, 30 day supply per fill

**AUTHORIZATION DURATION**: 60 days, RX count 2

If a formulary exception is approved Benznidazole will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Baxdela tablets may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Baxdela is prescribed by or in consultation with infectious disease **AND**
- Medical record documentation of one of the following:
    - Diagnosis of acute bacterial skin and skin structure infections (ABSSSI)* caused by susceptible isolates of the following: *Staphylococcus aureus* (including methicillin-resistant [MRSA] and methicillin-susceptible [MSSA] isolates), *Staphylococcus haemolyticus, Staphylococcus lugdunensis, Streptococcus agalactiae, Streptococcus anginosus Group* (including *Streptococcus anginosus, Streptococcus intermedius, and Streptococcus constellatus*), *Streptococcus pyogenes*, *Enterococcus faecalis, Escherichia coli, Enterobacter cloacae, Klebsiella pneumoniae*, or *Pseudomonas aeruginosa* **OR**
    - Diagnosis of community-acquired bacterial pneumonia (CABP) caused by the following susceptible microorganisms: *Streptococcus pneumoniae, Staphylococcus aureus* (methicillin susceptible [MSSA] isolates only), *Klebsiella pneumoniae*, *Escherichia coli, Pseudomonas aeruginosa, Haemophilus influenzae, Haemophilus parainfluenzae*, *Chlamydia pneumoniae*, *Legionella pneumophila,* and *Mycoplasma pneumoniae* **AND**
- Medical record documentation of culture and sensitivity showing the patient's infection is not susceptible to alternative antibiotic treatments **OR** a documented history of previous intolerance to or contraindication to other antibiotics shown to be susceptible on the culture and sensitivity **OR**
- Medical record documentation that Baxdela therapy was started during an inpatient setting

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 tablets per day

**AUTHORIZATION DURATION**:

- **ABSSSI:** one-time, 14-day authorization
- **CABP:** one-time, 10-day authorization

**Note:** ABSSSI is defined as a skin infection with a lesion surface area of at least 75 $cm^2$ and includes the three following types of infection: (1) cellulitis/erysipelas, (2) wound infections, and (3) major cutaneous abscesses.

If a formulary exception is approved Baxdela tablets will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Erleada may be made for members who meet the following criteria:

- Medical record documentation that Erleada is prescribed by an oncologist or urologist **AND**
- Medical record documentation of one of the following:
  - Medical record documentation of a diagnosis of prostate cancer with evidence of metastatic castration-sensitive disease **OR**
  - Medical record documentation of a diagnosis of prostate cancer with evidence of non-metastatic disease **AND** member is no longer responding to castration or is hormone resistant **AND**
- Medical record documentation that a gonadotropin-releasing hormone (GnRH) analog will be used concurrently **OR** member has had bilateral orchiectomy

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 4 tablets per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Erleada is configured as a prior authorization for new starts only. Erleada will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved Erleada will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Gocovri may be made for members who meet the following criteria:

**Dyskinesia with Parkinson's Disease**

- Medical record documentation of dyskinesia with a diagnosis of Parkinson's disease **AND**
- Medical record documentation that the member is currently receiving and will continue levodopa-based therapy with the addition of Gocovri **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to immediate-release amantadine

**Off Episodes with Parkinson's Disease**

- Medical record documentation of "off episodes" with a diagnosis of Parkinson's disease **AND**
- Medical record documentation that Gocovri will be used as adjunctive treatment to levodopa/carbidopa

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 68.5 mg capsule: 1 capsule per day
  - 137 mg capsule: 2 capsules per day

If a formulary exception is approved Gocovri will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

immediate release amantadine, benztropine, trihexyphenidyl, carbidopa/levodopa

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY NUMBER: 500.0**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Odactra**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Odactra for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Odactra may be made for members who meet the following criteria:

- Medical record documentation that Odactra is prescribed by or in consultation with an allergist, immunologist, or other physician qualified to prescribe allergy immunotherapy **AND**
- Medical record documentation of age greater than or equal to 12 years and less than or equal to 65 years **AND**
- Medical record documentation of house dust mite-induced allergic rhinitis confirmed by *in vitro* testing for IgE antibodies to *Dematophagoides fainae* or *Dermatophagoides pteronyssinus* house dust mites **OR** skin testing to licensed house dust mite allergen extracts **AND**
- Medical record documentation that the member has (or will receive) a prescription for an epinephrine auto-injector **AND**
- Medical record documentation that the member does not have severe, unstable, or uncontrolled asthma **AND**
- Medical record documentation that member will no longer be receiving subcutaneous immunotherapy **AND**
- Medical record documentation that Odactra will not be used in combination with sublingual immunotherapy (e.g., Grastek, Oralair, and Ragwitek) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) formulary alternatives, one of which must be an intranasal glucocorticoid

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

**AUTHORIZATION DURATION**: Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate. The following criteria is required for reauthorization:

- Medical record documentation of sustained improvement in allergic rhinitis symptoms **AND**
- Medical record documentation that the member is tolerating Odactra

If a formulary exception is approved Odactra will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

fluticasone propionate, triamcinolone acetonide, budesonide, mometasone furoate, desloratadine tablets, montelukast

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Prevymis for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Prevymis may be made for members who meet the following criteria:

**Stem Cell Transplant**

- Medical record documentation that Prevymis is prescribed by or in consultation with a hematologist/oncologist, infectious disease, and/or transplant specialist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that member is a recipient of an allogeneic hematopoietic stem cell transplant **AND**
- Medical record documentation that member is a confirmed cytomegalovirus (CMV) seropositive recipient (R+) **AND**
- Medical record documentation that Prevymis is being used for cytomegalovirus (CMV) prophylaxis **AND**
- Medical record documentation that Prevymis is being initiated between Day 0 and Day 28 post-transplantation **AND**
- Medical record documentation that Prevymis is not being used in combination with pimozide, ergot alkaloids (ergotamine and dihydroergotamine), and/or pitavastatin and simvastatin (if co-administered with cyclosporine)

**Kidney Transplant**

- Medical record documentation that Prevymis is prescribed by or in consultation with a transplant specialist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that member is a recipient of a kidney transplant **AND**
- Medical record documentation that member is at high risk of cytomegalovirus (CMV) [defined as CMV seropositive donor and CMV seronegative recipient (D+/R-)] **AND**
- Medical record documentation that Prevymis is being used for cytomegalovirus (CMV) prophylaxis **AND**

- Medical record documentation that Prevymis is being initiated between Day 0 and Day 7 post-transplantation **AND**
- Medical record documentation that Prevymis is not being used in combination with pimozide, ergot alkaloids (ergotamine and dihydroergotamine), and/or pitavastatin and simvastatin (if co-administered with cyclosporine)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

**AUTHORIZATION DURATION**:

- Stem Cell Transplant: 100 days
- Kidney Transplant: 200 days

If a formulary exception is approved Prevymis will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

valganciclovir

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

Geisinger

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 507.0**

**SECTION: Commercial Drug**
**SUBJECT: Everolimus Soluble Oral Tablet (generic Afinitor Disperz)**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for everolimus soluble oral tablet (generic Afinitor Disperz) for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of everolimus soluble oral tablet (generic Afinitor Disperz) may be made for members who meet the following criteria:

**Tuberous sclerosis complex (TSC)-associated subependymal giant cell astrocytoma**

- Medical record documentation that everolimus soluble oral tablet (generic Afinitor Disperz) is prescribed by an oncologist **AND**
- Medical record documentation of a diagnosis of subependymal giant cell astrocytoma (SEGA) associated with tuberous sclerosis (TS) who require therapeutic intervention but are not candidates for curative surgical resection

**Tuberous sclerosis complex (TSC)-associated partial-onset seizures**

- Medical record documentation of adjunctive treatment for adult **OR** pediatric patients aged 2 years and older with tuberous sclerosis complex (TSC)-associated partial-onset seizures **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least two (2) anti-epileptic drug (AED) regimens

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year, generic only

**QUANTITY LIMIT (ALL INDICATIONS):** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 28 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Everolimus soluble oral tablet (generic Afinitor Disperz) is configured as a prior authorization for new starts only. Everolimus oral soluble tablet (generic Afinitor Disperz) will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, everolimus soluble oral tablet (generic Afinitor Disperz) will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Partial Onset Seizures –

Age 2 and older: carbamazepine, lamotrigine immediate release, levetiracetam immediate release, oxcarbazepine, phenobarbital, phenytoin, topiramate immediate release

3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Admelog may be made for members who meet the following criteria:

- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to comparable Novo Nordisk brand insulin **OR**
- Medical record documentation that the requested insulin require dilution

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14 (must enter 2710400500D222 & 27104005002020)

If a formulary exception is approved, Admelog will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Novolog, insulin aspart

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**SUBJECT: Aimovig**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Aimovig for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Aimovig may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of migraine with or without aura **AND**
- Medical record documentation of number of baseline migraine or headache days per month **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least two (2) of the following:
  - One (1) beta blocker (metoprolol, propranolol, timolol, atenolol, nadolol)
  - Topiramate
  - Divalproex/sodium valproate
  - Amitriptyline
  - Venlafaxine **AND**
- Medical record documentation that Aimovig will not be used concomitantly with another calcitonin gene-related peptide (CGRP) receptor antagonist indicated for the preventive treatment of migraine **AND**
- Medical record documentation that Aimovig will not be used in combination with botulinum toxin **OR**
- If the request is for use in combination with Botox, all of the following must be met:
  - Medical record documentation of a therapeutic failure on a minimum 3 month trial of at least one CGRP antagonists without the concomitant use of Botox **AND**
  - Medical record documentation of therapeutic failure on a minimum 6 month trial of Botox without the concomitant use of a CGRP antagonist

**AUTHORIZATION DURATION:** Initial approval will be for six (6) months and subsequent approvals will be for twelve (12) months. Requests for continuation of coverage will be approved for members who meet the following criteria:

- Medical record documentation of continued or sustained reduction in migraine or headache frequency or has experienced a decrease in severity or duration of migraine **AND**
- Medical record documentation that Aimovig will not be used concomitantly with another calcitonin gene-related peptide (CGRP) receptor antagonist indicated for the preventive treatment of migraine **AND**
- One of the following:
  - Medical record documentation that Aimovig is not being used concurrently with botulinum toxin **OR**
  - If the request is for use in combination with Botox, all of the following must be met:
    - Medical record documentation of a therapeutic failure on a minimum 3 month trial of at least one CGRP antagonists without the concomitant use of Botox **AND**
    - Medical record documentation of therapeutic failure on a minimum 6 month trial of Botox without the concomitant use of a CGRP antagonist

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 mL per 28 days

| ICHD-III Diagnostic Criteria [3] | |
|---|---|
| **Migraine without Aura:** | **Migraine with Aura:** |
| A) At least five (5) attacks fulfilling criteria B through D below: | A) At least two (2) attacks fulfilling criteria B through C below: |
| B) Headache lasting 4 to 72 hours (untreated or unsuccessfully treated) | B) One (1) or more of the following fully reversible aura symptoms:<br>○ Visual<br>○ Sensory<br>○ Speech and/or language<br>○ Motor<br>○ Brainstem<br>○ Retinal |
| C) Headache with at least two (2) of the following characteristics:<br>○ unilateral location<br>○ pulsating quality<br>○ moderate to severe pain intensity | C) At least three (3) of the following:<br>○ at least one (1) aura symptom spreads over 5 or more minutes<br>○ two (2) or more aura symptoms occur in succession |

| | |
|---|---|
| ○ aggravation by or causing avoidance of routine physical activity (e.g. walking or climbing stairs) | ○ each individual aura symptom lasts 5 to 60 minutes[1]<br>○ at least one (1) aura symptom is unilateral[2]<br>○ at least one (1) aura symptom is positive[3]<br>○ the aura is accompanied, or followed within 60 minutes, by a headache |
| D) At least one of the following during the headache:<br>○ nausea and/or vomiting<br>○ photophobia and phonophobia | D) Not better accounted for by another ICHD-3 diagnosis |
| E) Not better accounted for by another ICHD-3 diagnosis | |

1. Example, if three symptoms occur during an aura, the acceptable maximal duration is 3 x 60 minutes. Motor symptoms may last up to 72 hours.
2. Aphasia (impairment of language) is always a unilateral symptom; dysarthria (slurred or slowed speech) may or may not be.
3. Scintillations (flash of light) and pins and needles are positive symptoms of aura

If a formulary exception is approved, Aimovig will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

metoprolol, propranolol, timolol, atenolol, nadolol, topiramate, divalproex, sodium valproate, amitriptyline, venlafaxine, Emgality*, Nurtec ODT*, Qulipta*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Feiba may be made for members who meet all of the following criteria:

- Medical record documentation of a diagnosis of hemophilia A (a documented Factor VIII deficiency) or hemophilia B (a documented Factor IX deficiency) **AND**
- Medical record documentation that the antihemophilic agent will be for outpatient use **AND**
- Medical record documentation that the member has factor inhibitors (neutralizing antibodies), confirmed by laboratory testing (i.e., Bethesda assay) **AND**
- Medical record documentation that the antihemophilic agent will be used for on-demand treatment or perioperative management of bleeds

**OR**

- Medical record documentation that the antihemophilic agent will be used for routine prophylaxis **AND** if being used for hemophilia A: medical record documentation of therapeutic failure on, intolerance to, or contraindication to Hemlibra

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

If an exception is made, Feiba will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY NUMBER: 517.0**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Nocdurna**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Nocdurna for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Nocdurna may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of nocturia due to nocturnal polyuria, as defined by a night-time urine production exceeding one-third of the 24-hour urine production confirmed with a 24-hour urine frequency/volume chart **AND**
- Medical record documentation that the member is waking at least 2 times per night to void **AND**
- Medical record documentation that the member is not currently hyponatremic (serum sodium less than 135 meq/L) and does not have a history of hyponatremia **AND**
- Medical record documentation of an estimated glomerular filtration rate (eGFR) greater than or equal to 50 mL/min/1.73 $m^2$ **AND**
- Medical record documentation that the member has no diagnosis of syndrome of inappropriate antidiuretic hormone (SIADH) secretion, New York Heart Association (NYHA) class II-IV congestive heart failure, or uncontrolled hypertension **AND**
- Medical record documentation that Nocturna is not being used in combination with a loop diuretic or systemic or inhaled glucocorticoids

**NOTE:** the usual dosage for Nocdurna

- Females: 27.7 mcg once daily sublingually, one hour before bedtime (lower dose for women due to the higher risk of hyponatremia)
- Males: 55.3 mcg once daily sublingually, one hour before bedtime

**AUTHORIZATION DURATION:** Initial and subsequent approvals will be for six (6) months. Requests for continuation of coverage will be approved for members who meet the following criteria:

- Medical record documentation that the member is experiencing clinical benefit from the use of Nocdurna **AND**
- Medical record documentation that the member is not currently hyponatremic (serum sodium less than 135 meq/L) and does not have a history of hyponatremia **AND**
- Medical record documentation of an estimated glomerular filtration rate (eGFR) greater than 50 mL/min/1.73m$^2$ **AND**
- Medical record documentation that the member has no diagnosis of syndrome of inappropriate antidiuretic hormone (SIADH) secretion, New York Heart Association (NYHA) class II-IV congestive heart failure, or uncontrolled hypertension **AND**
- Medical record documentation that Nocdurna is not being used in combination with a loop diuretic or systemic or inhaled glucocorticoids

**MEDISPAN AUTHORIZATION LEVEL:** Nocdurna: GPI-14

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - Nocdurna: 1 tablet per day

If a formulary exception is approved, Nocdurna will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

**SECTION: Commercial Drug**
**SUBJECT: Yonsa**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Yonsa for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Yonsa may be made for members who meet the following criteria:

- Medical record documentation that Yonsa is prescribed by an oncologist or urologist **AND**
- Medical record documentation of a diagnosis of prostate cancer with evidence of metastatic disease **AND**
- Medical record documentation that the member is no longer responding to castration or is hormone resistant **AND**
- Medical record documentation that methylprednisolone will be administered concomitantly with Yonsa

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 4 tablets per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Yonsa is configured as a prior authorization for new starts only. Yonsa will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Yonsa will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Xtandi*, abiraterone acetate (generic Zytiga)*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

Geisinger

**POLICY NUMBER: 522.0**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Zypitamag**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Zypitamag for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions
- Policy 469.0 Statin Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Zypitamag may be made for members who meet the following criteria:

- Medical record documentation of therapeutic failure on (including up-to-date laboratory values), intolerance to, or contraindication to reach goal LDL (per NCEP guidelines) after titration to tolerated doses of simvastatin **AND** atorvastatin **AND** rosuvastatin

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If a formulary exception is approved, Zypitamag will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

atorvastatin, rosuvastatin, simvastatin, fluvastatin, lovastatin, pravastatin

5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Braftovi may be made for members who meet the following criteria:

**Melanoma**

- Medical record documentation that Braftovi is prescribed by a hematologist, oncologist, or dermatologist **AND**
- Medical record documentation of a diagnosis of unresectable or metastatic melanoma **AND**
- Medical record documentation of a BRAF V600E or V600K mutation as detected by a Food and Drug Administration (FDA)-approved test **AND**
- Medical record documentation that Braftovi is being prescribed in combination with Mektovi*

**NOTE:** Braftovi may be temporarily used as monotherapy if Mektovi must be held for any reason. If Mektovi is to be discontinued permanently, Braftovi should also be discontinued.

**Colorectal Cancer**

- Medical record documentation that Braftovi is prescribed by a hematologist, oncologist, or dermatologist **AND**
- Medical record documentation of a diagnosis of metastatic colorectal cancer **AND**

- Medical record documentation of a BRAF V600E mutation as detected by a Food and Drug Administration (FDA)-approved test **AND**
- Medical record documentation that member has had progression on at least one prior therapy **AND**
- Medical record documentation that Braftovi is being prescribed in combination with cetuximab

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:**

- Melanoma - *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*
  - In PA Hub: Add PA, max number of claims authorized 1, enter for the remainder of the calendar year.
    - QL FOR LETTER ONLY: 6 tablets per day, 30 day supply per fill
- Colorectal Cancer – *QL must be entered within the authorization*
  - In PA Hub: Add PA, max number of claims authorized 1, enter for the remainder of the calendar year.
  - In NCRx: Add Ignore Misc Handler, and max daily dose 4, min/max day supply 30.
    - QL FOR LETTER: 4 tablets per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Braftovi is configured as a prior authorization for new starts only. Braftovi will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Braftovi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Jynarque may be made for members who meet the following criteria:

- Medical record documentation that Jynarque is prescribed by a nephrologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of Autosomal Dominant Polycystic Kidney Disease (ADPKD) as confirmed by cysts and family history or genetic testing **AND**
- Medical record documentation of an estimated glomerular filtration rate (eGFR) greater than or equal to 25 mL/min **AND**
- Medical record documentation the member is at risk for rapidly progressing Autosomal Dominant Polycystic Kidney Disease (ADPKD) as documented by one of the following:
    - Mayo classification class 1C, 1D, or 1E
    - Total Kidney Volume greater than 750 mL
    - PROPKD score greater than 6
    - Kidney length greater than 16.5 cm as measured by ultrasound (if CT and MRI contraindicated)

**NOTE:** Per nephrology at Geisinger, the diagnosis of ADPKD should be established through genetic testing or modified Pei-Ravine criteria:

- With family history: several cysts per kidney (3 if by sonography; 5 if by CT or MRI)
- Without family history: 10 cysts per kidney (by any radiologic method, above) and exclusion of other cystic kidney diseases

**MEDISPAN AUTHORIZATION LEVEL:** Must enter GPI-12 3045406000B7, NDC-9 591480082, NDC-9 591480083

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 tablets per day, 28 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate. The medication will no longer be covered if the member progresses to end-stage renal disease (ESRD).

If a formulary exception is approved, Jynarque will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 528.0**

**SECTION: Commercial Drug**
**SUBJECT: Tibsovo**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Tibsovo for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Tibsovo may be made for members who meet the following criteria:

**Newly Diagnosed AML**

- Medical record documentation that Tibsovo is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of newly diagnosed acute myeloid leukemia **AND**
- Medical record documentation that Tibsovo will be used as monotherapy or in combination with azacitidine **AND**
- Medical record documentation of an isocitrate dehydrogenase-1 (IDH1) mutation as detected by a Food and Drug Administration (FDA)-approved test **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of age greater than or equal to 75 years **OR**
    - Medical record documentation of age greater than or equal to 18 years **AND** comorbidities† that preclude the use of intensive induction chemotherapy

**Relapsed or Refractory AML**

- Medical record documentation that Tibsovo is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of relapsed or refractory acute myeloid leukemia **AND**

- Medical record documentation of an isocitrate dehydrogenase-1 (IDH1) mutation as detected by a Food and Drug Administration (FDA)-approved test

**NOTE:** †In the clinical trials, comorbidities that precluded the use of intensive induction chemotherapy included at least one of the following criteria: baseline ECOG performance status of ≥ 2, severe cardiac or pulmonary disease, hepatic impairment with bilirubin > 1.5 X ULN, or creatinine clearance < 45 mL/min. The FDA approved test for IDH1 is the Abbott RealTime IDH1 Assay.

**Locally Advanced or Metastatic Cholangiocarcinoma**

- Medical record documentation that Tibsovo is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of locally advanced or metastatic cholangiocarcinoma **AND**
- Medical record documentation of an isocitrate dehydrogenase-1 (IDH1) mutation as detected by a Food and Drug Administration (FDA)-approved test **AND**
- Medical record documentation that member has been previously treated with at least one prior therapy

**Relapsed or Refractory Myelodysplastic Syndrome (MDS)**

- Medical record documentation that Tibsovo is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of relapsed or myelodysplastic syndromes (MDS) **AND**
- Medical record documentation of an isocitrate dehydrogenase-1 (IDH1) mutation as detected by a Food and Drug Administration (FDA)-approved test

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 tablets per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Tibsovo is configured as a prior authorization for new starts only. Tibsovo will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Tibsovo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

6. ***DMARD*** – disease modifying anti-rheumatic drug

**PROCEDURE:**
New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

**For treatment of rheumatoid arthritis**
An exception for coverage of Olumiant may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of moderate to severe rheumatoid arthritis (made in accordance with the American College of Rheumatology Criteria for the Classification and Diagnosis of Rheumatoid Arthritis) **AND**
- Medical record documentation that Olumiant is prescribed by a rheumatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to a minimum 3 month trial of two (2) preferred formulary biologics for the treatment of rheumatoid arthritis **AND**
- Medical record documentation that Olumiant is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of rheumatoid arthritis on Olumiant therapy is required.

**FORMULARY ALTERNATIVES:**

Humira*, adalimumab-FKJP*, Hadlima*, Yusimry*, Rinvoq*, Xeljanz/XR*, Enbrel*

*prior authorization required

**For treatment of severe alopecia areata**
An exception for coverage of Olumiant may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of severe alopecia areata, defined as at least 50% scalp hair lose as measured by the Severity of Alopecia Tool (SALT) **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to one of the following:
    - Systemic therapy used for at least 3 months (for example, corticosteroids, methotrexate, cyclosporine) **OR**
    - Prescription topical corticosteroids used for at least 28 days **OR**
    - Intralesional corticosteroids used for at least 3 months **AND**
- Medical record documentation that member does not have hair loss due to androgenetic alopecia (includes male and female pattern hair loss), chemotherapy-induced hair loss, or other causes of hair loss other than alopecia areata **AND**
- Medical record documentation that Olumiant is not prescribed in combination with other Janus kinase inhibitors, biologic immunomodulators, cyclosporine, or other potent immunosuppressants

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of alopecia areata on Olumiant therapy is required.

**FORMULARY ALTERNATIVES:**
prednisone, methylprednisolone, dexamethasone, prednisolone
**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)
**Medium-potency topical corticosteroids:** betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate

0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)

**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)

**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam (Temovate/Clobex/Olux); diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E); fluocinonide 0.1% cream (Vanos); halobetasol 0.05% cream and ointment (Ultravate)

3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Copiktra may be made for members who meet the following criteria:

- Medical record documentation that Copiktra is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of either:
  - Relapsed or refractory chronic lymphocytic leukemia (CLL) or small lymphocytic lymphoma (SLL) **OR**
  - Relapsed or refractory follicular lymphoma (FL)
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least two (2) prior therapies

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 tablets per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Copiktra is configured as a prior authorization for new starts only. Copiktra will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Copiktra will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

CLL/SLL: Imbruvica*, Venclexta*, Zydelig*
FL: Zydelig*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 532.0**

**SECTION: Commercial Drug**
**SUBJECT: Ajovy**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Ajovy for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Ajovy may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of migraine with or without aura **AND**
- Medical record documentation of number of baseline migraine or headache days per month **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least two (2) of the following:
  - One (1) beta blocker (metoprolol, propranolol, timolol, atenolol, nadolol)
  - Topiramate
  - Divalproex/sodium valproate
  - Amitriptyline
  - Venlafaxine **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to two (2) of the following: Aimovig, Emgality, Nurtec ODT, and Qulipta **AND**
- Medical record documentation that Ajovy will not be used concomitantly with another calcitonin gene-related peptide (CGRP) receptor antagonist indicated for the preventive treatment of migraine **AND**
- Medical record documentation that Ajovy will not be used in combination with botulinum toxin **OR**
- If the request is for use in combination with Botox, all of the following must be met:
  - Medical record documentation of a therapeutic failure on a minimum 3 month trial of at least one CGRP antagonists without the concomitant use of Botox **AND**
  - Medical record documentation of therapeutic failure on a minimum 6 month trial of Botox without the concomitant use of a CGRP antagonist

**AUTHORIZATION DURATION:** Initial approval will be for six (6) months and subsequent approvals will be for twelve (12) months. Requests for continuation of coverage will be approved for members who meet the following criteria:

- Medical record documentation of continued or sustained reduction in migraine or headache frequency or has experienced a decrease in severity or duration of migraine **AND**
- Medical record documentation that Ajovy will not be used concomitantly with another calcitonin gene-related peptide (CGRP) receptor antagonist indicated for the preventive treatment of migraine **AND**
- One of the following:
  - Medical record documentation that Ajovy is not being used concurrently with botulinum toxin **OR**
  - If the request is for use in combination with Botox, all of the following must be met:
    - Medical record documentation of a therapeutic failure on a minimum 3 month trial of at least one CGRP antagonists without the concomitant use of Botox **AND**
    - Medical record documentation of therapeutic failure on a minimum 6 month trial of Botox without the concomitant use of a CGRP antagonist

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 4.5 mL per 84 days

| **ICHD-III Diagnostic Criteria** [3] | |
|---|---|
| **Migraine without Aura:** | **Migraine with Aura:** |
| A) At least five (5) attacks fulfilling criteria B through D below: | A) At least two (2) attacks fulfilling criteria B through C below: |
| B) Headache lasting 4 to 72 hours (untreated or unsuccessfully treated) | B) One (1) or more of the following fully reversible aura symptoms:<br>○ Visual<br>○ Sensory<br>○ Speech and/or language<br>○ Motor<br>○ Brainstem<br>○ Retinal |
| C) Headache with at least two (2) of the following characteristics:<br>○ unilateral location<br>○ pulsating quality<br>○ moderate to severe pain intensity | C) At least three (3) of the following:<br>○ at least one (1) aura symptom spreads over 5 or more minutes<br>○ two (2) or more aura symptoms occur in succession |

| | |
|---|---|
| ○ aggravation by or causing avoidance of routine physical activity (e.g. walking or climbing stairs) | ○ each individual aura symptom lasts 5 to 60 minutes[1]<br>○ at least one (1) aura symptom is unilateral[2]<br>○ at least one (1) aura symptom is positive[3]<br>○ the aura is accompanied, or followed within 60 minutes, by a headache |
| D) At least one of the following during the headache:<br>○ nausea and/or vomiting<br>○ photophobia and phonophobia | D) Not better accounted for by another ICHD-3 diagnosis |
| E) Not better accounted for by another ICHD-3 diagnosis | |

1. Example, if three symptoms occur during an aura, the acceptable maximal duration is 3 x 60 minutes. Motor symptoms may last up to 72 hours.
2. Aphasia (impairment of language) is always a unilateral symptom; dysarthria (slurred or slowed speech) may or may not be.
3. Scintillations (flash of light) and pins and needles are positive symptoms of aura

If a formulary exception is approved, Ajovy will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

metoprolol, propranolol, timolol, atenolol, nadolol, topiramate, divalproex, sodium valproate, amitriptyline, venlafaxine, Aimovig*, Emgality*, Nurtec ODT*, Qulipta*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

Geisinger

**POLICY NUMBER: 534.0**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Palynziq**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Palynziq for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Palynziq may be made for members who meet the following criteria:

- Medical record documentation that Palynziq is prescribed by a metabolic specialist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of phenylketonuria (PKU) **AND**
- Medical record documentation of phenylalanine (Phe) concentrations greater than 600 micromol/L on existing management (e.g., dietary restriction of Phe and protein intake, use of medical foods, and/or Kuvan) **AND**
- Medical record documentation that the member has (or will receive) a prescription for epinephrine auto-injector **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Kuvan **AND**
- Medical record documentation that Palynziq will not be used in combination with Kuvan

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 2.5mg/0.5 mL syringe: 4 mL per 28 days
  - 10 mg/0.5 mL syringe: 14 mL per 28 days
  - 20 mg/mL syringe: 84 mL per 28 days

**AUTHORIZATION DURATION:** Initial and subsequent approvals will be for twelve (12) months. Requests for continuation of coverage will be approved for members who meet the following criteria:

- Medical record documentation of a 20% reduction in phenylalanine concentration from baseline or a blood phenylalanine concentration less than or equal to 600 micromol/L **OR**
- Medical record documentation of improvement in neuropsychiatric symptoms or an increase in phenylalanine tolerance

If a formulary exception is approved, Palynziq will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Kuvan*

Geisinger

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 535.0**

**SECTION: Commercial Drug**
**SUBJECT: Orilissa**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Orilissa for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Orilissa may be made for members who meet the following criteria:

- Medical record documentation that Orilissa is prescribed by a gynecologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of moderate to severe pain associated with endometriosis **AND**
- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to one formulary extended-cycle contraceptive **AND**
- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to two formulary nonsteroidal anti-inflammatory drugs (NSAIDs)

**NOTE:** Available extended-cycle contraceptives include: Amethia, Amethyst, Ashlyna, Camrese, Camrese Lo, Daysee, Dolishale, Jaimiess, Jolessa, Joyeaux, levonorgestrel-ethinyl estradiol, LoJaimiess, Quartette, Rivelsa, Setlakin, Simpesse, Medroxyprogesterone Acetate, and the intrauterine devices: Mirena, Liletta, Kyleena, Skyla, and ParaGard.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 150 mg tablet: 30 tablets per 30 days
  - 200 mg tablet: 60 tablets per 30 days

**AUTHORIZATION DURATION:**

- **Orilissa 150mg tablets**: Initial approval will be for 24 months (or less if there is medical record documentation of a previous incomplete course of therapy with Orilissa 150 mg tablets).
- **Orilissa 200mg tablets:** Initial approval will be for 6 months (or less if there is medical record documentation of a previous incomplete course of therapy with Orilissa 200 mg tablets).

**REAUTHORIZATION:** Medical record documentation that the patient has not been treated for more than a total of 24 months with Orilissa 150 mg once daily OR more than a total of 6 months with Orilissa 200 mg twice daily OR documentation of medical or scientific literature to support the use of this agent beyond the FDA-approved treatment duration.

If a formulary exception is approved, Orilissa will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

NSAIDs: celecoxib, choline magnesium salicylate, diclofenac, diclofenac extended release, diflunisal, etodolac, etodolac extended release, fenoprofen, flurbiprofen, ibuprofen, indomethacin, indomethacin sustained-release, ketoprofen, ketorolac**, meclofenamate, meloxicam, nabumetone, naproxen, naproxen sodium, naproxen ec, oxaprozin, piroxicam, salsalate, sulindac, tolmetin

Available extended-cycle contraceptives include: Amethia, Amethyst, Ashlyna, Camrese, Camrese Lo, Daysee, Dolishale, Jaimiess, Jolessa, Joyeaux, levonorgestrel-ethinyl estradiol, LoJaimiess, Quartette, Rivelsa, Setlakin, Simpesse, Medroxyprogesterone Acetate, and the intrauterine devices: Mirena, Liletta, Kyleena, Skyla, and ParaGard.

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Doptelet may be made for members who meet the following criteria:

**<u>Thrombocytopenia in Members with Chronic Liver Disease Undergoing Procedure</u>**

- Medical record documentation that Doptelet is prescribed by or in consultation with a hematologist, gastroenterologist, hepatologist, immunologist, transplant specialist, interventional radiologist, or endocrinologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of thrombocytopenia in adult patients with chronic liver disease **AND**
- Medical record documentation of a platelet count of less than 50 x $10^9$/L measured within the past 30 days **AND**
- Medical record documentation of a planned invasive procedure to be performed 10-13 days after initiation date for Doptelet treatment **AND**
- Medical record documentation that the member is not receiving other thrombopoietin receptor agonists (TPO-Ras) (Nplate/romiplostim, Promacta/eltrombopag) **AND**
- Medical record documentation of the correct dose being used (Platelet count 40,000 to less than 50,000 x $10^9$/L - 40 mg once daily for 5 consecutive days **OR** for platelet count less than 40,000 x $10^9$/L - 60 mg once daily for 5 consecutive days)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - Platelet count 40,000 to less than 50,000 x $10^9$/L: 10 tablets per fill
  - Platelet count less than 40,000 x $10^9$/L: 15 tablets per fill

**AUTHORIZATION DURATION:** 30 days, RX count 1

**Chronic Immune Thrombocytopenia**

- Medical record documentation that Doptelet is prescribed by or in consultation with a hematologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of chronic immune thrombocytopenia (cITP) **AND**
- Medical record documentation of symptomatic ITP with bleeding symptoms and platelet count of less than 30 x $10^9$/L **OR** a documented history of significant bleeding and platelet count less than 30 x $10^9$/L **OR** platelet count of less than 20 x $10^9$/L **AND**
- Medical record documentation that the member is not receiving other thrombopoietin receptor agonists (TPO-Ras) (Nplate/romiplostim, Promacta/eltrombopag) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) previous treatments, including, but not limited to:
    - Corticosteroids
    - IVIG*
    - Rhogam (if RhD-positive and spleen intact)
    - Rituximab*
    - Splenectomy
    - Promacta*/Nplate*

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 tablets per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for three (3) months and subsequent approvals will be for twelve (12) months.

Reauthorization criteria:

- Medical record documentation of platelet count greater than or equal to 50x $10^9$/L and continued or sustained reduction in bleeding events **AND**
- One of the following:
    - Medical record documentation that the platelet count does not exceed 400 x $10^9$/L **OR**
    - If the platelet count does exceed 400 x $10^9$/L, medical record documentation that the dose will be adjusted AND documentation that the member has not been on 20 mg once weekly for 2 weeks

If a formulary exception is approved, Doptelet will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Chronic Liver Disease: Promacta*, Mulpleta*

cITP: Promacta*

| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Vizimpro for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Vizimpro may be made for members who meet the following criteria:

- Medical record documentation that Vizimpro is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of metastatic non-small cell lung cancer (NSCLC) with epidermal growth factor receptor (EGFR) exon 19 deletion of exon 21 L858R substitution mutations as detected by a Food and Drug Administration (FDA)-approved test

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Vizimpro is configured as a prior authorization for new starts only. Vizimpro will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Vizimpro will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Gilotrif*, gefitinib*, Tagrisso*, erlotinib*

*prior authorization required

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Lorbrena may be made for members who meet the following criteria:

- Medical record documentation that Lorbrena is prescribed by or in consultation with a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of anaplastic lymphoma kinase (ALK)-positive metastatic non-small cell lung cancer (NSCLC)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 25 mg tablet: 3 tablets per day, 30 day supply per fill
  - 100 mg tablet: 1 tablet per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Lorbrena is configured as a prior authorization for new starts only. Lorbrena will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Lorbrena will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Xalkori*, Zykadia*, Alecensa*, Alunbrig*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Lokelma for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Lokelma may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of hyperkalemia **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that attempt has been made to identify and correct the underlying cause of the patient's hyperkalemia **OR** rationale as to why the underlying cause cannot be corrected **AND**
- For mild hyperkalemia (serum potassium greater than or equal to 5.1 mEq/L and less than 5.5 mEq/L): Medical record documentation that a low potassium diet has been tried and was unsuccessful at controlling the patient's serum potassium level **AND**
- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to loop diuretic or thiazide diuretic therapy

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 5 g packet: 1 packet per day
  - 10 g packet: 1.14 packets per day

If a formulary exception is approved Lokelma will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Galafold may be made for members who meet the following criteria:

- Medical record documentation that Galafold is prescribed by or in consultation with a geneticist, nephrologist, cardiologist, or a physician who specializes in the treatment of Fabry disease **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of Fabry disease as confirmed by one of the following:
    - Enzyme assay indicating deficiency of Alpha Gal-a (if male) **OR**
    - Genetic test documenting galactosidase alpha gene mutation **AND**
- Medical record documentation of in vitro assay data confirming the presence of an amenable galactosidase alpha gene (GLA) variant, in accordance with the Food and Drug administration (FDA)-approved prescribing information **AND**
- Medical record documentation that Galafold will not be used concurrently with enzyme replacement therapy intended for the treatment of Fabry disease, such as agalsidase beta (Fabrazyme)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 14 capsules per 28 days

**AUTHORIZATION DURATION: Initial approval** will be for a duration of **six** (**6) months.** For continuation of coverage, medical record documentation of clinical improvement or lack of progression in signs and symptoms of Fabry disease on six (6) months of migalastat is required. After the initial six (6) month approval, **subsequent approvals** for coverage will be for a duration of **one (1) year.** Reevaluation of coverage will be every one (1) year requiring medical record documentation of clinical improvement or lack of progression in signs and symptoms of Fabry disease while on migalastat therapy.

Note: Examples of disease improvement may include:

- Decreased symptoms of Fabry disease (e.g., pain, hypohidrosis/anhidrosis, exercise intolerance, GI symptoms, angiokeratomas, abnormal cornea, tinnitus/hearing loss)
- Imaging (brain/cardiac MRI, DEXA, renal ultrasound)
- Laboratory testing (e.g., GL-3 in plasma/urine) or histological tests (e.g., renal biopsy)

If a formulary exception is approved, Galafold will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Takhzyro for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Takhzyro may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 2 years **AND**
- Medical record documentation that Takhzyro is prescribed by an allergist, immunologist, hematologist, or dermatologist **AND**
- Medical record documentation of a diagnosis of hereditary angioedema (HAE) established and supported by documentation of:
    - Recurrent, self-limiting, non-inflammatory subcutaneous angioedema without urticaria which lasts more than 12 hours **OR**
    - Laryngeal edema **OR**
    - Recurrent, self-remitting abdominal pain which lasts more than 6 hours, without clear organic etiology **AND**
- Medical record documentation of specific abnormalities in complement proteins, in the setting of a suggestive clinical history or episodic angioedema without urticaria; supported by:
    - Medical record documentation of two (2) or more sets of complement studies, separated by one month or more, showing consistent results of:
        - Low C4 levels **AND**
        - Less than 50% of the lower limit of normal C1-INH antigenic protein levels **OR**
        - Less than 50% of the lower limit of normal C1-INH functions levels **AND**
- Medical record documentation of history of more than one (1) severe event per month **OR** a history of laryngeal attacks **AND**
- Medical record documentation that Takhzyro is being used as prophylactic therapy for hereditary angioedema (HAE) attacks **AND**

- Medical record documentation that member is receiving an appropriate dose* based on age

***NOTE:**

- **Adult and Pediatric Patients 12 Years of Age and Older:** 300 mg subcutaneously (SQ) every 2 weeks. [A dosing interval of 300 mg every 4 weeks is also effective and may be considered if the patient is well-controlled (e.g., attack free) for more than 6 months].
- **Pediatric Patients 2 to Less Than 12 Years of Age**:
  - Pediatric Patients 6 to Less Than 12 Years of Age: Starting dosage: 150 mg SQ every 2 weeks. [A dosing interval of 150 mg every 4 weeks may be considered if the patient is well-controlled (e.g., attack free) for more than 6 months].
  - Pediatric Patients 2 to Less Than 6 Years of Age: Starting dose: 150 mg SQ every 4 weeks.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 300 mg/2 mL: 4 mL per 28 days
  - 150 mg/mL: 2 mL per 28 days

**AUTHORIZATION DURATION**: Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will required medical record documentation of continued disease improvement or lack of disease progression. Takhzyro will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

If a formulary exception is approved, Takhzyro will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Talzenna may be made for members who meet the following criteria:

- Medical record documentation that Talzenna is prescribed by or in consultation with a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of deleterious or suspected deleterious germline BRCA-mutated (gBRCAm) HER2-negative advanced or metastatic breast cancer as verified by a Food and Drug Administration (FDA)-approved test

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 1 capsule per day, 30 day supply per fill

**NOTE:** Information on the FDA-approved test for the detection of BRCA mutations is available at http://www.fda.gov/companiondiagnostics

**RE-AUTHORIZATION CRITERIA:** Talzenna is configured as a prior authorization for new starts only. Talzenna will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Talzenna will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Lynparza*, Zejula*, Rubraca*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 545.0**

**SECTION: Commercial Drug**
**SUBJECT: Qbrexza**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Qbrexza for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Qbrexza may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 9 years **AND**
- Medical record documentation of a diagnosis of primary axillary hyperhidrosis **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least one prescription antiperspirant (aluminum chloride hexahydrate 6.25% [Xerac AC], 20% [Drysol])

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 per day

If a formulary exception is approved, Qbrexza will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Xospata for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Xospata may be made for members who meet the following criteria:

- Medical record documentation that Xospata is prescribed by an oncologist or hematologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of relapsed or refractory acute myeloid leukemia (AML) **AND**
- Medical record documentation of a FMS-like tyrosine kinase 3 (FLT3) mutation as detected by a Food and Drug Administration (FDA)-approved test

**NOTE:** Information regarding the FDA approved test for FLT3 mutations can be found at: https://www.accessdata.fda.gov/cdrh_docs/pdf16/P160040C.pdf

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**RE-AUTHORIZATION CRITERIA:** Xospata is configured as a prior authorization for new starts only. Xospata will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Xospata will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

sorafenib (generic Nexavar)*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Arakoda for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Arakoda may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Arakoda is being prescribed for prophylaxis of malaria **AND**
- Medical record documentation of G6PD deficiency testing with documented normal levels of G6PD **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) formulary alternatives

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**AUTHORIZATION DURATION:** 6 months

If a formulary exception is approved, Arakoda will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Tegsedi may be made for members who meet the following criteria:

- Medical record documentation that Tegsedi is prescribed by or in consultation with a neurologist, geneticist, or specialist with experience in the treatment of hereditary transthyretin-mediated amyloidosis (hATTR) **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of hereditary transthyretin-mediated amyloidosis as confirmed by generic testing to confirm a pathogenic mutation in TTR **AND** one of the following:
    - Biopsy of tissue/organ to confirm amyloid presence **OR**
    - A clinical manifestation typical of hATTR (neuropathy and/or congestive heart failure) without a better alternative explanation **AND**
- Medical record documentation that Tegsedi will be used to treat polyneuropathy **AND**
- Medical record documentation of familial amyloid polyneuropathy (FAP) stage 1-2 and/or polyneuropathy disability score (PND) indicating the patient is not wheelchair bound or bedridden **AND**
- Medical record documentation that Tegsedi will not be used in combination with other RNA interference treatment **AND**
- Medical record documentation that member has been evaluated and treated by a contracted Center of Excellence in amyloidosis management

**NOTE:** Center of Excellence (COE) requirements do not apply to strategic partner TPA plans (i.e., Northern Light Health).

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 6 mL per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate. The medication will no longer be covered if the member progresses to FAP stage 3 and/or polyneuropathy disability score indicating the patient is wheelchair-bound or bedridden.

**NOTE:**

FAP stage:

1- unimpaired ambulation
2- assistance with ambulation
3- wheelchair-bound or bedridden

Polyneuropathy disability score:

I- preserved walking, sensory disturbances
II- impaired walking without need for stick/crutches
IIIa- walking with 1 stick/crutch
IIIb- walking with 2 sticks/crutches
IV- wheelchair-bound or bedridden

Polyneuropathy disability score (used in Neuro-TTR trial):

I- preserved walking, sensory disturbances
II- impaired walking without need for stick/crutches
III- walking with 1 stick/crutch
IV- walking with 2 sticks/crutches
V- wheelchair-bound or bedridden

If a formulary exception is approved, Tegsedi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

Geisinger

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 556.0**

**SECTION: Commercial Drug**
**SUBJECT: Tiglutik and Exservan**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Tiglutik and Exservan for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Tiglutik or Exservan may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Tiglutik or Exservan is prescribed by or in consultation with a neurologist **AND**
- Medical record documentation of a diagnosis of amyotrophic lateral sclerosis (ALS) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to riluzole tablets **OR**
- Medical record documentation that member has dysphagia or is unable to swallow tablets

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - Exservan: 60 films per 30 days
  - Tiglutik: 600 mL per 30 days

If a formulary exception is approved, Tiglutik or Exservan will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**PHARMACY**
MANUAL

**POLICY NUMBER: 561.0**

**SECTION: Commercial Drug**
**SUBJECT: Pyrimethamine**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for pyrimethamine for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of pyrimethamine may be made for members who meet the following criteria:

**Treatment of Toxoplasmosis**

- Medical record documentation that pyrimethamine is prescribed by or in consultation with an infectious disease specialist **AND**
- Medical record documentation of diagnosis of toxoplasmosis **AND**
- Medical record documentation that pyrimethamine will be used in combination with leucovorin and a sulfonamide **OR** therapeutic failure on, intolerance to, or contraindication to a sulfonamide

**AUTHORIZATION DURATION:** Initial approval will be for six (6) weeks and subsequent approval will be for six (6) months. Requests for continuation of coverage will be approved for members who meet the following criteria:

- Medical record documentation of clinical syndrome (e.g. headache and/or other neurologic symptoms) **OR**
- Medical record documentation of persistent radiographic disease **OR**
- If HIV positive, medical record documentation of CD4 count less than 200 cells/microL **AND** medical record documentation that the member is taking anti-retroviral therapy (ART)

**Primary Prophylaxis of Toxoplasmosis with HIV**

- Medical record documentation that pyrimethamine is prescribed by or in consultation with an infectious disease specialist **AND**
- Medical record documentation of diagnosis of human immunodeficiency virus (HIV) **AND**
- Medical record documentation of CD4 count less than 200 cells/microL

- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to trimethoprim-sulfamethoxazole

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, generic only

**AUTHORIZATION DURATION:** Initial approval will be for three (3) months and subsequent approval will be for six (6) months. Requests for continuation of coverage will be approved for members who meet the following criteria:

- Medical record documentation of CD4 count less than 200 cells/microL **AND**
- Medical record documentation that the member is taking anti-retroviral therapy (ART)

**NOTE:**

Recommended Dose:

- Immunocompetent patients: The recommended dose of pyrimethamine is 100 mg loading dose followed by 25 to 50 mg daily (25 mg daily for those with ocular disease).
- HIV-Treatment: The recommended initial dose of pyrimethamine 200 mg loading dose followed by 50 mg daily (<60 kg) or 75 mg daily (≥60 kg). The recommended chronic maintenance dose of pyrimethamine is 25 to 50 mg daily.
- HIV-Primary Prophylaxis: The recommended dose is 50 to 75 mg once weekly in combination with dapsone and leucovorin; or 25 mg once daily in combination with atovaquone and leucovorin.
- Congenital: The recommended dose of pyrimethamine is 2 mg/kg (maximum 50 mg/dose) once daily for two days; then 1 mg/kg (maximum 25 mg/dose) once daily for 6 months; then 1 mg/kg (maximum 25 mg/dose) three times per week for 12 months.
- Pregnancy: The recommended dose of pyrimethamine 100 mg/day orally divided into two doses for two days followed by 50 mg orally daily.

Treatment Duration:

- Immunocompetent patients with ocular disease: Minimum of 6 weeks
- HIV-Treatment: Initial- 6 weeks; chronic maintenance- 6 months or more
- HIV- Primary Prophylaxis: 3 months or more
- Congenital: 12 months
- Pregnancy: 18 weeks or after gestation and may be up administered until delivery

If a formulary exception is approved, pyrimethamine will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Treatment: none
Prophylaxis: trimethoprim-sulfamethoxazole

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 562.0**

**SECTION: Commercial Drug**
**SUBJECT: Cablivi**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Cablivi for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Cablivi may be made for members who meet the following criteria:

**Currently on PEX Therapy**

- Medical record documentation that Cablivi is prescribed by or in consultation with a hematologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of diagnosis of acquired thrombotic thrombocytopenic purpura (aTTP) **AND**
- Medical record documentation that Cablivi will be used in combination with daily plasma exchange and immunosuppressive therapy (e.g. glucocorticoids, rituximab) **AND**
- Medical record documentation that the member has not experienced more than two recurrences of aTTP while on Cablivi

**Completed PEX**

- Medical record documentation that Cablivi is prescribed by or in consultation with a hematologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of diagnosis of acquired thrombotic thrombocytopenic purpura (aTTP) **AND**
- Medical record documentation that the member previously received daily plasma exchange, immunosuppressive therapy, and Cablivi within the inpatient setting **AND**
- Medical record documentation of the date of the last plasma exchange **AND**
    - Medical record documentation of one of the following:
        - The date of plasma exchange is within 30 days of the request date **OR**
        - If the date of plasma exchange is > 30 days of the request date, medical record documentation sign(s) of persistent underlying disease

(e.g., suppressed ADAMTS13 activity levels remain present) and medical record documentation that the member has not exceeded the maximum treatment duration of Cablivi (30 days post PEX and up to 28 days of extended treatment) **AND**

- Medical record documentation that the member has not experienced more than two recurrences of aTTP while on Cablivi

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 kit per day

**AUTHORIZATION DURATION:** Initial approval will be for 30 days or less if the reviewing provider feels it is medically necessary. Subsequent approvals will be for an additional 30 days or less if the reviewing provider feels it is medically necessary. Requests for continuation of coverage will be approved for members who meet the following criteria:

**Currently on PEX Therapy**

- Medical record documentation that the member is still receiving daily plasma exchange therapy and Cablivi will be used in combination with plasma exchange and immunosuppressive therapy (e.g. glucocorticoids, rituximab) **AND**
- Medical record documentation that the member has not experienced more than two recurrences of aTTP while on Cablivi

**Completed PEX within 30 days**

- Medical record documentation that the member previously received daily plasma exchange and immunosuppressive therapy **AND**
- Medical record documentation of the date of last plasma exchange **AND**
- The date of plasma exchange is within 30 days of the request date **AND**
- Medical record documentation that the member has not experienced more than two recurrences of aTTP while on Cablivi

**Completed PEX greater than 30 days**

- Medical record documentation sign(s) of persistent underlying disease (e.g. suppressed ADAMTS13 activity levels remain present) **AND**
- Medical record documentation of the date of last plasma exchange **AND**
- Medical record documentation that the member has not exceeded the maximum treatment duration of Cablivi (30 days post PEX and up to 28 days of extended treatment) **AND**

- Medical record documentation that the member has not experienced more than two recurrences of aTTP while on Cablivi

**NOTE:** Cablivi should be administered upon initiation of PEX therapy, during daily PEX, and continued daily for 30 days following last daily PEX. If necessary, treatment can be extended for a maximum of 28 days.

If a formulary exception is approved, Cablivi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Balversa for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Balversa may be made for members who meet the following criteria:

- Medical record documentation that Balversa is prescribed by an oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of locally advanced or metastatic urothelial carcinoma **AND**
- Medical record documentation of an FGFR3 genetic alteration determined using a Food and Drug Administration (FDA) approved test **AND**
- Medical record documentation of therapeutic failure on or after one line of prior systemic therapy

**NOTE:** The FDA-approved test is the *therascreen*® FGFR RGQ RT-PCR Kit

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 3 mg tablet – 3 tablets per day, 28 day supply per fill
  - 4 mg tablet – 2 tablets per day, 28 day supply per fill
  - 5 mg tablet – 1 tablet per day, 28 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Balversa is configured as a prior authorization for new starts only. Balversa will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Balversa will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

Geisinger

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 567.0**

**SECTION: Commercial Drug**
**SUBJECT: Inveltys, Loteprednol Suspension, Lotemax Gel, & Lotemax SM**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Inveltys, loteprednol suspension, Lotemax gel, and Lotemax SM for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Inveltys, loteprednol, Lotemax Gel, or Lotemax SM may be made for members who meet the following criteria:

**For Inveltys, Lotemax Gel, and Lotemax SM**

- Medical record documentation of use for post-operative inflammation and pain following ocular surgery **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) formulary alternatives

**For loteprednol suspension**

- Medical record documentation for treatment of steroid-responsive inflammatory conditions of the palpebral and bulbar conjunctiva, cornea, and anterior segment of the globe **OR**
- Medical record documentation of use for post-operative inflammation and pain following ocular surgery **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) formulary alternatives

**OR**

- Medical record documentation for use of a medically accepted indication for the short-term treatment of the signs and symptoms of dry eye disease

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14, generic only if request is for loteprednol suspension

If a formulary exception is approved, Inveltys, loteprednol, Lotemax Gel, or Lotemax SM will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

dexamethasone sodium phosphate 0.1%, fluorometholone drops 0.1%, prednisolone acetate (pf), prednisolone acetate 1%, prednisolone sodium phosphate drops 1%, bromfenac 0.09%, ketorolac drops 0.4% and 0.5%, diclofenac sodium 0.1%, Maxidex, FML S.O.P.

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Follistim AQ may be made for members who meet the following criteria:

**For Females:**

- Medical record documentation that Follistim AQ is prescribed by or in consultation with a reproductive specialist or infertility specialist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of one of the following:
  - Poor/diminished ovarian reserve **OR**
  - Tubal factor infertility **OR**
  - Follistim AQ is being used with donor eggs **OR**
  - In Vitro Fertilization **AND**
- Medical record documentation of therapeutic failure, contraindication, or intolerance to Gonal-f

**OR**

- Medical record documentation that Follistim AQ is prescribed by or in consultation with a reproductive specialist or infertility specialist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that infertility is not due to primary ovarian failure **AND**
- Medical record documentation that Follistim AQ is being using concomitantly with an hCG product **AND**
- Medical record documentation of therapeutic failure, contraindication, or intolerance to Gonal-f **AND**
- For patients without a diagnosis of hyperprolactinemic anovulation:
  - Medical record documentation of therapeutic failure, contraindication, or intolerance to clomiphene and/or letrozole for a total of 3 cycles **OR**

- For patients with a diagnosis of hyperprolactinemic anovulation, one of the following:
  - Uncorrected prolactin levels, greater than 25 ng/mL, after 6 months of therapy on bromocriptine or cabergoline **OR**
  - Corrected prolactin levels, less than or equal to 25 ng/mL, on bromocriptine or cabergoline with therapeutic failure, contraindication, or intolerance to 3 cycles of clomiphene and/or letrozole

**For Males:**

- Medical record documentation that Follistim AQ is prescribed by or in consultation with a reproductive specialist or infertility specialist **AND**
- Medical record documentation of male factor infertility **AND**
- Medical record documentation of therapeutic failure, contraindication, or intolerance to Gonal-f

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

If an exception is made, Follistim AQ will be paid for under the member's prescription drug benefit.

D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Novarel may be made for members who meet the following criteria:

- Medical record documentation that Novarel is prescribed by or in consultation with a reproductive specialist or infertility specialist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of use for ovulation induction in females **AND**
- Medical record documentation of therapeutic failure, contraindication, or intolerance to Pregnyl

**OR**

- Medical record documentation of use for a Food and Drug Administration (FDA) approved indication (hypogonadotropic hypogonadism in males or prepubertal cryptorchidism) **AND**
- Medical record documentation of therapeutic failure, contraindication, or intolerance to Pregnyl

**MEDISPAN AUTHORIZATION LEVEL:** NDC-9 (must enter 555661501 & 555661502)

If an exception is made, Novarel will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 574.0**

**SECTION: Commercial Drug**
**SUBJECT: Crinone**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Crinone for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Crinone may be made for members who meet the following criteria:

- Medical record documentation of use for secondary amenorrhea

**OR**

- Medical record documentation of use as part of assisted reproductive technology (ART) **AND**
- Medical record documentation of use of Crinone 8% gel **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Endometrin

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

If an exception is made, Crinone will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Endometrin

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Mavenclad may be made for members who meet the following criteria:

- Medical record documentation that Mavenclad is prescribed by a neurologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of relapsing form of multiple sclerosis including relapsing-remitting disease and active secondary progressive disease **AND**
  *Note: Mavenclad is not indicated for the clinically isolated syndrome subtype of multiple sclerosis.*
- Medical record documentation that Mavenclad will be used as monotherapy **AND**
- Medical record documentation that the prescribed dose is appropriate for member's weight **AND**
- Medical record documentation that member has not been treated with more than three (3) previous treatment cycles of Mavenclad for relapsing forms of multiple sclerosis **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to two (2) formulary alternatives for the treatment of multiple sclerosis

**NOTE:** Cumulative use of Mavenclad for more than two years (4 cycles) of treatment during a member's lifetime has not been evaluated.

| | Weight Range (kg) | First Cycle | Second Cycle |
|---|---|---|---|
| Dose of Mavenclad per cycle by member weight in each treatment course. | 40* to less than 50 | 40 mg (4 tablets) | 40 mg (4 tablets) |
| | 50 to less than 60 | 50 mg (5 tablets) | 50 mg (5 tablets) |
| | 60 to less than 70 | 60 mg (6 tablets) | 60 mg (6 tablets) |
| | 70 to less than 80 | 70 mg (7 tablets) | 70 mg (7 tablets) |
| | 80 to less than 90 | 80 mg (8 tablets) | 70 mg (7 tablets) |
| | 90 to less than 100 | 90 mg (9 tablets) | 80 mg (8 tablets) |
| | 100 to less than 110 | 100 mg (10 tablets) | 90 mg (9 tablets) |
| | 110 and above | 100 mg (10 tablets) | 100 mg (10 tablets) |

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:

| Dosage | Quantity Limit |
|---|---|
| 40 mg | 4 tablets per 27 days |
| 50 mg | 5 tablets per 28 days |
| 60 mg | 6 tablets per 28 days |
| 70 mg | 7 tablets per 28 days |
| 80 mg | 8 tablets per 28 days |
| 90 mg | 9 tablets per 28 days |
| 100 mg | 10 tablets per 28 days |

**AUTHORIZATION DURATION:** The initial authorization will be for 48 weeks with an RX Count of 2. One subsequent authorization will be for 48 weeks with an RX Count of 2 and will require the following:

- Medical record documentation that member has not received more than three previous cycles of Mavenclad treatment for relapsing forms of multiple sclerosis **AND**
- Medical record documentation that member has not experienced unacceptable toxicity or worsening of disease

**FORMULARY ALTERNATIVES:**

glatiramer acetate, fingolimod 0.5 mg capsule, Gilenya 0.25 mg, dimethyl fumarate, Betaseron, Plegridy, Extavia, teriflunomide 14 mg, Avonex, Rebif, Mayzent

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 580.0**

**SECTION: Commercial Drug**
**SUBJECT: Skyrizi**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Skyrizi for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

A formulary exception for coverage of Skyrizi may be made for members who meet the following criteria:

**For treatment of plaque psoriasis**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Skyrizi is prescribed by a dermatologist **AND**
- Medical record documentation of a diagnosis of moderate to severe plaque psoriasis with greater than or equal to 5% body surface area involved **OR** disease involving crucial areas of the body such as hands, feet, face, and/or genitals **AND**
- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to topical corticosteroids **AND** at least two to three months of systemic therapy (including but not limited to methotrexate and/or cyclosporine) or phototherapy **OR** medical record documentation of a therapeutic failure on or intolerance to prior biologic therapy **AND**
- Medical record documentation that Skyrizi is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:**

- **Prefilled Syringe Kit 75 mg/0.83 mL, Skyrizi 150 mg at weeks 0, 4, and then every 12 weeks thereafter**
  - In PA Hub: Add Treat As "Include" Process Modifier, Ignore Misc Handler, DS, max number of claims authorized 1, max quantity dispensed 1, min day supply 28, max day supply 28, with a duration of one month.
    - QL FOR LETTER: Loading dose: 1 kit per 28 days; Maintenance dose: 1 kit per 84 days
- **Prefilled 150 mg/mL Syringe or Auto-Injector, Skyrizi 150 mg at weeks 0, 4, and then every 12 weeks thereafter**
  - In PA Hub: Add Treat As "Include" Process Modifier, Ignore Misc Handler, DS, max number of claims authorized 1, max quantity dispensed 1, min day supply 28, max day supply 28, with a duration of one month.
    - QL FOR LETTER: Loading dose: 1 mL per 28 days; Maintenance dose: 1 mL per 84 days

**RE-AUTHORIZATION CRITERIA:** Skyrizi is configured as a prior authorization for new starts only. Skyrizi will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 105 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**

cyclosporine, methotrexate
**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)
**Medium-potency topical corticosteroids:** betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)
**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF);

betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)
**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam, spray (Temovate/Clobex/Olux) diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E), fluocinonide 0.1% cream (Vanos), halobetasol 0.05% cream and ointment (Ultravate)

**For treatment of psoriatic arthritis**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Skyrizi is prescribed by a rheumatologist or dermatologist **AND**
- Medical record documentation of a diagnosis of moderately to severely active psoriatic arthritis which must include documentation of either active psoriatic lesions or a documented history of psoriasis **AND**
- Medical record documentation that Skyrizi is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent **AND**
- Medical record documentation of one of the following:
    - For peripheral disease: Medical record documentation of an intolerance to, contraindication to, or therapeutic failure on methotrexate **AND** an adequate trial of at least two (2) formulary nonsteroidal anti-inflammatory drugs (NSAIDs) **OR** medical record documentation of a therapeutic failure on or intolerance to prior biologic therapy **OR**
    - For axial disease: Medical record documentation of an intolerance to, contraindication to, or therapeutic failure to an adequate trial of at least two (2) formulary nonsteroidal anti-inflammatory drugs (NSAIDs) **OR** medical record documentation of a therapeutic failure on or intolerance to prior biologic therapy

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:**

- **Prefilled Syringe Kit 75 mg/0.83 mL, Skyrizi 150 mg at weeks 0, 4, and then every 12 weeks thereafter**
    - In PA Hub: Add Treat As “Include” Process Modifier, Ignore Misc Handler, DS, max number of claims authorized 1, max quantity dispensed 1, min day supply 28, max day supply 28, with a duration of one month.
        - QL FOR LETTER: Loading dose: 1 kit per 28 days; Maintenance dose: 1 kit per 84 days
- **Prefilled 150 mg/mL Syringe or Auto-Injector, Skyrizi 150 mg at weeks 0, 4, and then every 12 weeks thereafter**
    - In PA Hub: Add Treat As “Include” Process Modifier, Ignore Misc Handler, DS, max number of claims authorized 1, max quantity dispensed 1, min day supply 28, max day supply 28, with a duration of one month.
        - QL FOR LETTER: Loading dose: 1 mL per 28 days; Maintenance dose: 1 mL per 84 days

**RE-AUTHORIZATION CRITERIA:** Skyrizi is configured as a prior authorization for new starts only. Skyrizi will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 105 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**

methotrexate, celecoxib, choline magnesium salicylate, diclofenac, diclofenac extended release, diflunisal, etodolac, etodolac extended release, fenoprofen, flurbiprofen, ibuprofen, indomethacin, indomethacin sustained release, ketoprofen, ketorolac, meclofenamate, meloxicam, nabumetone, naproxen, naproxen sodium, naproxen EC, oxaprozin, piroxicam, salsalate, sulindac, tolmetin

**For treatment of Crohn's disease**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Skyrizi is prescribed by a gastroenterologist **AND**
- Medical record documentation of a diagnosis of moderately to severely active Crohn's disease **AND**
- Medical record documentation that Skyrizi is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent
- Medical record documentation of one of the following:
    - Medical record documentation of therapeutic failure on, intolerance to, or contraindication to corticosteroids and immunomodulators (e.g. azathioprine and 6 mercaptopurine) **OR** medical record documentation of a therapeutic failure on or intolerance to prior biologic therapy **OR**
    - Medical record documentation of moderate/high risk patient as defined by age at initial diagnosis less than 30 years, extensive anatomic involvement, perianal and/or severe rectal disease, deep ulcers, prior surgical resection, and structuring and/ or penetrating behavior

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:**

- **Subcutaneous Solution Cartridge 360 mg/2.4 mL, Skyrizi 600 mg IV at weeks 0, 4, and 8 then 360 mg at week 12 and every 8 weeks thereafter**
    - In PA Hub: Add Treat As "Include" Process Modifier, max number of claims authorized 1, max quantity dispensed 2.4, with a duration of one month.
        - QL FOR LETTER: 2.4 mL per 56 days

**RE-AUTHORIZATION CRITERIA:** Skyrizi is configured as a prior authorization for new starts only. Skyrizi will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 105 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**

Corticosteroids: prednisone, budesonide
Immunomodulators: azathioprine, 6-mercaptopurine

If a formulary exception is approved Skyrizi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Vyndaqel or Vyndamax may be made for members who meet the following criteria:

- Medical record documentation that Vyndaqel or Vyndamax is prescribed by or in consultation with a cardiologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of cardiomyopathy resulting from wild type transthyretin-mediated amyloidosis **OR** hereditary transthyretin-mediated amyloidosis as confirmed by ONE of the following:
    - Bone scan (scintigraphy) strongly positive for myocardial uptake of 99mTcPYP/DPD *(Note: Strongly positive defined as heart to contralateral lung [H/CL] ratio of at least 1.5 or Grade 2 or greater localization to the heart using the Perugini Grade 1-3 scoring system)* **OR**
    - Biopsy of tissue of the affected organ to confirm amyloid presence **AND** chemical typing to confirm presence of transthyretin (TTR) protein

**AND**

- Medical record documentation that the patient has New York Heart Association (NYHA) Class I, II, or III heart failure **AND**
- Medical record documentation that member has been evaluated and treated by a contracted Center of Excellence in amyloidosis management

**NOTE:** Center of Excellence (COE) requirements do not apply to strategic partner TPA plans (i.e., Northern Light Health).

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - Vyndaqel – 4 tablets per day, 30 day supply per fill
  - Vyndamax – 1 tablet per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 12 months. Subsequent approvals will be for an additional 12 months, requiring prescriber attestation that the patient continues to benefit from tafamidis therapy. The medication will no longer be covered if the member experiences toxicity or progresses to NYHA class IV heart failure.

If a formulary exception is approved, Vyndaqel or Vyndamax will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Duobrii for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Duobrii may be made for members who meet the following criteria:

- Medical record documentation that Duobrii is prescribed by or in consultation with a dermatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of plaque psoriasis **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to tazarotene used in combination with three (3) different topical corticosteroids

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

If a formulary exception is approved, Duobrii will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

tazarotene

**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)

**Medium-potency topical corticosteroids:** betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)

**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)

**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam, spray (Temovate/Clobex/Olux) diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E), fluocinonide 0.1% cream (Vanos), halobetasol 0.05% cream and ointment (Ultravate)

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Inrebic for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Inrebic may be made for members who meet the following criteria:

- Medical record documentation that Inrebic is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of intermediate-2 (INT-2) or high-risk myelofibrosis, including primary myelofibrosis, post-polycythemia vera myelofibrosis or post-essential thrombocythemia myelofibrosis **AND**
- Medical record documentation of platelet count greater than or equal to 50 x $10^9$/L **AND**
- Medical record documentation of splenomegaly as measured by computed tomography (CT), magnetic resonance imaging (MRI), or ultrasound **AND**
- Medical record documentation of baseline total symptom score as measured by the modified Myelofibrosis Symptom Assessment Form (MFSAF) **AND**
- Medical record documentation that Inrebic will not be used concurrently with Jakafi **AND**
- Medical record documentation that the member is ineligible for allogenic hematopoietic cell transplantation

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 4 capsules per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Each treatment period will be defined as six (6) months. Re-review with occur every six (6) months. Inrebic will no longer be covered if medical record documentation does not show:

- Medical record documentation of platelet count greater than or equal to 50 x $10^9$/L **AND**
- The member has achieved a reduction from pretreatment baseline of at least 35% in spleen volume as measured by computed tomography (CT), magnetic resonance imaging (MRI), or ultrasound **OR**
- The member has achieved a 50% or greater reduction in the Total Symptom Score from baseline as measured by the modified Myelofibrosis Symptom Assessment Form (MFSAF)

**NOTE:** Intermediate or High-Risk Myelofibrosis is defined by having at least 2 of the following factors:

- Age > 65 years
- WBC > 25 x 109/L
- Hemoglobin < 10 g/dL
- Blood Blasts ≥ 1%
- Presence of Constitutional Symptoms (weight loss, fever, excessive sweats, etc.)
- Transfusion dependency
- Platelets less than 100 X 109/L
- Unfavorable karyotype

If a formulary exception is approved, Inrebic will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Jakafi*

3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Nucala for self-administration may be made for members who meet the following criteria:

**Severe Eosinophilic Asthma**

- Medical record documentation that Nucala is prescribed by an allergist or pulmonologist **AND**
- Medical record documentation of age greater than or equal to 6 years **AND**
- Medical record documentation of a diagnosis of severe eosinophilic asthma **AND** that Nucala is being used as add-on maintenance treatment **AND**
- Medical record documentation of a blood eosinophil count of either greater than 300 cells/mcL during the 12-month period before screening and/or greater than 150 cells/mcL within 3 months of the start of therapy **AND**
- Medical record documentation of:
    - intolerance to or not well controlled or very poorly controlled symptoms* despite at least a 3- month trial of: high-dose inhaled corticosteroids and/or oral systemic corticosteroids plus a long-acting beta agonist **OR**
    - two or more exacerbations in the previous 12 months requiring additional medical treatment (oral corticosteroids, emergency department or urgent care visits, or hospitalization) despite current therapy with high-dose inhaled corticosteroids plus a long-acting beta agonist **AND**
- Medical record documentation that member is adherent to current therapeutic regimen and must demonstrate appropriate inhaler technique **AND**
- Medical record documentation that known environmental triggers within the member's control have been eliminated **AND**
- Medical record documentation that Nucala will not be used in combination with another biologic medication indicated for asthma treatment (e.g., Xolair, Fasenra, Dupixent, Cinqair, or Tezspire)

*Measures of disease severity

| Measure | Not Well Controlled | Very Poorly Controlled |
|---|---|---|
| Symptoms | > 2 days per week | Throughout the day |
| Nighttime awakenings | 1-3x/week | > 4x/week |
| Interference with normal activity | Some limitation | Extremely limited |
| SABA use for symptom control (not to prevent exercise-induced bronchospasm) | > 2 days/week | Several times per day |
| FEV1 (% predicted) or peak flow (% personal best) | 60-80% | < 60% |
| Asthma Control Test (ACT) Score | 16-19 | < 15 |

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *QL must be entered within the authorization.*

- QL FOR LETTER & AUTHORIZATION: 1 prefilled syringe or autoinjector per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of continued disease improvement or lack of disease progression. The medication will no longer be covered if patient experiences toxicity or worsening of disease.

**Eosinophilic Granulomatosis (EGPA)**

- Medical record documentation that Nucala is prescribed by an allergist/immunologist, pulmonologist, and/or rheumatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of eosinophilic granulomatosis (EGPA) confirmed by biopsy evidence of vasculitis **AND** at least four (4) of the following criteria:
    - Asthma (a history of wheezing or the finding of diffuse high-pitched wheezes on expiration)
    - Eosinophilia (blood eosinophil level of greater than or equal to 10% or greater than or equal to 1500 cells/microL on differential white blood cell count)
    - Mononeuropathy (including multiplex) or polyneuropathy
    - Migratory or transient pulmonary opacities detected radiographically
    - Paranasal sinus abnormality
    - Biopsy containing a blood vessel showing the accumulation of eosinophils in extravascular areas

**AND**

- Medical record documentation of a therapeutic failure on, contraindication to, or intolerance to systemic glucocorticoid therapy **AND** at least one immunosuppressant therapy (cyclophosphamide, azathioprine, methotrexate)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *QL must be entered within the authorization.*

- QL FOR LETTER & AUTHORIZATION: 3 prefilled syringes or 3 autoinjectors (300 mg) per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of continued disease improvement or lack of disease progression. The medication will no longer be covered if patient experiences toxicity or worsening of disease.

**Hypereosinophilic Syndrome (HES)**

- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of a diagnosis of hypereosinophilic syndrome (HES) for greater than or equal to 6 months **AND**
- Medical record documentation that member has been evaluated for and does NOT have an identifiable non-hematologic secondary cause* or FIP1 like 1-platelet derived growth factor receptor (FIP1L1-PDGFRα) kinase-positive hypereosinophilic syndrome (HES) **AND**
- Medical record documentation of a blood eosinophil count of 1,000 cells/mcL or higher **AND**
- Medical record documentation of at least two hypereosinophilic syndrome (HES) flares within the previous 12 months with a worsening of clinical symptoms of HES or increasing blood eosinophil level requiring an escalation in therapy **AND**
- Medical record documentation that member is on stable hypereosinophilic syndrome (HES) therapy including, but not limited to oral corticosteroids, immunosuppressives, or cytotoxic therapy

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *QL must be entered within the authorization.*

- QL FOR LETTER & AUTHORIZATION: 3 prefilled syringes or 3 autoinjectors (300 mg) per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of continued disease improvement or lack of disease progression. The medication will no longer be covered if patient experiences toxicity or worsening of disease.

**Chronic Rhinosinusitis with Nasal Polyps (CRSwNP)**

- Medical record documentation that Nucala is prescribed by or in consultation with an allergist, pulmonologist, immunologist or otolaryngologist (ENT provider) **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of chronic rhinosinusitis with nasal polyps (CRSwNP) **AND**
- Medical record documentation that Nucala will be used as add-on maintenance treatment **AND**
- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to three (3) intranasal corticosteroids

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *QL must be entered within the authorization.*

- QL FOR LETTER & AUTHORIZATION: 1 prefilled syringe or 1 autoinjector (100 mg) per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of continued disease improvement or lack of disease progression. The medication will no longer be covered if patient experiences toxicity or worsening of disease.

**FORMULARY ALTERNATIVES:**

Severe Eosinophilic Asthma: dexamethasone, methylprednisolone, prednisone, fluticasone/salmeterol, Breo Ellipta, Dulera, Serevent Diskus, Arnuity Ellipta, Asmanex, fluticasone HFA, Pulmicort Flexhaler, QVAR RediHaler

EGPA: dexamethasone, methylprednisolone, prednisone, cyclophosphamide, azathioprine, methotrexate

CRSwNP: fluticasone propionate, triamcinolone acetonide, mometasone furoate

If a formulary exception is approved, Nucala for self-administration will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Fasenra for self-administration for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Fasenra for self-administration may be made for members who meet the following criteria:

- Medical record documentation that Fasenra is prescribed by an allergist/immunologist or pulmonologist **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of a diagnosis of severe eosinophilic asthma **AND** that Fasenra is being used as add-on maintenance treatment **AND**
- Medical record documentation of a blood eosinophil count greater than 150 cells/mcL (0.15 x 10E3/uL) within the past 3 months **AND**
- Medical record documentation of:
    - Intolerance to or not well controlled or very poorly controlled symptoms* despite at least a 3-month trial of: high-dose inhaled corticosteroids and/or oral systemic corticosteroids plus a long-acting beta agonist **OR**
    - Two or more exacerbations in the previous 12 months requiring additional medical treatment (oral corticosteroids, emergency department or urgent care visits, or hospitalization) despite current therapy with high-dose inhaled corticosteroids plus a long-acting beta agonist **AND**
- Medical record documentation that member is adherent to current therapeutic regimen and must demonstrate appropriate inhaler technique **AND**
- Medical record documentation that known environmental triggers within the member's control have been eliminated **AND**
- Medical record documentation that Fasenra will not be used in combination with another biologic medication indicated for asthma treatment (e.g., Xolair, Dupixent, Nucala, Cinqair, or Tezspire)

*Measures of disease severity

| Measure | Not Well Controlled | Very Poorly Controlled |
|---|---|---|
| Symptoms | > 2 days per week | Throughout the day |
| Nighttime awakenings | 1-3x/week | > 4x/week |
| Interference with normal activity | Some limitation | Extremely limited |
| SABA use for symptom control (not to prevent exercise-induced bronchospasm) | > 2 days/week | Several times per day |
| FEV1 (% predicted) or peak flow (% personal best) | 60-80% | < 60% |
| Asthma Control Test (ACT) Score | 16-19 | < 15 |

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:**

- **Initial Approval –** *Two authorizations must be entered.*
    - Fasenra 30 mg every 4 weeks for the first 3 doses, then once every 8 weeks
        1. In PA Hub: Add PA only.
        2. In Darwin: Add OQL, DS, max number of claims authorized 3, max quantity dispensed 1, min day supply 28, max day supply 28, with a duration of 3 months.
            - QL FOR LETTER: Loading dose: 1 mL per 28 days; Maintenance dose: 1 mL per 56 days
- **Renewal –** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*
            - QL FOR LETTER ONLY: 1 mL per 56 days

**AUTHORIZATION DURATION:** Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of the following:

- Documentation that patient is not experiencing toxicity or worsening of disease **AND**
- Medical record documentation of at least one of the following:
    - Medical record documentation of continued disease improvement or lack of disease progression as evidenced by a reduction in asthma exacerbations (e.g. reduced use of rescue medications, reduced urgent care visits, reduced hospitalizations) **OR**

- Medical record documentation of decreased oral corticosteroid use (if on maintenance treatment prior to Fasenra initiation)

If a formulary exception is approved, Fasenra for self-administration will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

dexamethasone, methylprednisolone, prednisone, fluticasone/salmeterol, Breo Ellipta, Dulera, Serevent Diskus, Arnuity Ellipta, Asmanex, fluticasone HFA, Pulmicort Flexhaler, QVAR RediHaler

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

MANUAL

**POLICY NUMBER: 595.0**

**SECTION: Commercial Drug**
**SUBJECT: Bijuva**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Bijuva for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Bijuva may be made for members who meet the following criteria:

- Medical record documentation of use for treatment of moderate to severe vasomotor symptoms due to menopause **AND**
- Medical record documentation of an intact uterus **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to estradiol used in combination with progesterone

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If an exception is made, Bijuva will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

estradiol (tablets, patches, cream), estradiol/norethindrone, Fyavolv, Lopreeza, medroxyprogesterone, Mimvey Lo, northethindrone/ethinyl estradiol, progesterone, Combipatch, Premarin, Prempro, Premphase

4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Drizalma may be made for members who meet the following criteria:

- Medical record documentation of one of the following:
  - Medical record documentation major depressive disorder, diabetic peripheral neuropathic pain, chronic musculoskeletal pain, or fibromyalgia in member age greater than or equal to 18 years **OR**
  - Medical record documentation of generalized anxiety disorder in members age greater than or equal to 7 years

**AND**

- Medical record documentation of difficulty swallowing **OR**
- Medical record documentation of administration through a nasogastric tube **OR**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) formulary alternatives, one of which must be duloxetine capsules

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 capsules per day

If an exception is made, Drizalma will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Geisinger

**POLICY NUMBER: 601.0**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Siklos**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Siklos for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Siklos may be made for members who meet the following criteria:

- Medical record documentation that Siklos is prescribed by or in consultation with a hematologist **AND**
- Medical record documentation of the age greater than or equal to 2 years **AND**
- Medical record documentation of a diagnosis of sickle cell anemia **AND**
- Medical record documentation of intolerance to, or contraindication to, or therapeutic failure on a minimum 3 month trial of generic hydroxyurea

**NOTE:** Siklos can be dispersed in a small quantity of water in a teaspoon and administered immediately.

- Hydroxyurea is available as 500 mg capsules.
- Droxia (hydroxyurea) is available as 200 mg, 300 mg, 400 mg capsules.
- Siklos is available in 100 mg and 1,000 mg tablets. The 100 mg tablets can be split into 2 parts (50 mg each). The 1,000 mg tablets can be split into 4 parts (250 mg each).

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

If a formulary exception is approved Siklos will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

6. ***DMARD*** *– disease modifying anti-rheumatic drug*

**PROCEDURE:**
New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

**For treatment of rheumatoid arthritis**
An exception for coverage of Rinvoq may be made for members who meet the following criteria:

- Medical record documentation that Rinvoq is prescribed by a rheumatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of moderate to severe rheumatoid arthritis (made in accordance with the American College of Rheumatology Criteria for the Classification and Diagnosis of Rheumatoid Arthritis) **AND**
- Medical record documentation that Rinvoq is <u>not</u> being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to a minimum 3 month trial of adalimumab* **OR** Enbrel*

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Rinvoq is configured as a prior authorization for new starts only. Rinvoq will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**

Humira*, adalimumab-FKJP*, Hadlima*, Yusimry*, Enbrel*

*prior authorization required

**For treatment of psoriatic arthritis (PsA)**
An exception for coverage of Rinvoq may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of psoriatic arthritis **AND**
- Medical record documentation that Rinvoq is prescribed by a rheumatologist or dermatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of moderately to severely active psoriatic arthritis which must include documentation of either active psoriatic lesions or a documented history of psoriasis **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least 3 months of therapy with Enbrel* **OR** adalimumab* **AND**
- Medical record documentation that Rinvoq is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Rinvoq is configured as a prior authorization for new starts only. Rinvoq will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**
Enbrel*, Humira*, adalimumab-FKJP*, Hadlima*, Yusimry*

*prior authorization required

**For treatment of ankylosis spondylitis (AS)**
An exception for coverage of Rinvoq may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of ankylosing spondylitis **AND**
- Medical record documentation that Rinvoq is prescribed by a rheumatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least 3 months of therapy with Enbrel* **OR** adalimumab* **AND**
- Medical record documentation that Rinvoq is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Rinvoq is configured as a prior authorization for new starts only. Rinvoq will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**
Enbrel*, Humira*, adalimumab-FKJP*, Hadlima*, Yusimry*

*prior authorization required

**For treatment of atopic dermatitis (AD)**
An exception for coverage of Rinvoq may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of moderate to severe atopic dermatitis **AND**
- Medical record documentation that Rinvoq is prescribed by an allergist, dermatologist, or immunologist **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of one of the following:
    - Therapeutic failure on an adequate trial of at least one medium (or higher) potency topical corticosteroid **OR**
    - For members with an intolerance or contraindication to topical corticosteroids or for members in whom topical corticosteroids are inadvisable (use on sensitive areas, age between 2 and 15 years): Therapeutic failure on, intolerance to, or contraindication to a topical calcineurin inhibitor **AND**
- Medical record documentation of contraindication to, intolerance to, or therapeutic failure to one systemic therapy (e.g., Dupixent, Adbry) **AND**
- Medical record documentation of contraindication to, intolerance to, or therapeutic failure on an adequate trial of phototherapy (UVA/UVB treatment) **AND**
- Medical record documentation that Rinvoq will not be used in combination with another Janus kinase (JAK) inhibitor, biologic immunomodulator, or with other immunosuppressants including but not limited to azathioprine and cyclosporine

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Rinvoq is configured as a prior authorization for new starts only. Rinvoq will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**

Dupixent*
Calcineurin Inhibitors: tacrolimus ointment, pimecrolimus cream*
Low-potency topical corticosteroids: alclometasone dipropionate 0.5% cream and ointment (Aclovate); fluocinolone acetonide 0.01% soln. (Synalar); hydrocortisone 2.5% cream, ointment, and lotion (Hytone)
Medium-potency topical corticosteroids: betamethasone valerate 0.1% cream (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); fluticasone propionate 0.05% cream, ointment, and lotion (Cutivate); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)
High-potency topical corticosteroids: augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone valerate 0.1% ointment (Valisone); triamcinolone 0.5% cream (Kenalog); fluocinonide 0.05% cream, ointment and gel (Lidex)
Very high-potency topical corticosteroids: augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, and scalp lotion (Temovate) diflorasone diacetate 0.05% cream and ointment (ApexiCon/Psorcon)

*prior authorization required

**For treatment of ulcerative colitis (UC)**
An exception for coverage of Rinvoq may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of moderate to severe ulcerative colitis **AND**
- Medical record documentation that Rinvoq is prescribed by a gastroenterologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least 3 months of therapy with adalimumab* **AND**
- Medical record documentation that Rinvoq is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** 45 mg once daily for 8 weeks

- In PA Hub: Add PA, OQL, number of claims authorized 2, max quantity dispensed 28 with a duration of 8 weeks
    - QL FOR LETTER: Loading dose: 56 tablets per 180 days; Maintenance dose: 1 tablet per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Rinvoq is configured as a prior authorization for new starts only. Rinvoq will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**
Humira*, adalimumab-FKJP*, Hadlima*, Yusimry*

*prior authorization required

**For treatment of Crohn's disease**
An exception for coverage of Rinvoq may be made for members who meet the following criteria:

- Medical record documentation that Rinvoq is prescribed by a gastroenterologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of moderately to severely active Crohn's disease **AND**
- Medical record documentation that the medication is not being used in combination with a TNF blocker, other JAK inhibitor, biological therapy for Crohn's disease, or with potent immunosuppressants such as azathioprine and cyclosporine **AND**
- Medical record documentation of an intolerance to, contraindication to, or therapeutic failure on a minimum 3 month trial of adalimumab*

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** 45 mg once daily for 12 weeks

- In PA Hub: Add PA, OQL, number of claims authorized 3, max quantity dispensed 28 with a duration of 12 weeks
    - QL FOR LETTER: Loading dose: 84 tablets per 180 days; Maintenance dose: 1 tablet per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Rinvoq is configured as a prior authorization for new starts only. Rinvoq will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**
Enbrel*, Humira*, adalimumab-FKJP*, Hadlima*, Yusimry*

*prior authorization required

**For treatment of non-radiographic axial spondylarthritis (Nr-axSpA)**
An exception for coverage of Rinvoq may be made for members who meet the following criteria:

- Medical record documentation that Rinvoq is prescribed by a rheumatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of non-radiographic axial spondylarthritis **AND**
- Medical record documentation of at least one of the following:
  - C-reactive protein (CRP) level above the upper limit of normal (10 mg/dL) **OR**
  - Sacroiliitis on magnetic resonance imaging (MRI) **AND**
- Medical record documentation of an intolerance to, contraindication to, or therapeutic failure on one (1) preferred tumor necrosis factor (TNF) blocker **AND**
- Medical record documentation that Rinvoq is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Rinvoq is configured as a prior authorization for new starts only. Rinvoq will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

**FORMULARY ALTERNATIVES:**
Humira*, adalimumab-FKJP*, Hadlima*, Yusimry*, Enbrel*

*prior authorization required

If an exception is made, Rinvoq will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 606.0**

**SECTION: Commercial Drug**
**SUBJECT: Trikafta**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Trikafta for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

A formulary exception for coverage of Trikafta may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 2 years **AND**
- Medical record documentation of a diagnosis of cystic fibrosis **AND**
- Medical record documentation that the medication is prescribed by, or in consultation with, a pulmonologist or a physician who specializes in the treatment of cystic fibrosis **AND**
- Medical record documentation of one of the following, as detected by a Food and Drug Administration (FDA) cleared cystic fibrosis mutation test:
    - Medical record documentation that the patient has at least one F508del mutation in the cystic fibrosis transmembrane conductance regulator (CFTR) gene **OR**
    - Medical record documentation that the patient has a mutation in the cystic fibrosis transmembrane conductance regulator (CFTR) gene that is responsive based on in vitro data per product labeling

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
    - Tablets: 3 tablets per day, 28 day supply per fill
    - Oral Granules: 2 packets per day, 28 day supply per fill

**AUTHORIZATION DURATION**: Initial approval will be for four (4) months and subsequent approvals will be for twelve (12) months. Additional authorizations will require medical record documentation of improvement or stabilization in the signs and symptoms

of cystic fibrosis. The medication will no longer be covered if the member experiences worsening of disease.

**NOTE:** List of CFTR mutations that is responsive to Trikafta

| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Brukinsa for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Brukinsa may be made for members who meet the following criteria:

**Mantle Cell Lymphoma**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Brukinsa is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of a diagnosis of mantle cell lymphoma **AND**
- Medical record documentation of therapeutic failure on or intolerance to one prior therapy

**Waldenström's macroglobulinemia**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Brukinsa is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of a diagnosis of Waldenström's macroglobulinemia

**Marginal Zone Lymphoma (MZL)**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Brukinsa is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of a diagnosis of relapsed or refractory marginal zone lymphoma (MZL) **AND**
- Medical record documentation of therapeutic failure on or intolerance to one prior anti-CD20-based regimen

**Chronic Lymphocytic Leukemia (CLL) or Small Lymphocytic Lymphoma (SLL)**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Brukinsa is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of a diagnosis of chronic lymphocytic leukemia (CLL) or small lymphocytic lymphoma (SLL)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 4 capsules per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Each treatment period will be defined as 12 months. Subsequent approval after 12 months will require documentation of continued disease improvement or lack of disease progression.

If a formulary exception is approved, Brukinsa will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Mantle Cell Lymphoma: Imbruvica*, Revlimid*, Calquence*

Geisinger

**POLICY NUMBER: 609.0**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Enstilar and Wynzora**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Enstilar and Wynzora for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Enstilar or Wynzora may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 12 years if request is for Enstilar **OR** age greater than or equal to 18 years if request is for Wynzora **AND**
- Medical record documentation of a diagnosis of plaque psoriasis **AND**
- Medical record documentation of therapeutic failure, intolerance to, or contraindication to a combination of a topical vitamin D analog and a topical corticosteroid

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

If a formulary exception is approved, Enstilar or Wynzora will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

**Vitamin D Analogs:** calcipotriene 0.005% cream/ointment*, calcitriol 3 mcg/g ointment*
**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)
**Medium-potency topical corticosteroids:** betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and

solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)
**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)
**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam, spray (Temovate/Clobex/Olux) diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E), fluocinonide 0.1% cream (Vanos), halobetasol 0.05% cream and ointment (Ultravate)

*off-label for under 18 years of age

Geisinger

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 610.0**

**SECTION: Commercial Drug**
**SUBJECT: Vascepa**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Vascepa for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Vascepa may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of severe hypertriglyceridemia (triglycerides greater than or equal to 500 mg/dL) **AND**
- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to omega-3 acid ethyl esters (generic Lovaza)

**OR**

- Medical record documentation of established cardiovascular disease (documented history of coronary heart disease, cerebrovascular or carotid disease, or peripheral arterial disease) **OR** documentation of a diagnosis of diabetes mellitus and at least **TWO** cardiovascular additional risk factors* **AND**
- Medical record documentation of use in combination with, or an intolerance to, or contraindication to moderate- or high-intensity statin therapy **AND**
- Medical record documentation of a baseline (pre-initiation of Vascepa) triglyceride level greater than or equal to 150 mg/dL

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - Vascepa 0.5 grams: 8 capsules per day
  - Vascepa 1 gram: 4 capsules per day

***NOTE:** Cardiovascular Risk Factors

- Age (men ≥55; women ≥65 years of age);
- Cigarette smoker or stopped smoking within 3 months;
- Hypertension (BP ≥140 mmHg systolic OR ≥90 mmHg diastolic) or on antihypertensive medication;
- HDL-C ≤40 mg/dL for men or ≤50 mg/dL for women;
- High sensitivity C-Reactive Protein >3.00 mg/L (0.3 mg/dL);
- CrCL >30 and <60 mL/min;
- Retinopathy;
- Micro- or macroalbuminuria;
- ABI <0.9 without symptoms of intermittent claudication

If a formulary exception is approved Vascepa will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

atorvastatin, lovastatin, pravastatin, simvastatin, rosuvastatin, omega-3 acid ethyl esters

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Ayvakit**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Ayvakit for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Ayvakit may be made for members who meet the following criteria:

**Gastrointestinal Stromal Tumor (GIST)**

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Ayvakit is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of unresectable or metastatic gastrointestinal stromal tumor (GIST) **AND**
- Medical record documentation of a platelet-derived growth factor receptor alpha (PDGFRA) exon 18 mutation

**Advanced Systemic Mastocytosis (AdvSM)**

- Medical record documentation that Ayvakit is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a platelet count greater than or equal to 50 x $10^9$/L **AND**
- Medical record documentation of a diagnosis of aggressive systemic mastocytosis (ASM), systemic mastocytosis with an associated hematological neoplasm (SM-AHN), or mast cell leukemia (MCL)

**Indolent Systemic Mastocytosis (ISM)**

- Medical record documentation that Ayvakit is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a platelet count greater than or equal to 50 x $10^9$/L **AND**
- Medical record documentation of indolent systemic Mastocytosis (ISM) **AND**
- Medical record documentation of a dose consistent with Food and Drug Administration (FDA) approved labeling

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12 for GSIT and AdvSM, GPI-14 for ISM, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Ayvakit is configured as a prior authorization for new starts only. Ayvakit will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Ayvakit will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

GIST: imatinib*, Sprycel*, Stivarga*, sunitinib*

*prior authorization required

4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Wakix may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of one of the following:
  - Diagnosis of narcolepsy with cataplexy **OR**
  - Diagnosis of excessive daytime sleepiness associated with narcolepsy **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to modafinil or armodafinil **AND** methylphenidate immediate release or amphetamine/dextroamphetamine immediate release

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 tablets per day

**AUTHORIZATION DURATION:**

Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. For continued coverage, the following is required:

- Medical record documentation of reduction in symptoms of excessive daytime sleepiness **OR**
- Medical record documentation of reduction in frequency of cataplexy attacks

After the initial 12 month approval, subsequent approvals will be for a duration of 12 months. Reevaluation will be every 12 months requiring the following:

- Medical record documentation of continued or sustained reduction in symptoms of excessive daytime sleepiness **OR**

- Medical record documentation of continued or sustained reduction in frequency of cataplexy attacks

If a formulary exception is approved Wakix will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

armodafinil*, modafinil*, dextroamphetamine/amphetamine immediate release methylphenidate immediate release

*prior authorization required

D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Nourianz may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Nourianz is prescribed by or in consultation with a neurologist **AND**
- Medical record documentation of Parkinson's disease with "OFF" episodes or motor fluctuations **AND**
- Medical record documentation that Nourianz will be used as adjunctive treatment to carbidopa/levodopa **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) formulary alternatives

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If a formulary exception is approved, Nourianz will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**SUBJECT: Tolcapone**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for tolcapone for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of tolcapone may be made for members who meet the following criteria:

- Electronic step therapy of on-line prescription drug claims history showing 15 days use of Ongentys **AND** entacapone or carbidopa/levodopa/entacapone within the previous 180 days. If this electronic step is met, the claim with automatically adjudicate **OR**
- If the electronic step therapy criteria are not met, prescribing provider should request an exception for coverage indicating therapeutic failure on, intolerance to, or contraindication to Ongentys **AND** entacapone or carbidopa/levodopa/entacapone

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, generic only

If a formulary exception is approved, tolcapone will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

carbidopa/levodopa/entacapone, entacapone, pramipexole, pramipexole extended release*, rasagiline, ropinirole, selegiline, apomorphine*, Inbrija, Ongentys*

*prior authorization or step therapy required

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Consensi may be made for members who meet the following criteria:

- Medical record documentation of therapeutic failure or intolerance to an adequate trial of three (3) combinations of formulary NSAID **AND** calcium-channel blocker therapies, one of which must be amlodipine and celecoxib used in combination

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If a formulary exception is approved, Consensi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Koselugo for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Koselugo may be made for members who meet the following criteria:

- Medical record documentation that Koselugo is prescribed by or in consultation with at least one of the following:
  - Pediatric oncologist
  - Pediatric neurologist
  - Pediatric geneticist **AND**
- Medical record documentation of age greater than or equal to 2 years **AND**
- Medical record documentation of neurofibromatosis type 1 as defined by a positive *NF1* mutation **OR** two of the following:
  - Diagnosis of schizophrenia **OR**
  - Six or more brown oval/circular spots on the skin called café-au-lait macules (> 5 mm diameter in prepubertal individuals and > 15 mm in post-pubertal individuals)
  - Freckling in axillary or inguinal regions
  - Two or more neurofibromas of any type, or one plexiform neurofibroma
  - A tumor of the nerve to the eye called optic glioma
  - Two or more Lisch nodules (iris hamartomas)
  - A distinctive osseous lesion (sphenoid dysplasia or tibial pseudarthrosis)
  - A first degree relative with NF1

**AND**

- Medical record documentation of symptomatic, inoperable* plexiform neurofibromas (PN)

***NOTE:** In clinical trials, inoperable PN was defined as a PN that could not be completely removed without risk for substantial morbidity due to encasement of, or close proximity to, vital structures, invasiveness, or high vascularity of the PN.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 10 mg capsules: 8 capsules per day, 30 day supply per fill
  - 25 mg capsules: 4 capsules per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Koselugo is configured as a prior authorization for new starts only. Koselugo will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Koselugo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Oxbryta may be made for members who meet the following criteria:

- Medical record documentation that Oxbryta is prescribed by or in consultation with a hematologist **AND**
- Medical record documentation of age greater than or equal to 4 years **AND**
- Medical record documentation of a diagnosis of sickle cell disease **AND**
- Medical record documentation of baseline hemoglobin **AND**
- Medical record documentation of one of the following:
    - For members 5 years of age and older: medical record documentation of therapeutic failure on, intolerance to, or contraindication to a minimum three (3) month trial of generic hydroxyurea **AND** Endari
    - For members less than 5 years of age: medical record documentation of therapeutic failure on, intolerance to, or contraindication to a minimum three (3) month trial of generic hydroxyurea **AND**
- If the requested quantity exceeds three tablets per day of Oxbryta 500 mg or five tablets per day of Oxbryta 300 mg: Medical record documentation that the patient is using Oxbryta in combination with a strong or moderate CYP3A4 inducer, including but not limited to apalutamide, bosentan, carbamazepine, efavirenz, etravirine, enzalutamide, mitotane, phenobarbital, phenytoin, primidone, rifampin, St. John's Wort

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 3 tablets per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Each treatment period will be defined as 12 months. Re-review will occur every 12 months. The following criteria is recommended for reauthorization:

- Medical record documentation of an increase in hemoglobin from baseline or an improvement in complications of sickle cell disease (e.g., decrease in vaso-occlusive crisis related emergencies) **AND**
- If the requested quantity exceeds three tablets per day of Oxbryta 500 mg or five tablets per day of Oxbryta 300 mg: Medical record documentation that the patient is using Oxbryta in combination with a strong or moderate CYP3A4 inducer, including but not limited to apalutamide, bosentan, carbamazepine, efavirenz, etravirine, enzalutamide, mitotane, phenobarbital, phenytoin, primidone, rifampin, St. John's Wort

If a formulary exception is approved, Oxbryta will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
hydroxyurea, Endari*, Siklos*

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Oxervate for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Oxervate may be made for members who meet the following criteria:

- Medical record documentation that Oxervate is prescribed by an ophthalmologist **AND**
- Medical record documentation of age greater than or equal to 2 years **AND**
- Medical record documentation of a diagnosis of neurotrophic keratitis (MK) as confirmed by a decrease or loss in corneal sensitivity **AND** one of the following:
    - Superficial keratopathy
    - Persistent epithelial defects
    - Corneal ulcers

**AND**

- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least one conventional non-surgical treatment for neurotrophic keratitis (NK) (e.g., preservative-free artificial tears, gels/ointments; discontinuation of preserved topical drops and medications that can decrease corneal sensitivity; therapeutic contact lenses) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to cyclosporine (generic Restasis) **OR** Xiidra

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 56 vials per 28 days

**AUTHORIZATION DURATION:** 8 weeks

For requests beyond the FDA-approved treatment duration (8 weeks), documentation of medical or scientific literature to support the use of this agent beyond the FDA-approved treatment duration is required.

If a formulary exception is approved, Oxervate will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

cyclosporine ophthalmic suspension (generic Restasis), Xiidra

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

Geisinger

**POLICY NUMBER: 626.0**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Ubrelvy**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Ubrelvy for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Ubrelvy may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Ubrelvy will be used for the acute treatment of migraine with or without aura **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to two (2) formulary triptans **AND**
- Medical record documentation that Ubrelvy will not be used concomitantly with another calcitonin gene-related peptide (CGRP) receptor antagonist indicated for the acute treatment of migraine (e.g., Nurtec ODT)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 16 tablets per 30 days

If a formulary exception is approved, Ubrelvy will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Pemazyre may be made for members who meet the following criteria:

**Cholangiocarcinoma**

- Medical record documentation that Pemazyre is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of unresectable locally advanced or metastatic cholangiocarcinoma **AND**
- Medical record documentation of a fibroblast growth factor receptor 2 (FGFR2) fusions or other rearrangement as verified by a Food and Drug Administration (FDA) approved test **AND**
- Medical record documentation of one prior line of therapy

**NOTE:** The FDA approved test for cholangiocarcinoma is the FoundationOne CDx.

**Myeloid/Lymphoid Neoplasms**

- Medical record documentation that Pemazyre is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of relapsed or refractory myeloid/lymphoid neoplasms (MLNS) **AND**

- Medical record documentation of a fibroblast growth factor receptor 1 (FGFR1) rearrangement

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

**RE-AUTHORIZATION CRITERIA:** Pemazyre is configured as a prior authorization for new starts only. Pemazyre will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Pemazyre will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Geisinger

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 630.0**

**SECTION: Commercial Drug**
**SUBJECT: Palforzia**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Palforzia for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Palforzia may be made for members who meet the following criteria:

- Medical record documentation that Palforzia is prescribed by an allergist, immunologist, or a physician qualified to prescribe allergy immunotherapy **AND**
- If the request is for initial dose escalation: Medical record documentation that member is greater than or equal to 4 years of age to less than 18 years of age **OR**
- If the request is for up-dosing or maintenance dose: Medical record documentation that member is greater than or equal to 4 years of age

**AND**

- Medical record documentation of confirmed diagnosis of peanut-allergy with history of allergic reaction from peanuts **AND** one of the following:
  - positive skin test **OR**
  - *in vitro* testing for peanut-specific IgE antibodies

**AND**

- Medical record documentation that Palforzia will be used in conjunction with peanut-avoidant diet **AND**
- Medical record documentation that the member has (or will receive) a prescription for an epinephrine auto-injector **AND**
- Medical record documentation that the member does not have severe, unstable, or uncontrolled asthma **AND**
- Medical record documentation that the member has no experienced severe or life-threatening anaphylaxis within 60 days of Palforzia initiation

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:

| Packaging Presentation | Quantity Limits |
|---|---|
| **Initial Dose Escalation** | |
| 0.5 mg to 6 mg capsules | 13 capsules / 1 day |
| **Up-Dosing** | |
| 3 mg (Level 1) | 3 capsules / day, 30 day supply per fill |
| 6 mg (Level 2) | 6 capsules / day, 30 day supply per fill |
| 12 mg (Level 3) | 3 capsules / day, 30 day supply per fill |
| 20 mg (Level 4) | 1 capsule / day, 30 day supply per fill |
| 40 mg (Level 5) | 2 capsules / day, 30 day supply per fill |
| 80 mg (Level 6) | 4 capsules / day, 30 day supply per fill |
| 120 mg (Level 7) | 2 capsules / day, 30 day supply per fill |
| 160 mg (Level 8) | 4 capsules / day, 30 day supply per fill |
| 200 mg (Level 9) | 2 capsules / day, 30 day supply per fill |
| 240 mg (Level 10) | 4 capsules / day, 30 day supply per fill |
| 300 mg (Level 11) | 1 packet / day, 30 day supply per fill |
| Maintenance | |
| 300 mg (Level 11) | 1 packet / day, 30 day supply per fill |

**AUTHORIZATION DURATION:** Initial authorizations for Palforzia will be approved for a period of 12 months. Subsequent authorizations will be for a period of 12 months and will require the following criteria:

- Claims history and attestation from the provider showing the patient is adherent to daily dosing of Palforzia **AND**.
- Medical record documentation that patient is not experiencing unacceptable toxicity **AND**
- Medical record documentation that patient does not have recurrent asthma exacerbations or persistent loss of asthma control **AND**
- Medical record documentation that patient does not have suspected eosinophilic esophagitis

If a formulary exception is approved, Palforzia will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 631.0**

**SECTION: Commercial Drug**
**SUBJECT: Qinlock**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Qinlock for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Qinlock may be made for members who meet the following criteria:

- Medical record documentation that Qinlock is prescribed by or in consultation with a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of advanced gastrointestinal stromal tumor (GIST) **AND**
- Medical record documentation of prior treatment with three (3) or more kinase inhibitors, including imatinib

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 90 tablets per 30 days

**RE-AUTHORIZATION CRITERIA:** Qinlock is configured as a prior authorization for new starts only. Qinlock will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Qinlock will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

imatinib*, sunitinib*, Stivarga*, Ayvakit*

*prior authorization required

- Medical record documentation that Tukysa is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of advanced unresectable or metastatic HER2-positive breast cancer, including patients with brain metastases **AND**
- Medical record documentation that Tukysa will be given in combination with trastuzumab and capecitabine **AND**
- Medical record documentation of prior treatment with at least one anti-HER2 based regimen in the metastatic setting

**RAS Wild Type, HER2-Positive Metastatic Colorectal Cancer**

- Medical record documentation that prescription is written by a hematologist/oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of RAS wild-type HER2-positive unresectable or metastatic colorectal cancer **AND**
- Medical record documentation that Tukysa will be given in combination with trastuzumab **AND**
- Medical record documentation of prior treatment with fluoropyrimidine-, oxaliplatin-, and irinotecan-based chemotherapy

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 4 tablets per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Tukysa is configured as a prior authorization for new starts only. Tukysa will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Tukysa will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Dayvigo**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Dayvigo for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Dayvigo may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of insomnia **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) formulary alternatives

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If a formulary exception is approved, Dayvigo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

zolpidem immediate release, zolpidem extended release, eszopiclone, zaleplon, quazepam, estazolam, flurazepam, triazolam, temazepam, doxepin (generic Silenor), zolpidem sublingual*, ramelteon*

*prior authorization or step therapy required

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Nexletol may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of:
  - Clinical atherosclerotic cardiovascular disease (ASCVD), including acute coronary syndromes (a history of myocardial infarction or unstable angina), coronary or other arterial revascularization, stroke, transient ischemic attack, or peripheral arterial disease presumed to be of atherosclerotic origin **OR**
  - Heterozygous familial hypercholesterolemia (HeFH) **AND** either:
    - Genetic testing to confirm a mutation in the low-density lipoprotein (LDL) receptor, PCSK9, or ApoB gene **OR**
    - Medical record documentation of definite heterozygous familial hypercholesterolemia (HeFH) (score greater than 8) on the diagnostic criteria scoring system (Table 1) as defined by the Dutch Lipid Clinic Network diagnostic criteria **AND**
- Medical record documentation that Nexletol is prescribed by a cardiologist or lipidologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a baseline low-density lipoprotein (LDL) drawn within 3 months of the start of Nexletol therapy with one of the following:
  - Low-density lipoprotein (LDL) greater than 100 if the patient has a diagnosis of heterozygous familial hypercholesterolemia (HeFH) and is using Nexletol for primary prevention **OR**
  - Low-density lipoprotein (LDL) greater than 70 if the patient has a diagnosis of atherosclerotic cardiovascular disease (ASCVD) or either heterozygous familial hypercholesterolemia (HeFH) and is using Nexletol for secondary prevention **AND**

- Medical record documentation that patient is currently on and is adherent to (taking at least 90% of prescribed doses over the past three months) maximally tolerated dose of atorvastatin or rosuvastatin or has documented therapeutic failure on, intolerance to, or contraindication to atorvastatin and rosuvastatin **AND**
- Medical record documentation that non-pharmacologic therapies are in place including cholesterol lowering diet, exercise, and weight management strategies **AND**
- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to ezetimibe

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If a formulary exception is approved, Nexletol will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

atorvastatin, rosuvastatin, ezetimibe, cholestyramine, colestipol, fenofibrate, fluvastatin, gemfibrozil, lovastatin, pravastatin, simvastatin

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Nexlizet may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of:
  - Clinical atherosclerotic cardiovascular disease (ASCVD), including acute coronary syndromes (a history of myocardial infarction or unstable angina), coronary or other arterial revascularization, stroke, transient ischemic attack, or peripheral arterial disease presumed to be of atherosclerotic origin **OR**
  - Heterozygous familial hypercholesterolemia (HeFH) **AND** either:
    - Genetic testing to confirm a mutation in the low-density lipoprotein (LDL) receptor, PCSK9, or ApoB gene **OR**
    - Medical record documentation of definite heterozygous familial hypercholesterolemia (HeFH) (score greater than 8) on the diagnostic criteria scoring system (Table 1) as defined by the Dutch Lipid Clinic Network diagnostic criteria **AND**
- Medical record documentation that Nexlizet is prescribed by a cardiologist or lipidologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a baseline low-density lipoprotein (LDL) drawn within 3 months of the start of Nexlizet therapy with one of the following:
  - Low-density lipoprotein (LDL) greater than 100 if the patient has a diagnosis of heterozygous familial hypercholesterolemia (HeFH) and is using Nexlizet for primary prevention **OR**
  - Low-density lipoprotein (LDL) greater than 70 if the patient has a diagnosis of atherosclerotic cardiovascular disease (ASCVD) or either heterozygous familial hypercholesterolemia (HeFH) and is using Nexlizet for secondary prevention **AND**

- Medical record documentation that patient is currently on and is adherent to (taking at least 90% of prescribed doses over the past three months) maximally tolerated dose of atorvastatin or rosuvastatin or has documented therapeutic failure on, intolerance to, or contraindication to atorvastatin and rosuvastatin **AND**
- Medical record documentation that non-pharmacologic therapies are in place including cholesterol lowering diet, exercise, and weight management strategies **AND**
- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to ezetimibe alone

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If a formulary exception is approved, Nexlizet will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

atorvastatin, rosuvastatin, ezetimibe, cholestyramine, colestipol, fenofibrate, fluvastatin, gemfibrozil, lovastatin, pravastatin, simvastatin

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Santyl for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;

The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Dojolvi for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Dojolvi may be made for members who meet the following criteria:

- Medical record documentation that Dojolvi is prescribed by or in consultation with a metabolic specialist or a physician who specialized in the management of long-chain fatty acid oxidation disorders **AND**
- Medical record documentation of a diagnosis of long-chain fatty acid oxidation disorder (LC-FAOD) confirmed by at least two of the following:
    - Disease specific elevation of acylcarnitines on a newborn blood spot or in plasma
    - Low enzyme activity in cultured fibroblasts
    - One or more known pathogenic mutations in a gene associated with a long-chain fatty acid oxidation disorder (e.g. *CPT2, ACADVL, HADHA,* or *HADHB)* **AND**
- Medical record documentation that the member is currently managed on a treatment regimen which may include a low-fat, high carbohydrate diet; avoidance or fasting; and/or medium-chain triglyceride (MCT) oil

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of continued disease improvement* or lack of disease progression. The medication will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

***NOTE:** Signs of improvement for a patient with LC-FAOD can include any of the following, but are not limited to: gross motor development/motor function for infants and young children, exercise tolerance and endurance for older children and adults, and a decrease in the frequency of major medical episodes of hypoglycemia, rhabdomyolysis, and exacerbation of cardiomyopathy.

If a formulary exception is approved, Dojolvi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Onureg may be made for members who meet the following criteria:

- Medical record documentation that Onureg is prescribed by an oncologist or hematologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of acute myeloid leukemia **AND**
- Medical record documentation the member achieved first complete remission (CR) or complete remission with incomplete blood count recovery (Cri) following intensive induction chemotherapy **AND**
- Medical record documentation that member is not able to complete intensive curative therapy

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 14 tablets per 28 days

**RE-AUTHORIZATION CRITERIA:** Onureg is configured as a prior authorization for new starts only. Onureg will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Onureg will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

**POLICY NUMBER: 647.0**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Evrysdi**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Evrysdi for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Evrysdi may be made for members who meet the following criteria:

- Medical record documentation that Evrysdi is prescribed by a neurologist or pediatric neurologist **AND**
- Medical record documentation of one of the following:
    - A confirmed diagnosis of 5q Spinal Muscular Atrophy (SMA) by genetic testing with results showing one of the following:
        - Homozygous exon 7 gene deletion **OR**
        - Homozygous exon 7 conversion mutation **OR**
        - Compound heterozygous exon 7 mutation **OR**
    - Medical record documentation of diagnostic testing confirming zero (0) SMN1 copies

  **AND**
- Medical record documentation that the patient has not received prior treatment with gene therapy (e.g., Zolgensma)* **AND**
- Medical record documentation that patient will not receive routine concomitant SMN modifying therapy (e.g., Spinraza)

***NOTE:** Requests for members that show decline in clinical status following treatment with Zolgensma will be reviewed on a case by case basis.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 240 mL per 36 days

**AUTHORIZATION DURATION:** Evrysdi will be approved for an initial authorization duration of 12 months. Subsequent authorizations will be determined medically necessary and should be approved for an authorization duration of 12 months when the following criteria are met:

- Medical record documentation that member is compliant with the prescribed risdiplam regimen **AND**
- Medical record documentation that the patient has not received prior treatment with gene therapy (e.g., Zolgensma)* **AND**
- Medical record documentation that patient will not receive routine concomitant SMN modifying therapy (e.g., Spinraza)

***NOTE:** Requests for members that show decline in clinical status following treatment with Zolgensma will be reviewed on a case by case basis.

If a formulary exception is approved, Evrysdi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Ongentys may be made for members who meet the following criteria:

- Electronic step therapy of on-line prescription drug claims history showing 15 days use of entacapone, carbidopa/levodopa/entacapone, or tolcapone within the previous 180 days. If this electronic step is met, the claim with automatically adjudicate **OR**
- If the electronic step therapy criteria are not met, prescribing provider should request an exception for coverage indicating therapeutic failure on, intolerance to, or contraindication to entacapone, carbidopa/levodopa/entacapone, or tolcapone

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If a formulary exception is approved, Ongentys will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

carbidopa/levodopa/entacapone, entacapone, pramipexole, pramipexole extended release*, rasagiline, ropinirole, selegiline, tolcapone*, Apokyn*, Inbrija, Kynmobi

*prior authorization or step therapy required

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Lampit for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;

D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Tepmetko may be made for members who meet the following criteria:

- Medical record documentation that Tepmetko is prescribed by or in consultation with an oncologist or hematologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of metastatic non-small cell lung cancer (NSCLC) harboring mesenchymal-epithelial transition (MET) exon 14 skipping alterations

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 tablets per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Tepmetko is configured as a prior authorization for new starts only. Tepmetko will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Tepmetko will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Tabrecta*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 660.0**

**SECTION: Commercial Drug**
**SUBJECT: Orladeyo**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Orladeyo for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Orladeyo may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation that Orladeyo is prescribed by an allergist, immunologist, hematologist, or dermatologist **AND**
- Medical record documentation of a diagnosis of hereditary angioedema (HAE) established and supported by documentation of:
    - Recurrent, self-limiting, non-inflammatory subcutaneous angioedema without urticaria which lasts more than 12 hours **OR**
    - Laryngeal edema **OR**
    - Recurrent, self-remitting abdominal pain which lasts more than 6 hours, without clear organic etiology **AND**
- Medical record documentation of specific abnormalities in complement proteins, in the setting of a suggestive clinical history or episodic angioedema without urticaria; supported by:
    - Medical record documentation of two (2) or more sets of complement studies, separated by one month or more, showing consistent results of:
        - Low C4 levels **AND**
        - Less than 50% of the lower limit of normal C1-INH antigenic protein levels **OR**
        - Less than 50% of the lower limit of normal C1-INH functions levels **AND**
- Medical record documentation of history of more than one (1) severe event per month **OR** a history of laryngeal attacks **AND**
- Medical record documentation that Orladeyo is being used as prophylactic therapy for hereditary angioedema (HAE) attacks **AND**

- Medical record documentation that Orladeyo is not being used in combination with another prophylactic human C1 esterase inhibitor (Cinryze or Haegarda) or lanadelumab (Takhzyro) therapy for hereditary angioedema

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 capsule per day, 28 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will required medical record documentation of continued disease improvement or lack of disease progression. Orladeyo will no longer be covered if the member experiences unacceptable toxicity or worsening of disease.

If a formulary exception is approved, Orladeyo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Haegarda*, Takhzyro*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Xolair for self-administration for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Xolair for self-administration may be made for members who meet the following criteria:

**Asthma**

- Medical record documentation that Xolair is prescribed by an allergist or pulmonologist **AND**
- Medical record documentation of age greater than or equal to 6 years **AND**
- Medical record documentation that member is compliant with current therapeutic regimen **AND**
- Medical record documentation of diagnosis of moderate to severe persistent asthma* with evidence of reversible airway disease [i.e., greater than 12% improvement in forced expiratory volume in one second (FEV1) with at least 200 ml increase or at least a 20% or greater improvement in peak expiratory flow (PEF) after administration of albuterol] **AND**
- Medical record documentation of inadequate control or intolerance, despite a 3 month trial of: medium –high dose inhaled corticosteroids or systemic corticosteroids **AND** long-acting beta agonists or leukotriene receptor antagonists **AND**
- Medical record documentation of the following:
    - For members age 12 and older, an IgE level of greater than 30 IU/ml and less than 700 IU/ml **OR**
    - For members age 6 through 11, an IgE level of greater than 30 IU/ml and less than 1300 IU/ml **AND**
- Medical record documentation of evidence of a specific allergic reactivity to a perennial aeroallergen by positive skin or blood test for a specific IgE **AND**
- Medical record documentation that known environmental triggers within the member's control have been eliminated **AND**

- Medical record documentation that Xolair will not be used in combination with another biologic medication indicated for asthma treatment (e.g., Dupixent, Fasenra, Nucala, Cinqair, or Tezspire)

***NOTES**

Moderate persistent asthma is defined by the National Heart, Lung and Blood institute (NHLBI) as:

1. Daily symptoms
2. Daily use of inhaled short-acting beta agonist
3. Exacerbations affect activity
4. Exacerbations at least twice a week, which may last days
5. Nighttime symptoms more frequently than one time per week
6. Lung function of FEV1 greater than 60% but less than 80%

Severe persistent asthma is defined by the NHLBI as:

1. Continual symptoms
2. Limited physical activity
3. Frequent exacerbations
4. Frequent nighttime symptoms
5. Lung function of FEV1 less than or equal to 60% predicted

**The 12% improvement target value is calculated using the following methodology: The target value = baseline FEV1 x 1.12 The actual clinical calculation is: post-treatment FEV1 – baseline FEV1 = % improvement baseline FEV1

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 75 mg/0.5mL prefilled syringe: 5 mL per 28 days
  - 150 mg/1mL prefilled syringe: 4 mL per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 12 months. Reauthorization will require documentation of improvement in the signs and symptoms of disease and will be for a duration of 12 months.

**Chronic Idiopathic Urticaria:**

- Medical record documentation that Xolair is prescribed by an allergist, immunologist, or dermatologist **AND**
- Medical record documentation of age greater than or equal to 12 years of age **AND**
- Medical record documentation of a diagnosis of moderate-to-severe chronic idiopathic urticaria **AND**
- Medical record documentation of at least 6 week history of symptoms (e.g., hives associated with itching, angioedema) **AND**
- Medical record documentation of a therapeutic failure on Xolair 150 mg dose, when Xolair 300 mg dose is requested **AND**
- Medical record documentation of contraindication to, therapeutic failure on, or intolerance to a four week trial of ALL of the following treatment alternatives:
    - At least two different high dose antihistamines
    - Maximum dose antihistamine(s) used in combination with a leukotriene receptor antagonist (e.g., montelukast)
    - High dose antihistamine used in combination with H2 receptor antagonist (e.g., ranitidine
    - Dose advancement of potent antihistamine (e.g., hydroxyzine or doxepin)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *QL must be entered within the authorization.*

- 150 mg every 4 weeks
    1. In PA Hub: Add PA, OQL, and max quantity dispensed 1.
        - QL FOR LETTER: 1 mL per 28 days

- 300 mg every 4 weeks
    1. In PA Hub: Add PA, OQL, and max quantity dispensed 2.
        - QL FOR LETTER: 2 mL per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 12 months. Reauthorization will require documentation of improvement in the signs and symptoms of disease and will be for a duration of 12 months.

**Nasal Polyps**

- Medical record documentation that Xolair is prescribed by or in consultation with an allergist, pulmonologist, immunologist or otolaryngologist (ENT provider) **AND**
- Medical record documentation of age greater than or equal to 18 years A**ND**
- Medical record documentation of a diagnosis of nasal polyps **AND**
- Medical record documentation that Xolair will be used as add-on maintenance treatment **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) intranasal corticosteroids

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *QL must be entered within the authorization.*

1. In PA Hub: Add PA, OQL, and max quantity dispensed 8.
    - QL FOR LETTER: 8 mL per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 12 months. Reauthorization will require documentation of improvement in the signs and symptoms of disease and will be for a duration of 12 months.

If a formulary exception is approved, Xolair for self-administration will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Asthma: dexamethasone, methylprednisolone, prednisone, fluticasone/salmeterol, Breo Ellipta, Dulera, Serevent Diskus, Arnuity Ellipta, Asmanex, fluticasone HFA, Pulmicort Flexhaler, QVAR RediHaler, montelukast

Chronic Idiopathic Urticaria: hydroxyzine, doxepin, montelukast, ranitidine, cimetidine, famotidine

Nasal Polyps: fluticasone propionate, triamcinolone acetonide, mometasone furoate, Beconase AQ*, Qnasl*, Omnaris*, Zetonna*

- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Imcivree may be made for members who meet the following criteria:

**<u>Obesity due to POMC, PCSK1, or LEPR Deficiency</u>**

- Medical record documentation of age greater than or equal to 6 years **AND**
- Medical record documentation of one of the following:
    - For patients 18 years and older: Medical record documentation of body mass index (BMI) of greater than or equal to 30 $kg/m^2$ **OR**
    - For patients 6 years to less than 18 years: Medical record documentation of weight greater than or equal to 95th percentile using growth chart assessments

**AND**

- Medical record documentation of a proopiomelanocortin (POMC), proprotein convertase subtilisin/kexin type 1 (PCSK1), or leptin receptor (LEPR) deficiency **AND**
- Medical record confirmation of genetic testing demonstrating variants in POMC, PCSK1, or LEPR genes that are interpreted as pathogenic, likely pathogenic, or of uncertain significance (VUS)*

**<u>Obesity due to Bardet-Biedl Syndrome</u>**

- Medical record documentation of age greater than or equal to 6 years **AND**
- Medical record documentation of obesity due to Bardet-Biedl syndrome (BBS)* **AND**
- Medical record documentation of one of the following:
    - For patients 16 years and older: Medical record documentation of body mass index (BMI) of greater than or equal to 30$kg/m^2$

- For patients 6 years to less than 16 years: Medical record documentation of weight greater than or equal to 97th percentile using growth chart assessments

***NOTE:** Imcivree is not indicated for treatment of:

- Obesity due to suspected POMC-, PCSK1-, or LEPR-deficiency with POMC, PCSK1, or LEPR variants classified as benign or likely benign
- Other types of obesity not related to POMC, PCSK1, LEPR deficiency, or BBS, including obesity associated with other genetic syndromes and general (polygenic) obesity

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 0.3 mL per day

If a formulary exception is approved, Imcivree will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**SECTION: Commercial Drug**
**SUBJECT: Klisyri**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Klisyri for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Klisyri may be made for members who meet the following criteria:

- Medical record documentation that Klisyri is prescribed by a dermatologist **AND**
- Medical record documentation of actinic keratosis of the face or scalp **AND**
- Medical record documentation of greater than or equal to 4 lesions within a contiguous 25 $cm^2$ area **AND**
- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to topical fluorouracil **AND** imiquimod

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 package (5 packets) per fill

If a formulary exception is approved, Klisyri will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

fluorouracil cream/solution, imiquimod cream

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Asmanex and Qvar for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Asmanex or Qvar may be made for members who meet the following criteria:

- Electronic step therapy of on-line prescription drug claims history showing 15 days use of Arnuity Ellipta or fluticasone diskus/HFA **AND** Pulmicort Flexhaler within the previous 180 days. If this electronic step is met, the claim with automatically adjudicate **OR**
- If the electronic step therapy criteria are not met, prescribing provider should request an exception for coverage indicating therapeutic failure on, intolerance to, or contraindication to Arnuity Ellipta or fluticasone diskus/HFA **AND** Pulmicort Flexhaler

**MEDISPAN AUTHORIZATION LEVEL:**

- Asmanex – GPI-10
- Qvar – GPI-12

If a formulary exception is approved, Asmanex or Qvar will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Arnuity Ellipta, fluticasone diskus, fluticasone HFA, Pulmicort Flexhaler

**PROCEDURE:**

An exception for coverage of Lupkynis may be made for members who meet the following criteria:

- Medical record documentation that Lupkynis is prescribed by or in consultation with a rheumatologist or nephrologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of active lupus nephritis, Class III, IV, V alone or in combination, confirmed by a kidney biopsy **AND**
- Medical record documentation that Lupkynis will be prescribed in combination with a background immunosuppressive therapy regimen (e.g. mycophenolate mofetil (MMF) and corticosteroids) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Benlysta

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for 12 months. Re-authorization will require the following:

- Medical record documentation of a positive clinical response to Lupkynis (e.g. improvement/stabilization in UPCR, eGFR, renal-related events) **AND**
- Medical record documentation that Lupkynis will be prescribed in combination with a background immunosuppressive therapy regimen (e.g. mycophenolate mofetil (MMF) and corticosteroids)

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 6 capsules per day, 30 day supply per fill

If a formulary exception is approved, Lupkynis will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 675.0**

**SECTION: Commercial Drug**
**SUBJECT: Qelbree**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Qelbree for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Qelbree may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of attention deficit disorder (ADD) or attention deficit hyperactivity disorder (ADHD) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to atomoxetine **OR** documentation that member has difficulty swallowing **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to amphetamine-dextroamphetamine ER **AND** methylphenidate ER unless precluded by a valid pre-existing medical condition (e.g., personal or family history of substance use disorder, substance misuse, etc.) **AND**
- Medical record documentation of a prescribed dose that is consistent with Food and Drug Administration (FDA)-approved package labeling, nationally recognized compendia, or peer-reviewed medical literature [max daily dose is 600 mg for ages 18 to 65; max daily dose is 400 mg for ages 6-17]

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - Qelbree 100mg: 1 capsule per day
  - Qelbree 150 mg: 2 capsules per day
  - Qelbree 200 mg: 3 capsules per day

If a formulary exception is approved, Qelbree will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

atomoxetine, dextroamphetamine, dextroamphetamine/amphetamine combination, dextroamphetamine/amphetamine SR combination, methylphenidate, methylphenidate sustained-release, methylphenidate extended-release, Metadate CD

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

Geisinger

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 676.0**

**SECTION: Commercial Drug**
**SUBJECT: Ezetimibe/Rosuvastatin**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for ezetimibe/rosuvastatin for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 469.0 Statin Quantity Limit Exceptions
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of ezetimibe/rosuvastatin may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of primary non-familial hyperlipidemia or homozygous familial hypercholesterolemia **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of therapeutic failure on or intolerance to rosuvastatin **AND** ezetimibe used in combination

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, generic only

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If a formulary exception is approved, ezetimibe/rosuvastatin will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

rosuvastatin, ezetimibe, atorvastatin, fluvastatin, lovastatin, pravastatin, simvastatin

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Zeposia may be made for members who meet the following criteria:

**Multiple Sclerosis**

Note: *Prior authorization is not required for diagnosis code G35. In the event a requestor would like a medical necessity review completed the following criteria would apply:*

- Medical record documentation of a diagnosis of Multiple Sclerosis

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 7 Day Starter Pack: 7 capsules per 180 days
  - Starter Kit (7 Day Starter Pack and 0.92 mg 30 count bottle): 37 capsules per 180 days
  - 0.92 mg capsules: 1 capsule per day

**AUTHORIZATION DURATION:** Approval will be entered as an open-ended authorization.

**Ulcerative Colitis**

- Medical record documentation that Zeposia is prescribed by a gastroenterologist **AND**
- Medical record documentation of a diagnosis of moderate to severe ulcerative colitis **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to two (2) preferred formulary biologics for the treatment of ulcerative colitis **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Entyvio **AND** infliximab **AND**
- Medical record documentation that Zeposia is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 7 Day Starter Pack: 7 capsules per 180 days
  - Starter Kit (7 Day Starter Pack and 0.92 mg 30 count bottle): 37 capsules per 180 days
  - 0.92 mg capsules: 1 capsule per day

**AUTHORIZATION DURATION:** Approval will be given for an initial duration of six (6) months. For continuation of coverage, medical record documentation of clinical improvement or lack of progression in the signs and symptoms of ulcerative colitis at six (6) months of Zeposia therapy is required.

After the initial six (6) month approval, subsequent approvals for coverage will be for a duration of one (1) year requiring medical record documentation of continued or sustained improvement in the signs and symptoms of ulcerative colitis while on Zeposia therapy.

If a formulary exception is approved, Zeposia will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: InPen**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for InPen for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of InPen may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of diabetes mellitus **AND**
- Medical record documentation that InPen is prescribed by or in consultation with an endocrinologist **AND**
- Medical record documentation of age greater than or equal to 7 years **OR** age less than 7 years and documentation that InPen will be utilized with adult supervision **AND**
- Medical record documentation that member has access to a device with the ability to install and use the InPen app (e.g., smartphone, tablet, etc. with iOS 10 or later or Android 6 or later) **AND**
- Medical record documentation that member has utilized multiple daily injections of insulin (i.e., at least 3 injections per day), with frequent self-adjustments of insulin dose for at least 6 months **AND**
- Medical record documentation that member has suboptimal blood sugar control despite appropriate management as demonstrated by at least one of the following:
    - Glycosylated hemoglobin level (HbA1c) greater than 7.0%
    - History of recurring hypoglycemia
    - Wide fluctuations in blood glucose before mealtime
    - History of severe glycemic excursions

**MEDISPAN APPROVAL LEVEL:** NDC-11

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 pen per 365 days

If a formulary exception is approved, InPen will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 682.0**

**SECTION: Commercial Drug**
**SUBJECT: Kerendia**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Kerendia for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Kerendia may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of chronic kidney disease associated with type 2 diabetes **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of one of the following:
  - Serum Potassium less than or equal to 5.0 MEQ/L **OR**
  - Serum Potassium less than or equal to 5.5 MEQ/L if already established on therapy **AND**
- Medical record documentation of persistent albuminuria (albumin to creatinine ratio consistently greater than 30 mg/g) despite treatment with both of the following:
  - Maximally tolerated angiotensin-converting enzyme inhibitor (ACEi) or angiotensin receptor blocker (ARB) **AND**
  - One sodium-glucose co-transporter 2 (SGLT-2) inhibitor with proven kidney or cardiovascular benefit

**MEDISPAN APPROVAL LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If a formulary exception is approved, Kerendia will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Lybalvi for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Lybalvi may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Lybalvi is being used for one of the following:
  - Schizophrenia **OR**
  - Acute treatment of manic or mixed episodes associated with bipolar I disorder **OR**
  - Maintenance treatment of bipolar I disorder

**AND**

- Medical record documentation of a therapeutic failure on, intolerance to, or contraindication to three (3) generic, formulary atypical antipsychotics, one of which must be olanzapine

**MEDISPAN APPROVAL LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If a formulary exception is approved, Lybalvi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

aripiprazole, Caplyta*, Fanapt*, lurasidone (generic Latuda)*, Vraylar*, olanzapine, paliperidone*, quetiapine, risperidone, ziprasidone

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Oriahnn for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Oriahnn may be made for members who meet the following criteria:

- Medical record documentation that Oriahnn is prescribed by a gynecologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that patient is premenopausal **AND**
- Medical record documentation of a diagnosis of heavy menstrual bleeding associated with uterine leiomyomas (fibroids) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least one prior treatment to reduce menstrual bleeding, including but not limited to:
    - Oral contraceptives **OR**
    - Oral or injectable progesterone **OR**
    - Progestin-releasing intrauterine system **OR**
    - Tranexamic acid tablets **OR**
    - Gonadotropin-releasing hormone (GnRH) agonists

**MEDISPAN APPROVAL LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 56 capsules per 28 days

**AUTHORIZATION DURATION:** Initial authorization will be 24 months (or less if there is medical record documentation of a previous incomplete course of therapy with a gonadotropin-releasing hormone (GnRH) receptor antagonist (i.e., relugolix or elagolix).

**REAUTHORIZATION:**

- Medical record documentation that the patient has not been treated for more than a total of 24 months with a gonadotropin-releasing hormone (GnRH) receptor antagonist (i.e., relugolix or elagolix) **OR**
- Documentation of medical or scientific literature to support the use of this agent beyond the Food and Drug Administration (FDA)-approved treatment duration.

If a formulary exception is approved, Oriahnn will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 686.0**

**SECTION: Commercial Drug**
**SUBJECT: Wegovy and Zepbound**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | |
| GHP Kids | | Self-Insured | X |

*This policy is only applicable to those members whose coverage does not exclude medications for weight management.

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Wegovy and Zepbound for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

Pharmaceuticals for chronic weight management are not covered, except for certain clients that request this benefit.

An exception for coverage of Wegovy or Zepbound may be made for members who meet the following criteria:

- Medical record documentation that member has participated in comprehensive lifestyle modifications including reduced-calorie diet, physical activity, and behavioral health for at least 3 months prior to beginning Wegovy or Zepbound **AND**
- Medical record documentation of use as adjunct therapy to reduced calorie diet and increased physical activity for chronic weight management **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of age greater than or equal to 18 years with one of the following:
        - Medical record documentation of body mass index (BMI) greater than or equal to 30 $kg/m^2$ **OR**
        - Medical record documentation of body mass index (BMI) greater than or equal to 27 $kg/m^2$ and at least one weight-related comorbid condition (e.g., hypertension, type 2 diabetes mellitus, or dyslipidemia)
    - For Wegovy only: Medical record documentation of age greater than or equal to 12 years and less than 18 years with an initial body mass index (BMI) in the 95th percentile or higher for age and sex

**NOTE:** Wegovy and Zepbound are not indicated for treatment of chronic weight management:

- In combination with semaglutide or tirzepatide containing products or any other GLP-1 receptor agonist
- In combination with other products for weight loss, as safety and efficacy or coadministration has not been established
- In patients with acute pancreatitis. Use in caution in patients with history of pancreatitis.
- In patients with personal or family history of medullary thyroid C-cell carcinoma or Multiple Endocrine Neoplasia syndrome type 2
- In known hypersensitivity to semaglutide or tirzepatide or any of the excipients
- In pregnancy

**MEDISPAN APPROVAL LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - Wegovy: 3 mL per 28 days
  - Zepbound: 2 mL per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for an additional 6 months and will require:

- Medical record documentation that the member continues to experience clinical benefit from Wegovy or Zepbound based on the prescriber's assessment **AND**
- Medical record documentation that member has experienced at least a 5% reduction in weight from baseline

If an exception is made, Wegovy or Zepbound will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Brexafemme may be made for members who meet the following criteria:

**Initial Treatment or New Infections of Vulvovaginal Candidiasis (VVC)**

- Medical record documentation of a diagnosis of vulvovaginal candidiasis (VVC) **AND**
- Medical record documentation that member is greater than or equal to 12 years of age and post-menarchal **AND**
- Medical record documentation of therapeutic failure, contraindication, or intolerance to oral fluconazole tablets **AND** one formulary topical antifungal indicated for the treatment of vulvovaginal candidiasis
- Medical record documentation that member is NOT pregnant

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 4 tablets per day, 1 fill

**AUTHORIZATION DURATION:** 1 month, number of claims authorized = 1

**Reduction in the Incidence of Recurrent Vulvovaginal Candidiasis (RVVC)**

- Medical record documentation of diagnosis of recurrent vulvovaginal candidiasis (RVVC), defined as at least 3 episodes of VVC in the previous 12 months)* **AND**
- Medical record documentation that member is greater than or equal to 12 years of age and post-menarchal **AND**
- Medical record documentation that member is NOT pregnant **AND**
- Medical record documentation that pregnancy status will be reassessed prior to each dose **AND**
- Medical record documentation of therapeutic failure, contraindication, or intolerance to induction and maintenance** dosing of fluconazole tablets

***NOTE:** Treatments 1 and 2 are considered initial/new infection. If treatment 3 is within 12 months of treatments 1 and 2, would be considered RVVC.

****NOTE:** Induction and maintenance dosing is defined as fluconazole 150 mg orally every 72 hours for three doses, followed by maintenance oral fluconazole 150 mg once per week for six months.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 4 tablets per day, per 28 days

**AUTHORIZATION DURATION:** 6 months, number of claims authorized = 6

**REAUTHORIZATION**: Medical record documentation of medical or scientific literature to support the use of this agent beyond the FDA-approved treatment duration of 6 months. At time of review, the safety and efficacy of repeat administration of Brexafemme for RVVC has not been studied.

If a formulary exception is approved, Brexafemme will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Bylvay for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Bylvay may be made for members who meet the following criteria:

**Progressive Familial Intrahepatic Cholestasis (PFIC)**

- Medical record documentation that Bylvay is prescribed by or consultation with a hepatologist or gastroenterologist **AND**
- Medical record documentation of a diagnosis of progressive familial intrahepatic cholestasis (PFIC) confirmed by genetic testing **AND**
- Medical record documentation of the presence of moderate to severe pruritus **AND**
- Medical record documentation of age greater than or equal to 3 months **AND**
- Medical record documentation that the member is receiving an appropriate dose* based on the member's weight **AND**
- Medical record documentation of concurrent use or therapeutic failure on, intolerance to, or contraindication to ursodiol

***NOTE:** The recommended dosage of Bylvay for PFIC is 40 mcg/kg once daily. If there is no improvement in pruritus after 3 months, the dosage may be increased in 40 mcg/kg increments up to 120 mcg/kg once daily not to exceed a total daily dose of 6 mg (6000 mcg). See https://bylvay.com/pdf/021066_Bylvay_Dosing_Guide.pdf

**Alagille Syndrome**

- Medical record documentation of a diagnosis of Alagille Syndrome (ALGS) **AND**
- Medical record documentation of the presence of moderate to severe pruritis **AND**
- Medical record documentation that member is 12 months of age or older **AND**
- Medical record documentation that Bylvay is prescribed by or in consultation with a hepatologist or gastroenterologist **AND**
- Medical record documentation that member is receiving an appropriate dose* based on the member's weight **AND**

- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to ursodiol and one of the following: cholestyramine, rifampin, or naltrexone

***NOTE: The recommended dosage of Bylvay for Alagille Syndrome is shown in the table below:**

**Table 2. Recommended Dosage for ALGS in Patients aged 12 months and older (120 mcg/kg/day)**

| Body Weight (kg) | Once Daily Dosage (mcg) |
|---|---|
| 7.4 and below | 600 |
| 7.5 to 12.4 | 1,200 |
| 12.5 to 17.4 | 1,800 |
| 17.5 to 25.4 | 2,400 |
| 25.5 to 35.4 | 3,600 |
| 35.5 to 45.4 | 4,800 |
| 45.5 to 55.4 | 6,000 |
| 55.5 and above | 7,200 |

**MEDISPAN AUTHORIZATION LEVEL:** GPI-10

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 200 mcg pellets: 36 capsules per day, up to a 34 day supply per fill
  - 600 mcg pellets: 12 capsules per day, up to a 34 day supply per fill
  - 400 mcg capsules: 18 capsules per day, up to a 34 day supply per fill
  - 1200 mcg capsules: 6 capsules per day, up to a 34 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 6 months or less if the reviewing provider feels it is medically appropriate and will require the following:

- Medical record documentation of improvement in pruritus and/or reduction in serum bile acid **AND**
- Medical record documentation that the member is receiving an appropriate dose* based on the member's weight

If a formulary exception is approved, Bylvay will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

ursodiol

**SECTION: Commercial Drug**
**SUBJECT: Besremi**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Besremi for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Besremi may be made for members who meet the following criteria:

- Medical record documentation that Besremi is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of polycythemia vera **AND**
- Medical record documentation of an inadequate response or intolerance to hydroxyurea

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 mL per 28 days, 28 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Besremi will be configured as a prior authorization for new starts only. Besremi will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Besremi will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
hydroxyurea

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY NUMBER: 691.0**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**SECTION: Commercial Drug**
**SUBJECT: Eprontia**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Eprontia for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Eprontia may be made for members who meet the following criteria:

**Seizures**

- Medical record documentation of a diagnosis of partial onset seizures, primary generalized tonic-clonic seizures, or Lennox Gastaut syndrome **AND**
- Medical record documentation of age greater than or equal to 2 years **AND**
- Medical record documentation of one of the following:
    - Therapeutic failure on, intolerance to, or contraindication to three formulary alternatives, one of which must be topiramate immediate release tablets or topiramate immediate release sprinkle capsules **OR**
    - Medical record documentation of difficulty swallowing tablets **AND** therapeutic failure on, intolerance to, or contraindication to three formulary alternatives, one of which must be topiramate immediate release sprinkle capsules

**For Migraine prophylaxis**

- Medical record documentation of a diagnosis of use for migraine prophylaxis **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of one of the following:
    - Therapeutic failure on, intolerance to, or contraindication to three formulary alternatives, one of which must be topiramate immediate release tablets or topiramate immediate release sprinkle capsule **OR**

- Medical record documentation of difficulty swallowing tablets **AND** therapeutic failure on, intolerance to, or contraindication to three formulary alternatives, one of which must be topiramate immediate release sprinkle capsules

**NOTE:** Topiramate immediate release sprinkle capsules may be opened and sprinkled over one teaspoon of soft food for immediate administration without chewing.

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- 16 mL per day

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

If an exception is made, Eprontia will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Seizures

For patients aged ≥ 2 years: topiramate immediate release tablets, topiramate immediate release sprinkle capsules, lamotrigine immediate release springle capsules, carbamazepine, levetiracetam IR, phenobarbital, phenytoin, pregabalin, topiramate extended release*

Additional Formulary Alternatives: gabapentin (3+), oxcarbazepine (4+), divalproex (10+), levetiracetam ER (12+), tiagabine (12+), lamotrigine ER (13+), felbamate (14+), and zonisamide (16+)

*prior authorization required

Migraine Prophylaxis

topiramate immediate release tablets, topiramate immediate release sprinkle capsules, metoprolol, propranolol, timolol, atenolol, nadolol, divalproex, sodium valproate, amitriptyline, venlafaxine, topiramate extended release*

*prior authorization required

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Rezurock may be made for members who meet the following criteria:

- Medical record documentation that Rezurock is prescribed by a hematologist, oncologist, or transplant specialist **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of a diagnosis of steroid refractory graft-versus-host disease (GVHD) **AND**
- Medical record documentation of therapeutic failure of two or more prior lines of systemic therapy **AND**
- If request is for 200mg twice daily dosing, one of the following applies:
    - Medical record documentation that member is concurrently receiving a strong CYP3A4 inducer **OR**
    - If concurrently taking with a proton pump inhibitor (PPI), medical record documentation that treatment with a PPI is medically necessary **AND** medical record documentation of therapeutic failure on, intolerance to, or contraindication to a H2 blocker

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:**

- 200 mg once daily: No QLs need to be entered within the authorization unless the requested quantity exceeds the QL. QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill
- 200 mg twice daily: Only enter PA, OQL, max daily dose 2. QL FOR LETTER: 2 tablets per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval given for 6 months or less if the reviewing provider feels it is appropriate. The medication will no longer be covered if the member experiences unacceptable toxicity or worsening of disease. Subsequent approvals for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will require the following:

- Medical record documentation of continued disease improvement or lack of disease progression **AND**
- If request is for 200mg twice daily dosing, one of the following applies:
  - Medical record documentation that member is concurrently receiving a strong CYP3A4 inducer **OR**
  - If concurrently taking with a proton pump inhibitor (PPI), medical record documentation that treatment with a PPI is medically necessary **AND** medical record documentation of therapeutic failure on, intolerance to, or contraindication to a H2 blocker

If a formulary exception is approved, Rezurock will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

tacrolimus, cyclosporine, hydroxychloroquine, methotrexate, mycophenolate, sirolimus*, imatinib, Imbruvica*, Jakafi*, Rituxan*, Enbrel*, Lemtrada*, Orencia*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Scemblix for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Scemblix may be made for members who meet the following criteria:

- Medical record documentation that Scemblix is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of Philadelphia chromosome-positive chronic myeloid leukemia (Ph+ CML) in chronic phase (CP) **AND** one of the following:
    - Medical record documentation of previous treatment with two or more tyrosine kinase inhibitors (TKIs) **OR**
    - Medical record documentation of a T315I cell mutation

**AND**

- If the requested dose is 200 mg twice daily: Medical record documentation of a T315I cell mutation

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:**

- 40 mg per day or 80 mg per day: No QLs need to be entered within the authorization unless the requested quantity exceeds the QL. QL FOR LETTER ONLY: 2 tablets per day, 30 day supply per fill

- 200 mg twice daily (40 mg tablets): Only enter OQL, max daily dose 10. QL FOR LETTER: 10 tablets per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Scemblix will be configured as a prior authorization for new starts only. Scemblix will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If a formulary exception is approved, Scemblix will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

imatinib, Bosulif*, Iclusig*, Sprycel*, Tasigna*

*prior authorization required

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Opzelura for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

**For the treatment atopic dermatitis**

An exception for coverage of Opzelura may be made for members who meet the following criteria:

- Medical record documentation that Opzelura is prescribed by or in consultation with a dermatologist, allergist, or immunologist **AND**
- Medical record documentation of a diagnosis of mild to moderate atopic dermatitis **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation that member is immunocompetent **AND**
- Medical record documentation of Body Surface Area (BSA) less than or equal to 20% **AND**
- Medical record documentation that Opzelura is NOT being used in combination with therapeutic biologics, other Janus-associated kinase (JAK) inhibitors or potent immunosuppressants such as azathioprine or cyclosporine **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to ALL of the following:
    - One formulary topical calcineurin inhibitor **AND**
    - One formulary topical corticosteroid unless deemed inadvisable due to potential risks such as (a) use on sensitive skin areas (face, axillae, or groin) **OR** (b) member is less than 15 years of age **AND**
    - Eucrisa

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL for letter only: 240 grams per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 3 months or less if the reviewing provider feels it is medically appropriate. The medication will no longer be covered if patient experiences resolution of symptoms of atopic dermatitis. Subsequent approvals will be for an additional 6 months and will require:

- Medical record documentation of tolerability and positive clinical response to Opzelura **AND**
- Medical record documentation of symptomatic atopic dermatitis that requires additional treatment with Opzelura **AND**
- Medical record documentation that Opzelura is NOT being used in combination with therapeutic biologics, other Janus-associated kinase (JAK) inhibitors or potent immunosuppressants such as azathioprine or cyclosporine

**For the treatment of non-segmental vitiligo**
An exception for coverage of Opzelura may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of non-segmental vitiligo **AND**
- Medical record documentation that Opzelura is prescribed by or in consultation with a dermatologist, allergist, or immunologist **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation that other causes of depigmentation have been ruled out **AND**
- Medical record documentation that affected areas do not exceed 10% of body surface area **AND**
- Medical record documentation that Opzelura is NOT being used in combination with therapeutic biologics, other JAK inhibitors or potent immunosuppressants such as azathioprine or cyclosporine **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to one formulary topical corticosteroid unless deemed inadvisable due to potential risks such as use on sensitive skin areas (face, axillae, groin) AND one topical calcineurin inhibitor

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL for letter only: 240 grams per 28 days

**AUTHORIZATION DURATION:** Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 6 months and will require:

- Medical record documentation of tolerability and positive clinical response to Opzelura **AND**
- Medical record documentation of symptomatic nonsegmental vitiligo that requires additional treatment with Opzelura **AND**
- Medical record documentation that Opzelura is NOT being used in combination with therapeutic biologics, other JAK inhibitors or potent immunosuppressants such as azathioprine or cyclosporine

If a formulary exception is approved, Opzelura will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Calcineurin Inhibitors: tacrolimus ointment, pimecrolimus cream*
Eucrisa* (atopic dermatitis only)
Low-potency topical corticosteroids: alclometasone dipropionate 0.5% cream and ointment (Aclovate); fluocinolone acetonide 0.01% soln. (Synalar); hydrocortisone 2.5% cream, ointment, and lotion (Hytone)
Medium-potency topical corticosteroids: betamethasone valerate 0.1% cream (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); fluticasone propionate 0.05% cream, ointment, and lotion (Cutivate); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)
High-potency topical corticosteroids: augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone valerate 0.1% ointment (Valisone); triamcinolone 0.5% cream (Kenalog); fluocinonide 0.05% cream, ointment and gel (Lidex)
Very high-potency topical corticosteroids: augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, and scalp lotion (Temovate) diflorasone diacetate 0.05% cream and ointment (ApexiCon/Psorcon)

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 696.0**

**SECTION: Commercial Drug**
**SUBJECT: Qulipta**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Qulipta for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Qulipta may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of migraine with or without aura **AND**
- Medical record documentation of number of baseline migraine or headache days per month **AND**
- Medical record documentation that Qulipta will not be used concomitantly with another calcitonin gene-related peptide (CGRP) receptor antagonist indicated for the preventive treatment of migraine **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least two (2) of the following:
    - One (1) beta blocker (metoprolol, propranolol, timolol, atenolol, nadolol)
    - Topiramate
    - Divalproex/sodium valproate
    - Amitriptyline
    - Venlafaxine **AND**
- Medical record documentation that Qulipta will not be used in combination with botulinum toxin for the preventive treatment **OR**
    - Medical record documentation of therapeutic failure on a minimum 3 month trial of at least one CGRP antagonists without the concomitant use of Botox **AND**
    - Medical record documentation of therapeutic failure on a minimum 6 month trial of Botox without the concomitant use of a CGRP antagonist

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

**AUTHORIZATION DURATION:** Initial approval will be for six (6) months and subsequent approvals will be for twelve (12) months. Requests for continuation of coverage will be approved for members who meet the following criteria:

- Medical record documentation of continued or sustained reduction in migraine or headache frequency or has experienced a decrease in severity or duration of migraine **AND**
- Medical record documentation that Qulipta will not be used concomitantly with another calcitonin gene-related peptide (CGRP) receptor antagonist indicated for the preventive treatment of migraine **AND**
- Medical record documentation that Qulipta will not be used in combination with botulinum toxin for preventive treatment **OR**
    - Medical record documentation of a therapeutic failure on a minimum 3 month trial of at least one CGRP antagonists without the concomitant use of Botox **AND**
    - Medical record documentation of therapeutic failure on a minimum 6 month trial of Botox without the concomitant use of a CGRP antagonist

If a formulary exception is approved, Qulipta will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

metoprolol, propranolol, timolol, atenolol, nadolol, topiramate, divalproex, sodium valproate, amitriptyline, venlafaxine, Aimovig*, Emgality*, Nurtec ODT*

*prior authorization required

**SECTION: Commercial Drug**
**SUBJECT: Tavneos**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Tavneos for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Tavneos may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of severe active anti-neutrophil cytoplasmic autoantibody (ANCA)-associated vasculitis classified as one of the following variants:
  - granulomatosis with polyangiitis (GPA) **OR**
  - microscopic polyangiitis (MPA)

**AND**

- Medical record documentation of both of the following:
  - Medical record documentation of a positive test for anti-proteinase 3 (PR3) or anti-myeloperoxidase (MPO) **AND**
  - Medical record documentation of at least 1 major item, 3 non-major items, or 2 renal items of proteinuria and hematuria on the Birmingham Vasculitis Activity Score (BVAS)

**AND**

- Medical record documentation that Tavneos will be administered in combination with standard therapy such as, but not limited to rituximab, cyclophosphamide, methotrexate, mycophenolate, or azathioprine, and/or glucocorticoids

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 6 capsules per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be given for six months. Subsequent approvals will be for an additional twelve months and will require:

- Medical record documentation of continued disease improvement or lack of disease progression **AND**
- Medical record documentation that the member is responding positively to therapy as evidenced by a reduction in the Birmingham Vasculitis Activity Score (BVAS) **AND**
- Medical record documentation that Tavneos will continue to be administered in combination with standard therapy such as, but not limited to rituximab, cyclophosphamide, methotrexate, mycophenolate, or azathioprine, and/or glucocorticoids

The medication will no longer be covered if patient experiences toxicity or worsening of disease.

If a formulary exception is approved, Tavneos will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

azathioprine, oral cyclophosphamide, methotrexate, mycophenolate, prednisone

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Vuity for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Vuity may be made for members who meet the following criteria:

- Medical record documentation that Vuity is prescribed by or in consultation with an optometrist or ophthalmologist **AND**
- Medical record documentation of a diagnosis of presbyopia **AND**
- Medical record documentation of age greater than or equal to 40 years **AND**
- Medical record documentation of intolerance to or contraindication to corrective lenses

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2.5 mL per 30 days

If a formulary exception is approved, Vuity will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Adbry may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of moderate to severe atopic dermatitis **AND**
- Medical record documentation that Adbry is prescribed by or in consultation with an allergist, dermatologist, or immunologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of contraindication to, intolerance to, or therapeutic failure on an adequate trial of phototherapy (UVA/UVB treatment) **AND**
- Medical record documentation of one of the following:
    - Therapeutic failure on an adequate trial of at least one medium (or higher) potency topical corticosteroid **OR**
    - For members with an intolerance or contraindication to topical corticosteroids or for members in whom topical corticosteroids are inadvisable, therapeutic failure on, intolerance to, or contraindication to a topical calcineurin inhibitor

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Initial approval will be for 6 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals for the medication will be for 12 months or less if the reviewing provider feels it is medically appropriate and will require medical record documentation of continued disease improvement or lack of disease progression. The medication will no longer be covered if the patient experiences toxicity or worsening of disease.

**QUANTITY LIMIT:**

**Initial Approval** – Two authorizations must be entered.

- 600mg once, followed by 300mg every other week
    1. In NCRx: Add Treat As "Include" Process Modifier, Ignore Misc Handler, DS, enter 1 in max number of claims authorized, max quantity of 6, minimum day supply 28, and maximum day supply 28 with a duration of 2 weeks.
    2. In PA Hub: Add Treat As "Include" Process Modifier, Ignore Misc Handler, and max quantity 4 with a start date 1 day after the loading dose for remainder of the authorization.
        - QL FOR LETTER: Loading Dose: 6 mL per 28 days; Maintenance Dose: 4 mL per 28 days

**Renewal**

- 300mg every other week
    1. In PA Hub: Add Treat As "Include" Process Modifier, Ignore Misc Handler, and max quantity 4.
        - QL FOR LETTER: 4 mL per 28 days
- 300mg every 4 weeks
    1. In PA Hub: Add Treat As "Include" Process Modifier, Ignore Misc Handler, and max quantity 2.
        - QL FOR LETTER: 2 mL per 28 days

If a formulary exception is approved, Adbry will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

tacrolimus ointment

**Low-potency topical corticosteroids**: alclometasone dipropionate 0.5% cream and ointment (Aclovate); fluocinolone acetonide 0.01% soln. (Synalar); hydrocortisone 2.5% cream, ointment, and lotion (Hytone)

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 706.0**

**SECTION: Commercial Drug**
**SUBJECT: Vonjo**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Vonjo for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Vonjo may be made for members who meet the following criteria:

- Medical record documentation that Vonjo is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of intermediate or high-risk myelofibrosis, including primary myelofibrosis, post-polycythemia vera myelofibrosis or post-essential thrombocythemia myelofibrosis **AND**
- Medical record documentation of severe thrombocytopenia with platelet count less than or equal to 50 x $10^9$/L **AND**
- Medical record documentation of splenomegaly as measured by computed tomography (CT), magnetic resonance imaging (MRI), or ultrasound **AND**
- Medical record documentation of baseline total symptom score as measured by the modified Myelofibrosis Symptom Assessment Form (MFSAF) **AND**
- Medical record documentation that Vonjo will not be used concurrently with other kinase inhibitors

**NOTE:** Intermediate or High-Risk Myelofibrosis is defined by having at least 2 of the following factors:

- ✓ Age > 65 years
- ✓ WBC > 25 x $10^9$/L
- ✓ Hemoglobin < 10 g/dL
- ✓ Blood Blasts ≥ 1%
- ✓ Presence of Constitutional Symptoms (weight loss, fever, excessive sweats, etc.)
- ✓ Transfusion dependency
- ✓ Platelets less than 100 X $10^9$/L
- ✓ Unfavorable karyotype

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL for letter only: 4 capsules per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Each treatment period will be defined as six (6) months. Re-review with occur every six (6) months. Vonjo will no longer be covered if medical record documentation does not show:

- Medical record documentation of platelet count less than or equal to 50 x $10^9$/L **AND**
- The member has achieved a reduction from pretreatment baseline of at least 35% in spleen volume as measured by computed tomography (CT), magnetic resonance imaging (MRI), or ultrasound **OR**
- The member has achieved a 50% or greater reduction in the Total Symptom Score from baseline as measured by the modified Myelofibrosis Symptom Assessment Form (MFSAF)

If a formulary exception is approved, Vonjo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Jakafi*, Inrebic*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Voxzogo GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Voxzogo may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of achondroplasia with genetic testing confirming a mutation of FGFR3 **AND**
- Medical record documentation that Voxzogo is prescribed by a pediatric endocrinologist **AND**
- Medical record documentation that member is less than 18 years of age **AND**
- Medical record documentation of evidence that patient has open epiphyses **AND**
- Medical record patient has not received (within the past 18 months) or plans to receive limb-lengthening surgery **AND**
- Medical record documentation that Voxzogo will not be used in combination with human growth hormone products **AND**
- Medical record documentation of glomerular filtration rate (GFR) greater than 60 ml/min/1.73m$^2$ **AND**
- Medical record documentation of member's current weight **AND**
- Medical record documentation that prescribed dose is appropriate for member's current weight **AND**
- Medical record documentation of baseline annualized growth velocity (AGV), calculated based on standing height measured over the course of 6 months prior to request

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL for letter only: 1 vial per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Each treatment period will be defined as six (6) months. Re-review with occur every six (6) months. Voxzogo will no longer be covered if medical record documentation does not show:

- Medical record documentation of positive response to Voxzogo, as evidenced by improvement in annualized growth velocity (AGV) from baseline **AND**
- Medical record documentation of evidence that patient continues to have open epiphyses **AND**
- Medical record patient has not received (within the past 18 months) or plans to receive limb-lengthening surgery **AND**
- Medical record documentation that Voxzogo will not be used in combination with human growth hormone products **AND**
- Medical record documentation of glomerular filtration rate (GFR) greater than 60 ml/min/1.73m$^2$ **AND**
- Medical record documentation of member's current weight **AND**
- Medical record documentation that prescribed dose is appropriate for member's current weight

If a formulary exception is approved, Voxzogo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

**SECTION: Commercial Drug**
**SUBJECT: Cibinqo**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Cibinqo for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**
New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

**For treatment of atopic dermatitis (AD)**
An exception for coverage of Cibinqo may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of moderate to severe atopic dermatitis **AND**
- Medical record documentation that Cibinqo is prescribed by or in consultation with an allergist, dermatologist, or immunologist **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of one of the following:
    - Therapeutic failure on an adequate trial of at least one medium (or higher) potency topical corticosteroid **OR**
    - For members with an intolerance or contraindication to topical corticosteroids or for members in whom topical corticosteroids are inadvisable: Therapeutic failure on, intolerance to, or contraindication to a topical calcineurin inhibitor **AND**
- Medical record documentation of contraindication to, intolerance to, or therapeutic failure to one systemic therapy (e.g., Dupixent, Adbry) **AND**
- Medical record documentation of contraindication to, intolerance to, or therapeutic failure on an adequate trial of phototherapy (UVA/UVB treatment) **AND**
- Medical record documentation that Cibinqo will not be used in combination with another Janus kinase (JAK) inhibitor, biologic immunomodulator or with other immunosuppressants including but not limited to azathioprine and cyclosporine

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*
QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 6 months if the reviewing provider feels it is medically appropriate. Subsequent approval will be for 12 months and will require medical record documentation of lack of disease progression or continued disease improvement.

If an exception is made, Cibinqo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Dupixent*
Calcineurin Inhibitors: tacrolimus ointment, pimecrolimus cream*
Low-potency topical corticosteroids: alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)
Medium-potency topical corticosteroids: betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)
High-potency topical corticosteroids: amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)

Very high-potency topical corticosteroids: augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam, spray (Temovate/Clobex/Olux) diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E), fluocinonide 0.1% cream (Vanos), halobetasol 0.05% cream and ointment (Ultravate)

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**SECTION: Commercial Drug**
**SUBJECT: Ibsrela**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Ibsrela for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Ibsrela may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of irritable bowel syndrome with constipation (IBS-C) **AND**
- Medical record documentation of therapeutic failure on, contraindication to, or intolerance to Linzess

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

QL FOR LETTER ONLY: 2 tablets per day

If an exception is made, Ibsrela will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Ztalmy for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**
New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Ztalmy may be made for members who meet the following criteria:

- Medical record documentation that Ztalmy is prescribed by a neurologist **AND**
- Medical record documentation of age greater than or equal to 2 years **AND**
- Medical record documentation of a diagnosis of CDKL5 Deficiency Disorder (CDD) **AND**
- Medical record documentation of genetic testing that confirms a cyclin-dependent kinase-like 5 (CDKL5) deficiency **AND**
- Medical record documentation that the patient is experiencing baseline seizures and documentation of the baseline frequency of seizures **AND**
- Medical record documentation of a therapeutic failure, intolerance, or contraindication to at least two previous antiepileptic therapies **AND**
- Medical record documentation that the requested daily dose does not exceed the following:
    - Weight less than 28 kg: 63 mg/kg/day **OR**
    - Weight greater than 28 kg: 1800 mg/day

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*
QL FOR LETTER ONLY: 36.7 mL per day, 1100 mL per 30 days

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for an additional 12 months and will require medical record documentation of the following:

- Medical record documentation of a sustained reduction in monthly seizure frequency compared to baseline **AND**
- Medical record documentation that the requested daily dose does not exceed the following:
  - Weight less than 28 kg: 63 mg/kg/day **OR**
  - Weight greater than 28kg: 1800 mg/day

If an exception is made, Ztalmy will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

For patients aged ≥ 2 years: topiramate immediate release tablets, topiramate immediate release sprinkle capsules, lamotrigine immediate release springle capsules, carbamazepine, clobazam, levetiracetam IR, phenobarbital, phenytoin, pregabalin, topiramate extended release*, vigabatrin*, valproic acid

Additional Formulary Alternatives: gabapentin (3+), oxcarbazepine (4+), divalproex (10+), levetiracetam ER (12+), tiagabine (12+), lamotrigine ER (13+), felbamate (14+), and zonisamide (16+)

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for non-preferred topical corticosteroids for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of a non-preferred topical corticosteroid may be made for members who meet the following criteria:

- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to three (3) formulary alternatives [one (1) of which must be of a similar potency]

If a formulary exception is approved, the non-preferred topical corticosteroid will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)
**Medium-potency topical corticosteroids:** betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone

0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)
**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)
**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam, spray (Temovate/Clobex/Olux) diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E), fluocinonide 0.1% cream (Vanos), halobetasol 0.05% cream and ointment (Ultravate)

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Radicava ORS for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Radicava ORS may be made for members who meet the following criteria:

- Medical record documentation that Radicava ORS is prescribed by or in consultation with a neurologist **AND**
- Medical record documentation of a diagnosis of amyotrophic lateral sclerosis (ALS) **AND**
- Medical record documentation of baseline functional status (as evidenced by a scoring system such as the Revised Amyotrophic Lateral Sclerosis Functional Rating Scale (ALSFRS-R) or by physician documentation of subjective reports on speech, motor function, pulmonary function, etc.) **AND**
- Medical record documentation that Radicava is being given in combination with riluzole **OR** intolerance or contraindication to riluzole

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - Radicava ORS Starter Kit: 70 mL per 180 days
  - Radicava ORS Maintenance: 50 mL per 28 days

| Geisinger | POLICY NUMBER: 724.0 |

| POLICY AND PROCEDURE<br>**PHARMACY**<br>MANUAL | **SECTION: Commercial Drug**<br>**SUBJECT: Radicava ORS** |

**AUTHORIZATION DURATION:** Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. Subsequent approvals will be for an additional 12 months or less if the reviewing provider feels it is medically appropriate and will require the following criteria:

- Medical record documentation that member is tolerating and compliant with prescribed edaravone regimen **AND**
- Medical record documentation of regular physician follow-up

If an exception is made, Radicava ORS will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

riluzole

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Eysuvis may be made for members who meet the following criteria:

- Medical record documentation that Eysuvis is prescribed by an optometrist or ophthalmologist **AND**
- Medical record documentation that Eysuvis is being used for the short-term (up to two weeks) treatment of the signs and symptoms of dry eye disease **AND**
- Medical record documentation that Eysuvis will be prescribed according to the Food and Drug Administration (FDA) approved dose* **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to loteprednol 0.5% suspension** **OR** fluorometholone 0.1% suspension

**NOTE:** The FDA approved dose is one to two drops into each eye four times daily for up to two weeks.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**AUTHORIZATION DURATION:** 14 days, RX count 1

**QUANTITY LIMIT:** *QLs must be entered within the authorization.*
QL FOR LETTER AND AUTHORIZATION: 8.3 mL per 14 days, minimum and maximum day supply 14 days.

If an exception is made, Eysuvis will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Vtama may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of plaque psoriasis **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to at least one (1) medication from all of the following:
  - Topical corticosteroid (at least medium or higher potency) **OR** topical calcineurin inhibitor **AND**
  - Topical retinoid **AND**
  - Topical vitamin D analog

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

If an exception is made, Vtama will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Topical Vitamin D Analogs: calcipotriene 0.005% solution/cream/ointment (Dovonex), calcitriol 3mcg/gm ointment (Vectical)

Topical Retinoids: tazarotene 0.1% cream/gel (Tazorac)

Low-potency topical corticosteroids: alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe);

hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)

Medium-potency topical corticosteroids: betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)

High-potency topical corticosteroids: amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)

Very high-potency topical corticosteroids: augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam, spray (Temovate/Clobex/Olux) diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E), fluocinonide 0.1% cream (Vanos), halobetasol 0.05% cream and ointment (Ultravate)

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for ZTlido for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of ZTlido may be made for members who meet the following criteria:

- Medical record documentation of a Food and Drug Administration (FDA) approved indication (post-herpetic neuralgia) **AND**
- Medical record documentation of therapeutic failure, intolerance to, or contraindication to a gabapentinoid (gabapentin or pregabalin) **AND** lidocaine 5% patches

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 3 patches per day

If an exception is made, ZTlido will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

lidocaine 5% patches*, gabapentin, pregabalin

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical literature.

An exception for coverage of Sotyktu may be made for members who meet **ALL** of the following criteria:

- Medical record documentation that Sotyktu is prescribed by a dermatologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of moderate to severe plaque psoriasis characterized by greater than 5% of body surface area involved or disease involving crucial body areas such as the hands, feet, face, or genitals **AND**
- Medical record documentation of an intolerance to, contraindication to or therapeutic failure on four (4) preferred formulary biologics for the treatment of psoriasis **AND**
- Medical record documentation that Sotyktu is not being used concurrently with a tumor necrosis factor (TNF) blocker or other biologic agent

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical

improvement or lack of progression in signs and symptoms of plaque psoriasis on Sotyktu therapy is required.

If an exception is made, Sotyktu will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Enbrel*, Humira*, adalimumab-FKJP*, Hadlima*, Yusimry*, Otezla*, Skyrizi*, Tremfya*, Cosentyx*, Cimzia*, Siliq*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical

An exception for coverage of Jaypirca may be made for members who meet the following criteria:

**Mantle Cell Lymphoma (MCL)**

- Medical record documentation that Jaypirca is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of mantle cell lymphoma (MCL) **AND**
- Medical record documentation of at least two lines of systemic therapy, including a BTK inhibitor

**Chronic Lymphocytic Leukemia/Small Lymphocytic Lymphoma**

- Medical record documentation that Jaypirca is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of chronic lymphocytic leukemia (CLL) or small lymphocytic lymphoma (SLL) **AND**
- Medical record documentation of at least two lines of systemic therapy, including a BTK inhibitor and a BCL-2 inhibitor

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for 1 month duration

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 50 mg tablets: 1 tablet per day, 30 day supply per fill
  - 100 mg tablets: 2 tablets per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Jaypirca is configured as a prior authorization for new starts only. Jaypirca will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If an exception is made, Jaypirca will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

BTK Inhibitors: Imbruvica*, Calquence*, Brukinsa*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Tezspire may be made for members who meet the following criteria:

- Medical record documentation that Tezspire is prescriber by or in consultation with an allergist, immunologist, or pulmonologist **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of severe asthma **AND**
- Medical record documentation that Tezspire will be used as an add-on maintenance treatment **AND**
- Medical record documentation that Tezspire will not be used in combination with another biologic medication indicated for asthma treatment (e.g. Xolair, Nucala, Fasenra, Dupixent, Cinqair) **AND**
- Medical record documentation of one of the following:
    - Poor control or intolerance, despite a 3 month trial of: medium –high dose inhaled corticosteroids and another controller medication (long-acting beta agonists, long-acting muscarinic antagonist, or leukotriene receptor antagonists) with or without oral corticosteroids **OR**
    - Two or more asthma exacerbations requiring systemic corticosteroid treatment or one asthma exacerbation resulting in hospitalization in the past 12 months despite current therapy to medium- high inhaled corticosteroids and another controller medication (long-acting beta agonists, long-acting muscarinic antagonist, or leukotriene receptor antagonists)

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
    - 1.91 mL (210 mg) per 28 days

**SUBJECT: Ortikos**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Ortikos for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Ortikos may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 8 years **AND**
- Medical record documentation of a diagnosis of mild to moderate Crohn's disease **AND**
- Medical record documentation of therapeutic failure, intolerance to, or contraindication to at least three formulary alternatives, one of which is budesonide 3 mg oral capsule delayed release particles

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY:
  - 1 capsule per day

If an exception is made, Ortikos will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

budesonide 3 mg oral capsule delayed release particles, sulfasalazine 500 mg oral tablet, 500 mg DR oral tablet, prednisone 10 or 20 mg tablet or prednisolone 10mg/5ml, 15mg/5ml, or 25mg/5ml solution

C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical

An exception for coverage of Tascenso ODT may be made for members who meet the following criteria:

- Medical record documentation that the prescribed dose is appropriate for members age and weight **AND**
- Medical record documentation of trouble swallowing **OR**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to fingolimod capsules (generic Gilenya)

**NOTE:** 0.25 mg strength is indicated for those greater than or equal to 10 years of age with a weight less than or equal to 40 kilograms.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

If an exception is made, Tascenso ODT will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Vivjoa for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Vivjoa may be made for members who meet the following criteria:

- Medical record documentation of history of recurrent vulvovaginal candidiasis (RVVC) (greater than 3 acute vulvovaginal candidiasis episodes within 12 months) **AND**
- Medical record documentation of one of the following
  - Medical record documentation that member is postmenopausal **OR**
  - Medical record documentation that member is 12 years of age or older **AND** both of the following:
    - Medical record documentation that member is post-menarchal **AND**
    - Medical record documentation that member is not of reproductive potential (history of tubal ligation, salpingo-oophorectomy, or hysterectomy)
- Medical record documentation of therapeutic failure, contraindication, or intolerance to oral fluconazole tablets

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, RX count 1

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 18 capsules per 84 days

If an exception is made, Vivjoa will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Filspari may be made for members who meet the following criteria:

- Medical record documentation of primary immunoglobulin A nephropathy (IgAN) verified by biopsy **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Filspari is prescribed by or in consultation with a nephrologist **AND**
- Medical record documentation that member is at high risk of disease progression, defined as urine protein-to-creatinine ratio (UPCR) greater than or equal to 1.5 g/g or proteinuria greater than or equal to 1 g/day **AND**
- Medical record documentation that member has received greater than or equal to 90 days of optimized supportive care, including blood pressure management, lifestyle modification, and cardiovascular risk modification **AND**
- Medical record documentation of estimated glomerular filtration rate (eGFR) greater than or equal to 30 mL/min/1.73 $m^2$ **AND**
- Medical record documentation that member has received a stable dose of a renin-angiotensin system (RAS) inhibitor (angiotensin-converting enzyme [ACE] inhibitor or angiotensin receptor blocker [ARB]) at a maximally tolerated dose for greater than or equal to 90 days **AND**
- Medical record documentation that (RAS) inhibitor (angiotensin-converting enzyme [ACE] inhibitor or angiotensin receptor blocker [ARB]) will be discontinued prior to initiation of treatment with Filspari **AND**
- Medical record documentation that Filspari will NOT be used in combination with any (RAS) inhibitors (angiotensin-converting enzyme [ACE] inhibitor or angiotensin receptor blocker [ARB]), endothelin receptor antagonists, or aliskiren

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for nine (9) months and subsequent approvals will be for twelve (12) months. Requests for continuation of coverage will be approved for members who meet the following criteria:

- Medical record documentation of continued disease improvement or lack of disease progression according to prescriber (i.e., decreased levels of proteinuria from baseline or decreased urine protein-to-creatinine ratio (UPCR) from baseline) **AND**
- Medical record documentation that Filspari will NOT be used in combination with any (RAS) inhibitors (angiotensin-converting enzyme [ACE] inhibitor or angiotensin receptor blocker [ARB]), endothelin receptor antagonists, or aliskiren

If an exception is made, Filspari will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

**ARB:** candesartan, losartan, irbesartan, olmesartan, telmisartan, valsartan
**ARB/diuretic combinations:** candesartan/hctz, irbesartan/hctz, losartan/hctz, olmesartan/hctz, telmisartan/hctz, valsartan/hctz
**ACE inhibitors:** benazepril, captopril, enalapril, fosinopril, lisinopril, moexipril, quinapril, trandolapril, ramipril
**ACE inhibitors/diuretic combinations:** captopril/hctz, benazepril/hctz, enalapril/hctz, lisinopril/hctz, moexipril/hctz

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Skyclarys for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Skyclarys may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 16 years **AND**
- Medical record documentation that Skyclarys is prescribed by or in consultation with a neurologist **AND**
- Medical record documentation of a diagnosis of Friedrich's Ataxia **AND**
- Medical record documentation of genetic testing confirming Frataxin (FXN) gene mutation **AND**
- Medical record documentation of baseline modified Friedreich's Ataxia Rating Scale (mFARS) score

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 3 capsules per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 12 months. Subsequent approvals will be for an additional 12 months and will require:

- Medical record documentation that the member is responding positively to therapy as evidenced by slowed disease progression or documentation of a positive clinical response (ex. through mFARS-modified functional assessment rating scale)

If an exception is made, Skyclarys will be paid for under the member's prescription drug benefit.

An exception for coverage of Joenja may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of a diagnosis of activated phosphoinositide 3-kinase delta (PI3Kδ) syndrome (APDS) **AND**
- Medical record documentation of weight greater than or equal to 45 kilograms **AND**
- Medical record documentation of a mutation in *PIK3CD* **OR** *PIK3R1* gene

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 tablets per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for an additional 12 months and ill require medical record documentation of clinical improvement or lack of progression in symptoms of activated phosphoinositide 3-kinase delta (PI3Kδ) syndrome (APDS) on Joenja therapy.

If an exception is made, Joenja will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

**POLICY NUMBER: 773.0**

**SECTION: Commercial Drug**
**SUBJECT: Lumryz**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Lumryz for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Lumryz may be made for members who meet the following criteria:

- Medical record documentation of use for a Food and Drug Administration (FDA) approved indication **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to modafinil, methylphenidate immediate release **OR** amphetamine/dextroamphetamine immediate release

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 9 grams per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Initial approval will be for 12 months or less if the reviewing provider feels it is medically appropriate. For continued coverage, the following is required:

- Medical record documentation of reduction in frequency of cataplexy attacks **OR**
- Medical record documentation of reduction in symptoms of excessive daytime sleepiness

After the initial 12 month approval, subsequent approvals will be for a duration of 12 months. Reevaluation will be every 12 months requiring the following:

- Medical record documentation of continued or sustained reduction in frequency of cataplexy attacks **OR**
- Medical record documentation of continued or sustained reduction in symptoms of excessive daytime sleepiness

If an exception is made, Lumryz will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

modafinil*, methylphenidate immediate release, amphetamine/dextroamphetamine immediate release

*prior authorization required

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

Pharmaceuticals for chronic weight management are not covered, except for certain clients that request this benefit.

An exception for coverage of Saxenda may be made for members who meet the following criteria:

- Medical record documentation that member has participated in comprehensive lifestyle modifications including reduced-calorie diet, physical activity, and behavioral health for at least 3 months prior to beginning Saxenda **AND**
- Medical record documentation of use as adjunct therapy to reduced calorie diet and increased physical activity for chronic weight management **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of age greater than or equal to 18 years with one of the following:
        - Medical record documentation of body mass index (BMI) greater than or equal to 30 kg/$m^2$ **OR**
        - Medical record documentation of body mass index (BMI) greater than or equal to 27 kg/$m^2$ and at least one weight-related comorbid condition (e.g., hypertension, type 2 diabetes mellitus, or dyslipidemia) **AND**
    - Medical documentation of age greater than or equal to 12 years and less than 18 years with body weight above 60 kg and an initial body mass index (BMI) corresponding to 30 kg/m2 for adults by international cut-offs (Cole Criteria) **AND**
- Medical documentation of therapeutic failure to Wegovy

**NOTE:** Saxenda is not indicated for treatment of chronic weight management:

- In combination with liraglutide containing products or any other GLP-1 receptor agonist
- In combination with other products for weight loss, as safety and efficacy or coadministration has not been established
- In pediatric patients with type 2 diabetes
- In patients with acute pancreatitis. Caution in patients with history of pancreatitis.
- In patients with personal or family history of medullary thyroid C-cell carcinoma or Multiple Endocrine Neoplasia syndrome type 2
- In known hypersensitivity to liraglutide or any of the excipients
- In pregnancy

**MEDISPAN APPROVAL LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for an additional 6 months and will require:

- Medical record documentation that the member continues to experience clinical benefit from Saxenda based on the prescriber's assessment **AND**
- Medical record documentation that member has experienced at least a 4% reduction in weight from baseline.

If an exception is made, Saxenda will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

| GHP Kids | | Self-Insured | X |

*This policy is only applicable to those members whose coverage does not exclude medications for weight management.

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Xenical for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

Pharmaceuticals for chronic weight management are not covered, except for certain clients that request this benefit.

An exception for coverage of Xenical may be made for members who meet the following criteria:

**Chronic Weight Management**

- Medical record documentation that member has participated in comprehensive lifestyle modifications including reduced-calorie diet, physical activity, and behavioral health for at least 3 months prior to beginning Xenical **AND**
- Medical record documentation of use in conjunction with reduced calorie diet for chronic weight management **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of body mass index (BMI) greater than or equal to 30 $kg/m^2$ **OR**
    - Medical record documentation of body mass index (BMI) greater than or equal to 27 $kg/m^2$ and at least one weight-related comorbid condition (e.g., hypertension, type 2 diabetes mellitus, or dyslipidemia) **AND**
- Medical documentation of therapeutic failure to Wegovy

**Risk of Weight Regain**

- Medical documentation of use for reduced risk of weight regain after prior established weight loss

**NOTE:** Xenical is not indicated for treatment of chronic weight management:

- In patients with chronic malabsorption syndrome
- In patients with cholestasis
- In known hypersensitivity to orlistat or any of the excipients
- In pregnancy

**MEDISPAN APPROVAL LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for an additional 6 months and will require:

- Medical record documentation that the member continues to experience clinical benefit from Xenical based on the prescriber's assessment **AND**
- Medical record documentation that member has experienced at least a 4% reduction in weight from baseline.

If an exception is made, Xenical will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

| Medicare | | ACA | |
| GHP Kids | | Self-Insured | X |

*This policy is only applicable to those members whose coverage does not exclude medications for weight management.

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Contrave for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.

5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:
    A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
    B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
    C. In accordance with current standards of medical practice;
    D. Not primarily for the convenience of the Member, or the Member's Provider; and
    E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

Pharmaceuticals for chronic weight management are not covered, except for certain clients that request this benefit.

An exception for coverage of Contrave may be made for members who meet the following criteria:

- Medical record documentation that member has participated in comprehensive lifestyle modifications including reduced-calorie diet, physical activity, and behavioral health for at least 3 months prior to beginning Contrave **AND**
- Medical record documentation of use as adjunct therapy to reduced calorie diet and increased physical activity for chronic weight management **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of one of the following:
    - Medical record documentation of body mass index (BMI) greater than or equal to 30 $kg/m^2$ **OR**
    - Medical record documentation of body mass index (BMI) greater than or equal to 27 $kg/m^2$ and at least one weight-related comorbid condition (e.g., hypertension, type 2 diabetes mellitus, or dyslipidemia) **AND**
- Medical documentation of therapeutic failure to Wegovy

**NOTE:** Contrave is not indicated for treatment of chronic weight management:

- In patients with major depressive disorder or other psychiatric disorders due to increased risk of suicidal thinking and behavior
- In combination with bupropion containing products
- In combination with other products for weight loss, as safety and efficacy or coadministration has not been established
- In uncontrolled hypertension

- In patients with seizure disorders, anorexia nervosa or bulimia, or undergoing abrupt discontinuation of alcohol, benzodiazepines, barbiturates, and antiepileptic drugs
- In combination with chronic opioid use
- In concomitant use or within 14 days of taking monoamine oxidase inhibitors (MAOI)
- In known hypersensitivity to any ingredients of naltrexone/bupropion
- In pregnancy
- In pediatric patients

**MEDISPAN APPROVAL LEVEL:** GPI-12

**AUTHORIZATION DURATION:** Initial approval will be for 6 months. Subsequent approvals will be for an additional 6 months and will require:

- Medical record documentation that the member continues to experience clinical benefit from Contrave based on the prescriber's assessment **AND**
- Medical record documentation that member has experienced at least a 4% reduction in weight from baseline.

If an exception is made, Contrave will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Brenzavvy for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Brenzavvy may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of type 2 diabetes mellitus (T2DM) **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to Jardiance **AND** Farxiga

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day

If an exception is made, Brenzavvy will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Jardiance, Synjardy, Farxiga, Xigduo

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical

An exception for coverage of Vanflyta may be made for members who meet the following criteria:

- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation that Vanflyta is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of newly diagnosed acute myeloid leukemia (AML) **AND**
- Medical record documentation that member is FLT3 internal tandem duplication (ITD)-positive as detected by a Food and Drug Administration (FDA)-approved test* **AND**
- Medical record documentation that Vanflyta will be used in combination with standard cytarabine and anthracycline induction, in combination with cytarabine consolidation, and as maintenance monotherapy following consolidation chemotherapy (excludes maintenance monotherapy following allogeneic hematopoietic stem cell transplantation)

**NOTE:** The FDA-approved test for FLT3-ITD positive AML is LeukoStrat CDx FLT3 Mutation Assay

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 2 tablets per day, 28 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Initial approval will be for 6 months. Subsequent approvals will be for 12 months and will require medical record documentation of continued disease improvement or lack of disease progression. The medication will no longer be covered if patient experiences toxicity or worsening of disease.

Authorization of Vanflyta for the treatment of FLT3-ITD positive acute myeloid leukemia (AML) should not exceed the FDA-approved treatment duration of 2 cycles of induction, up to 4 cycles of consolidation, and up to 36 cycles as maintenance. For requests exceeding the above limit, medical record documentation of the following is required:

- Peer-reviewed literature citing well-designed clinical trials to indicate that the member's healthcare outcome will be improved by dosing beyond the FDA-approved treatment duration

If an exception is made, Vanflyta will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

      - QL for letter: Loading dose: 160 mg on day 1, 80 mg on day 8 and day 15; Maintenance dose: 40 mg every week (4 pens/syringes per 28 days)
- For HS:
  - Adults and age 12-18 years weighing ≥ 60 kg: 160 mg on Day 1, 80 mg 2 weeks later, then 40 mg weekly
    - In NCRX: Add PA, OQL, max quantity 6, max day supply 28, max script 1 for a 3 week authorization duration
    - In PA Hub: Add OQL, max quantity dispensed 4, with an end date of 12/31/2099. Start date of this authorization is 3 weeks after approval date.
      - QL for Letter: Loading dose: 160 mg on day 1, 80 mg 2 weeks later; Maintenance dose: 40 mg every week (4 pens/syringes per 28 days)
  - Adults and age 12-18 years weighing ≥ 60 kg: 160 mg on Day 1, 80 mg 2 weeks later, then 80 mg biweekly
    - In NCRX: Add PA, max script 1, enter for the remainder of the calendar year
    - In PA Hub: Add OQL, max quantity dispensed 2, with an end date of 12/31/2099. Start date of this authorization is 3 weeks after approval date.
      - QL for Letter: Loading dose: 160 mg on day 1, 80 mg 2 weeks later; Maintenance dose: 80 mg every other week (2 pens/syringes per 28 days)

  - Age 12-18 years weighing 30 to < 60 kg: 80 mg on day 1, then 40 mg biweekly
    - In NCRX: Add PA, max script 1, enter for the remainder of the calendar year
    - In PA Hub: Add OQL, max quantity dispensed 2 with an end date of 12/31/2099. Start date of this authorization is 3 weeks after initial approval date.
      - QL for Letter: Loading dose: 80 mg on day 1; Maintenance dose: 40 mg every other week (2 pens/syringes per 28 days)
- For Panuveitis:
  - Adult: 80 mg on day 1, then 40 mg biweekly
    - In NCRX: Add PA, OQL, max quantity 4, max day supply 28, max script 1 for a 3 week authorization duration
    - In PA Hub: Add OQL, max quantity dispensed 2, with an end date of 12/31/2099. Start date of this authorization is 3 weeks after initial approval date.
      - QL for Letter: Loading dose: 80 mg on day 1; Maintenance dose: 40 mg every other week (2 pens/syringes per 28 days)
  - Pediatric:
    - In NCRX: Add PA, max script 1, enter for the remainder of the calendar year
    - In PA Hub: Add OQL, max quantity dispensed 2with an end date of 12/31/2099.
      - QL for letter: 2 per 28 days

If an exception is made, Abrilada, Amjevita, Cyltezo, Adalimumab-adbm (unbranded Cyltezo), Hulio, Hyrimoz, Adalimumab-adaz (unbranded Hyrimoz), Idacio, or Yuflyma will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Humira*, Adalimumab-fkjp*, Hadlima*, Yusimry*

*prior authorization required

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 789.0**

**SECTION: Commercial Drug**
**SUBJECT: Litfulo**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Litfulo for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Litfulo may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of severe alopecia areata, defined as at least 50% scalp hair lose as measured by the Severity of Alopecia Tool (SALT) **AND**
- Medical record documentation of age greater than or equal to 12 years **AND**
- Medical record documentation of therapeutic failure on, intolerance to, or contraindication to one of the following:
    - Systemic therapy used for at least 3 months (for example, corticosteroids, methotrexate, cyclosporine) **OR**
    - Prescription topical corticosteroids used for at least 28 days **OR**
    - Intralesional corticosteroids used for at least 3 months **AND**
- Medical record documentation that member does not have hair loss due to androgenetic alopecia (includes male and female pattern hair loss), chemotherapy-induced hair loss, or other causes of hair loss other than alopecia areata **AND**
- Medical record documentation that Litfulo is not prescribed in combination with other Janus kinase inhibitors, biologic immunomodulators, cyclosporine, or other potent immunosuppressants

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 1 tablet per day, 30 day supply per fill

**AUTHORIZATION DURATION:** Approval will be given for a duration of twelve (12) months. For continuation of coverage, medical record documentation of clinical

improvement or lack of progression in signs and symptoms of alopecia areata on Litfulo therapy is required.

If an exception is made, Litfulo will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

prednisone, methylprednisolone, dexamethasone, prednisolone
**Low-potency topical corticosteroids:** alclometasone dipropionate 0.5% cream and ointment (Aclovate); desonide 0.05% cream, ointment and lotion (Desowen); fluocinolone acetonide 0.01% cream, solution, body and scalp oil (Synalar/Derma-Smoothe); hydrocortisone 1% and 2.5% cream, ointment, and lotion (Hytone)
**Medium-potency topical corticosteroids:** betamethasone valerate 0.1% cream and lotion (Valisone); fluocinolone acetonide 0.025% cream and ointment (Synalar); flurandrenolide 0.05% cream, ointment, and lotion (Cordran); fluticasone propionate 0.05% cream and lotion (Cutivate); hydrocortisone butyrate 0.1% cream, ointment and solution (Locoid); hydrocortisone valerate 0.2% cream and ointment (Westcort); mometasone 0.1% cream (Elocon); prednicarbate 0.1% cream and ointment (DermAtop); triamcinolone acetonide 0.025% cream, ointment and lotion (Kenalog); triamcinolone 0.1% cream, ointment and lotion (Kenalog); triamcinolone acetonide 0.147 mg/g aerosol (Kenalog Spray)
**High-potency topical corticosteroids:** amcinonide 0.1% cream, ointment and lotion (Cyclocort); augmented betamethasone dipropionate 0.05% cream (Diprolene AF); betamethasone dipropionate 0.05% cream, ointment and lotion (Diprolene); betamethasone valerate 0.1% ointment (Valisone); betamethasone valerate 0.12% foam (Luxiq); desoximetasone 0.25% cream, ointment and 0.05% cream, gel, ointment (Topicort/Topicort LP); ); diflorasone 0.05% cream (Florone/Psorcon); fluocinonide 0.05% cream, ointment, gel and solution (Lidex); fluticasone 0.005% ointment (Cutivate); mometasone 0.1% ointment (Elocon); triamcinolone 0.5% cream and ointment (Kenalog)
**Very high-potency topical corticosteroids:** augmented betamethasone dipropionate 0.05% ointment, gel and lotion (Diprolene); clobetasol 0.05% cream, ointment, scalp lotion, shampoo, foam (Temovate/Clobex/Olux); diflorasone diacetate 0.05% ointment (ApexiCon/Psorcon E); fluocinonide 0.1% cream (Vanos); halobetasol 0.05% cream and ointment (Ultravate)

When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical

An exception for coverage of Truqap may be made for members who meet the following criteria:

- Medical record documentation that Truqap is prescribed by an oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years **AND**
- Medical record documentation of a diagnosis of locally advanced or metastatic breast cancer that is hormone receptor-positive, HER2-negative (HR+/HER2-) **AND**
- Medical record documentation of one or more PIK3CA, AKT1, or PTEN-alteration determined using a Food and Drug Administration (FDA) approved test **AND**
- Medical record documentation that Truqap is being prescribed in combination with fulvestrant **AND**
- Medical record documentation of one of the following:
    - Documentation of therapeutic failure on, intolerance to, or contraindication to prior endocrine therapy **OR**
    - Documentation of recurrence on or within 12 months of completing adjuvant therapy

**NOTE:** The FDA approved test is the *FoundationOneCDx.*

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12, number of claims authorized = 1, enter for the remainder of the calendar year

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 64 tablets per 28 days

**RE-AUTHORIZATION CRITERIA:** Truqap is configured as a prior authorization for new starts only. Truqap will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If an exception is made, Truqap will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**

Endocrine Therapy: exemestane, letrozole, anastrozole, tamoxifen, toremifene

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**

**POLICY AND PROCEDURE**
**PHARMACY**
MANUAL

**POLICY NUMBER: 794.0**

**SECTION: Commercial Drug**
**SUBJECT: Xdemvy**

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Xdemvy for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

An exception for coverage of Xdemvy may be made for members who meet the following criteria:

- Medical record documentation of a diagnosis of chronic *Demodex* blepharitis (DB) evidenced by:
  - Presence of at least mild erythema of the upper eyelid margin **AND**
  - Presence of mites upon examination of eyelashes by light microscopy or presence of collarettes on slit lamp examination **AND**
- Medical record documentation that Xdemvy is prescribed by or in consultation with an ophthalmologist **AND**
- Medical record documentation of age greater than or equal to 18 years old **AND**
- Medical record documentation of a prescribed dose and administration that is consistent with FDA-approved package labeling, nationally recognized compendia, or peer-reviewed medical literature

**NOTE:** The clinical trials performed evaluated a 6-week treatment course only. The benefits of a longer treatment course of Xdemvy are unknown. Tarsus has stated that retreatment may be necessary in about 40% of patients at 1 year following initial treatment, so while a longer treatment course is not advisable, retreatment in some patients is likely to be necessary.

**MEDISPAN AUTHORIZATION LEVEL:** GPI-14

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 10 mL per 42 days

**AUTHORIZATION DURATION:** 6 weeks

If an exception is made, Xdemvy will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

| POLICY AND PROCEDURE<br>**PHARMACY**<br>MANUAL | SECTION: Commercial Drug<br>SUBJECT: Iwilfin |

**Applicable line of business:**

| | | | |
|---|---|---|---|
| Commercial | X | Medicaid | |
| Medicare | | ACA | X |
| GHP Kids | X | Self-Insured | X |

**POLICY:**

Geisinger Health Plan (GHP) administers a pharmacy benefit through the use of a formulary. The formulary is developed and applied according to the processes outlined in Pharmacy Policy 2.0 Geisinger Health Plan (GHP) Formulary Application and Recalls, Pharmacy Policy 3.0 Geisinger Health Plan (GHP) Formulary Exception, and Pharmacy Policy 143.0OT Formulary Development by the Pharmacy & Therapeutics Committee. The results of this process determine the development and application of criteria for non-formulary products or prior authorization criteria for certain formulary medications. This specific policy explains how coverage decisions are determined for Iwilfin for GHP members who have prescription drug benefits, including Commercial, ACA, GHP Kids, and Self-Insured plans, unless a specific limitation or exception exists. Additional policies that may be referenced as part of a coverage decision include:

- Policy 9.0 Brand
- Policy 487.0 Quantity Limit Exceptions

**REQUIRED DEFINITIONS:**

1. ***Attachment*** – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. ***Exhibit*** – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. ***Devised*** – the date the policy was implemented.
4. ***Revised*** – the date of every revision to the policy, including typographical and grammatical changes.
5. ***Reviewed*** – the date documenting the annual review if the policy has no revisions necessary.

**ADDITIONAL DEFINITIONS:**

1. ***Formulary*** – a continually updated list of prescription medications that represents the current covered drugs under the Plan.
2. ***Non-formulary products*** – those medications that are not included in the Formulary.
3. ***Healthcare provider*** – a person who is licensed, certified or otherwise regulated to provide health care services under the laws of the Commonwealth of Pennsylvania (i.e., physician, physician's assistant, certified registered nurse practitioner).
4. ***NCQA*** – National Committee for Quality Assurance.
5. ***Medically Necessary or Medical Necessity*** – covered services rendered by a provider that the Health Plan determines are:

A. Appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
B. Provided for the diagnosis, or the direct care and treatment of the Member's condition, illness, disease or injury;
C. In accordance with current standards of medical practice;
D. Not primarily for the convenience of the Member, or the Member's Provider; and
E. The most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

**PROCEDURE:**

New members to the plan already established on therapy may be eligible for continuity of care coverage as long as there is medical record documentation that the safety and effectiveness of use for the prescribed indication is supported by Food and Drug Administration (FDA) approval or adequate medical and scientific evidence in the medical

An exception for coverage of Iwilfin may be made for members who meet the following criteria:

- Medical record documentation that Iwilfin is prescribed by a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 1 year **AND**
- Medical record documentation that Iwilfin is being used to reduce the risk of relapse in patients with high-risk neuroblastoma (HRNB) **AND**
- Medical record documentation that the patient demonstrated at least a partial response to prior multiagent, multimodality therapy including anti-GD2 immunotherapy

**MEDISPAN AUTHORIZATION LEVEL:** GPI-12

**QUANTITY LIMIT:** *No QLs need to be entered within the authorization unless the requested quantity exceeds the QL.*

- QL FOR LETTER ONLY: 8 tablets per day, 30 day supply per fill

**RE-AUTHORIZATION CRITERIA:** Iwilfin is configured as a prior authorization for new starts only. Iwilfin will no longer be covered if it is identified that the member is not receiving appropriate follow-up care from the prescribing specialist or if the member has greater than or equal to a 90 day break in therapy.

- Medical record documentation that the member is receiving appropriate follow-up care from the prescribing specialist

If an exception is made, Iwilfin will be paid for under the member's prescription drug benefit.

Reviewer should refer to the process and procedure in Pharmacy Policy 3.0 (Geisinger Health Plan (GHP) Formulary Exception) for additional information.

**FORMULARY ALTERNATIVES:**
none

**THIS POLICY WILL BE MAINTAINED IN COMPLIANCE WITH THE STANDARDS OF NCQA AND ANY OTHER APPLICABLE STATE AND FEDERAL REGULATORY ENTITIES.**

**THIS POLICY WILL BE REVISED AS NECESSARY AND REVIEWED NO LESS THAN ANNUALLY.**
